Report on the  
Census of Production

Summary Tables

HMSO

A publication of the Government Statistical Service

PA 1002

**BUSINESS MONITOR**

A publication of the Government Statistical Service

**Report on the  
Census of Production  
1980**

**Summary Tables**

Presented by the Secretary of State for Industry  
to Parliament in pursuance of the Statistics of Trade Act 1947  
(10 & 11 Geo.6 Cha.39 sec 7)

**Department of Industry  
Business Statistics Office**

London: Her Majesty's Stationery Office

**PRICE INCREASES**

Prices of Business Monitors in 1983 have been set to make some contribution to the costs incurred at the Business Statistics Office in the preparation of Monitors.

**The Government Statistical Service**

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics division of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

Enquiries about statistics in this publication should be made to the Business Statistics Office, Government Buildings, Cardiff Road, Newport, Gwent, NPT 1XG. Telephone 0633-56111 ext 2082

## SUMMARY TABLES

## INTRODUCTION

1. This Business Monitor presents summary information of the Census of Production for 1980 at establishment and enterprise level. Comparative data for 1979 is given in establishment tables 1, 2, 3, 5, 10 and 11. Where revised figures have become available since the publication of the separate industry Monitors, the opportunity has been taken to include them in these summary tables. The Census of Production forms part of a system of industrial statistics that also includes selected monthly inquiries, quarterly inquiries into detailed product sales and less frequent inquiries into detailed purchases. The 1980 census is the first to be conducted on the Standard Industrial Classification (SIC) Revised 1980. The notes below give the main information needed for interpreting the figures; more detailed information about the census is given in a separate Business Monitor — PA1001 (Introductory Notes) Report on the Census of Production 1980.

2. Where the publication of any figure is likely to disclose particulars relating to an individual undertaking, either the contributor is approached to seek consent for publication or the figure is suppressed. Where convenient, suppression takes the form of combining the disclosive figure with adjacent cells. Steps are also taken to avoid the release of figures which may lead to disclosure by deduction when compared with other census results.

## 3. Symbols used

The following symbols are used throughout the PA series of Business Monitors:

- .. not available
- nil or less than half the final digit shown
- \* figures cannot be shown owing to the risk of disclosing information about individual enterprises
- R revised

## 4. Rounding of figures

Figures in the tables have, where necessary, been rounded to the nearest final digit. Where figures have been so rounded, the sum of the constituent items may not always agree exactly with the total shown.

## 5. Industrial classification

The United Kingdom SIC was first issued in 1948 and revised in 1958, 1968 and 1980. It exists to promote uniformity and comparability in the official statistics of the United Kingdom. Prior to the 1980 revision the general principles followed were those of the International Standard Industrial Classification of all Economic Activities of the United Nations Statistical Office but for the 1980 revision an attempt was made to align the United Kingdom classification as closely as practicable with NACE the classification in use by the Statistical Office of the European Communities. The SIC is a classification by activity and not a commodity classification.

## 6. Statistical units

The statistical unit for the purposes of the census is the establishment, which is defined in the SIC as the smallest unit which can provide the information normally required for an economic census, for example, employment, expenses, turnover and capital formation. Usually the principal activities carried on in an establishment fall within a single heading of the classification (e.g. steel making or sugar refining). Typically the establishment embraces all the activities carried on at a single address e.g. a mine or factory, including those which are ancillary to the principal activities. Frequently distinct activities characteristic of different industries are carried on at one address, but normally these are not classified separately and the whole establishment is classified according to the main activity. If, however, the required range of data can be provided for each activity, each is taken to constitute a separate establishment. Sometimes activities which are conducted as a single business are carried on at a number of addresses. Where this is so, businesses are asked to provide the full range of information in respect of each address, whether or not the activities are different. Their activities may, however, be integrated to such an extent that they constitute a single establishment. In the latter case the establishment is defined to cover the combined activities at these addresses (termed local units). Separate figures of employment and net capital expenditure are obtained for each local unit in order to compile regional tables. Efforts are made by the BSO to ensure by negotiating with respondents, that the return from an establishment does not cover local units in more than one of the countries of the United Kingdom. For certain purposes in the censuses of production (e.g. for disclosure testing and the preparation of the enterprise analyses shown in this Monitor) related establishments are combined to enterprise level. An enterprise group is defined as a business consisting of either a single establishment or two or more establishments under common ownership or control. Information about relationships between establishments, the changing structure of groups of companies and about common ownership links is obtained from many sources, including the Stock Exchange Year Book, company reports, press reports and information supplied by individual establishments.

