## The Guide to Current Official Statistics

It is the aim of the Permanent Consultative Committee on Official Statistics, in issuing this Annual Guide, to direct the enquirer to all current official publications that contain statistics bearing on his subject, and especially to inform him of the nature of the statistics he will find in the volume to which he is referred. The Guide embraces two distinct sections: (i) a Subject Index and (ii) a List of Publications. It covers the whole of the statistical information contained in publications issued by Government Departments in Great Britain and Northern Ireland and is a work of obvious utility.
