

107 Narrow fabrics

This Report on the Narrow Fabrics Industry relates to establishments engaged wholly or mainly in manufacturing woven, knitted or braided elastics or elastomers not more than 30 cm. wide; ribbon, braid, tape, webbing, binding, braided bootlaces, etc other than elastic; and in weaving machinery belting of all materials on narrow looms.

This industry corresponds to minimum list heading 421 in the Standard Industrial Classification (Revised 1968) which has been used for the first time as a basis of classification in the 1968 Census.

The industry corresponds to the Narrow Fabrics Industry (Part 84) in the Reports on the last detailed Census of Production for 1963, except that woven and knitted elastics and elastomeric goods over 30 cm. wide formerly included in this report are now shown in the Weaving of Cotton, Linen and Man-made Fibres (Part 100) and the Hosiery and Other Knitted Goods (Part 104) industries respectively.

Throughout this Report, the figures given for 1963 have been reclassified, as far as possible, according to the Standard Industrial Classification (Revised 1968) so that data for 1963 and 1968 are on the same industrial basis. However the reclassification of small firms, which provided limited information only, has been arbitrary.

In interpreting the data in the tables it is essential to bear in mind the notes and definitions which appear on pages (i) to (iv).

(a) For 1968, estimates for establishments not making satisfactory returns and for small establishments, from which only employment data were collected, accounted for 7 per cent. of the total figures in which they were incorporated: of this, unsatisfactory returns accounted for a negligible amount. For 1963 the comparable figures were 5 per cent. and 1 per cent. respectively.

(b) The following information relates to small establishments (employing fewer than 25 persons) in this industry. It includes an estimate for small establishments not making satisfactory returns.

(a) The percentages relate to the numbers employed (excluding working proprietors) at June 1969, the earliest date for which the information is available on the basis of the Standard Industrial Classification, (Revised 1968).

Footnotes to Table 4.

- (a) Some establishments employing fewer than 25 persons were included in returns for larger establishments. These amounted to 6 establishments in 1968 and 12 in 1963.
- (b) The method of classifying returns to sub-divisions of the industry is explained in the notes; the characteristic products of each sub-division are identified in Table 5.
- (c) The sum of the figures for the sub-divisions exceeds the total for the industry to the extent that enterprises made returns for more than one sub-division.
- (d) Including services rendered to other organisations (amounts charged for hiring out plant, machinery or other goods for providing transport, or for technical or other services rendered).
- (e) Direct sales of goods (excluding canteen takings) made to, and work done for, the general public by larger establishments are included. These amounted to £4,000 in 1968. Similar information is not available for 1963.
- (f) Characteristic products relate only to sub-divisions of the industry.
- (g) For sub-divisions of the industry, this is the ratio of sales of characteristic products to total sales of goods produced and work done. For the industry as a whole, this is the ratio of total sales of principal products by the industry to total sales of goods produced and work done.
- (h) Administrative, technical and clerical employees.
- (i) Excluding expenditure for establishments not yet in production.

- (a) The number given is that of the sub-division of which the item is a characteristic product. The sales shown are total sales by larger establishments, not merely sales by establishments classified to the sub-division.
- (b) For 1963, elastic and elastomeric goods were not distinguished by width, and those exceeding 30 cm. are therefore included: for 1968 woven elastic and elastomeric fabrics and other goods exceeding 30 cm. are included in the report on the Weaving of Cotton, Linen and Man-made Fibres Industry (Part 100) and knitted elastic and elastomeric fabrics in the report on the Hosiery and Other Knitted Goods Industry (Part 104).
- (c) Surgical hosiery and clothing made up from elastic and elastomeric fabrics are included in the report on the Surgical Instruments and Appliances Industry (Part 69) and in the report on the Corsets and Miscellaneous Dress Industries (Part 122) respectively.
- (d) Including woven machinery belting of all widths.
- (e) Machinery belting of leather and of rubber or plastics materials are included in the report on the Leather (Tanning and Dressing) and Fellmongery Industry (Part 113) and in the report on the Rubber Industry (Part 144) respectively.
- (f) Amended figure.
- (g) This figure represents the total number of returns made for larger establishments in this industry which is less than the total number of establishments shown in Table 4 on account of combined returns covering more than one establishment.