## 7. Coverage

The census covers United Kingdom establishments engaged in production and construction industries (Divisions 1 to 5 of the SIC (Revised 1980)). The Channel Islands and Isle of Man are excluded.

Under the sampling arrangements agreed for the 1980 census, forms were despatched to samples of 1 in 4 and 1 and 2 for the 20 to 49 and 50 to 99 employment size bands respectively for most production industries. For a limited number of production industries, where there were very few units in the sample size bands, all establishments with 20 or more were included. Units employing fewer than 20 continued to be exempt from selection. All units employing 100 or more were subject to a full coverage. The total number of forms mailed was 18,965.

In the construction industry all undertakings employing 50 or more were selected. The 1 in 2 sample for undertakings with 20 to 49 employees introduced for the 1979 census was repeated, but the 5 per cent sample of undertakings with fewer than 20 employees was discontinued. This resulted in a reduction in the number of forms sent out to 6,500, which is about one half of the average mailed for the years to 1978.

## EXPLANATION OF TERMS USED IN THE CENSUS REPORT

## 8. Capital expenditure

Capital expenditure during the year in respect of production units where production had not started before the end of the year is included. Establishments were asked not to deduct from the value of capital expenditure amounts received or expected to be received in grants or allowances from the Government or any statutory body or local authority. Establishments with 100 or more employees were asked to include a total net capital expenditure figure for the calendar year.

## a. New building work

This represents the cost incurred during the year of new building and other construction work to be used in connection with the business covered by the return. The value is that charged to capital account during the year of return; it includes expenditure on new buildings and on the extension or reconstruction of old buildings, the value of works of a capital nature carried out by the establishments own staff and the cost of any newly constructed buildings purchased. Figures shown include legal charges, stamp duties, agents commissions, etc.

## b. Land and existing buildings

The items shown are the capital cost of freeholds purchased and the capital cost or premium payable for leasehold acquired (excluding the value of assets acquired in taking over an existing business), and the amounts receivable for freeholds or leaseholds disposed of. The value is that charged to capital account during the year of return.

## c. Plant, machinery and vehicles

The items shown are the value of plant and machinery and of vehicles acquired both new and second-hand, and the amount received for items disposed of during the year. The value of plant and machinery acquired includes plant, etc. which firms produced for their own use in connection with the business covered by the return. The value of plant, etc. acquired is the expenditure charged to capital account during the year of return less any discounts received, but including the cost of transport and installation. Deductible value added tax is excluded but non-deductible value added tax on motor cars acquired and Customs and Excise car tax are included. No deduction is made for depreciation, amortization or obsolescence. The proceeds of items disposed of during the year exclude amounts written-off for items scrapped.

## 9. Capital goods produced for an establishment's own use

This includes all work of a capital nature carried out during the year by the establishment's own staff for their own use.

## 10. Cost of industrial services

This includes amounts payable to other firms for work done on materials supplied by the establishment, payments for repairs and maintenance (including those in respect of rented buildings) and amounts paid to other firms for contracts which have been sublet. Payments to outworkers are excluded.

## 11. Cost of non-industrial services

This includes rents of industrial and commercial buildings, hire of plant, machinery and vehicles (excluding vehicles hired with drivers), commercial insurance premiums, bank charges and amounts paid for professional services, post office services, transport (within the United Kingdom), advertising, etc. Amounts payable on royalties for the right to use patents, trademarks, copyrights etc., manufacturing and quarrying rights and technical "know-how" are also included.

## Employment:

## 12. Average number employed

Establishments were required to state the average number of persons on the pay roll during the year of return. Separate figures were required for:

- a. administrative, technical and clerical employees
- b. all other employees (operatives)

Averages could be calculated from the figures relating to the last week of each calendar month. Establishments were also required to state the number of working proprietors where appropriate and these are included in total employment figures. Full-time and part-time employees are included but outworkers (i.e. persons employed by establishments who worked in their own homes, etc. on materials supplied by the establishment) are excluded. The figures include persons engaged on merchanting or factoring and canteen workers where particulars in respect of these activities could not be excluded from the return.

### 13. Working proprietors

These include all persons regarded as "self-employed" for national insurance purposes and members of their families who work in the business without receiving a wage or salary; but such persons who work less than half the normal number of working hours are excluded. Directors working in the business but not in receipt of a definite wage, salary, or commission are included under this heading: directors paid by fee only are not included.

### 14. Employees

Administrative, technical and clerical employees include directors in receipt of a definite wage, salary, or commission; managers and works foremen; research and design employees (other than operatives); draughtsmen, editorial staff, advertising staff, travellers and all office employees.

Operatives include all other classes of employees, that is, broadly speaking, all manual wage earners. They include operatives employed in power stations, inspectors, maintenance workers and cleaners. Staff engaged in transport (including roundsmen), or employed in warehouses, stores, shops and canteens, should be included only where separate accounts are not kept. Operatives engaged in outside work of erecting, fitting, etc. are also included, but outworkers are excluded.

### 15. Employers' insurance and welfare contributions

This item includes employers' contributions to national insurance under the Social Security Pensions Act, 1975, as well as commercial insurance premiums to provide pensions, superannuation or other retirement benefits, sickness benefits, personal accident benefits, disability or death benefits for employees or former employees or their dependants.

Contributions to the running costs of canteens, social centres, children's and holiday homes, etc. for employees, former employees and their dependants are also included.

### 16. Gross output

In the calculation of gross output the value of total sales and work done is increased by the rise (or reduced by the fall) during the year in the value of work in progress and goods on hand for sale.

### 17. Gross value added at factor cost

Gross value added at factor cost is calculated by deducting from net output the cost of non-industrial services e.g. rent of buildings, hire of plant, machinery and vehicles (excluding vehicles hired with drivers), commercial insurance premiums, bank charges and amounts paid for professional services, post office services, transport (within the United Kingdom) and advertising, rates (excluding water rates) and the cost of licensing motor vehicles. This estimate of gross value added approaches more closely than census net output to the definition of net output or value added in national accounts statistics.

### 18. Gross value added at factor cost per head

The figures of gross value added at factor cost per head are derived by dividing the gross value added by the average number of persons employed (full and part-time) on all activities covered by the returns, including operatives, administrative, technical and clerical employees and working proprietors, but excluding outworkers.

### 19. Net output

Net output, a customary census measure, is calculated by deducting from gross output the cost of purchases (reduced by the rise, or increased by the fall, during the year of stocks of materials, etc.), the cost of industrial services received and, where applicable, duties, etc.

### 20. Net output per head

The figures of net output per head are derived by dividing the net output by the average number of persons employed (full and part-time) on all activities covered by the returns, including operatives, administrative, technical and clerical employees and working proprietors, but excluding outworkers.

### 21. Non-industrial services rendered

This includes rents received for commercial and industrial buildings, amounts charged for hiring out plant, machinery and vehicles and other goods and amounts charged to other organisations for the provision of transport. It also includes amounts received for the right to use patents, trademarks, copyrights etc., manufacturing and quarrying rights and technical "know-how" and revenue from such staff facilities as canteens.

### 22. Operating ratios

The operating ratios shown are obtained by dividing the estimate of the industry total for the quantity shown in the numerator by the corresponding estimate for the quantity shown in the denominator. These estimates cover all establishments classified to each industry, including establishments not selected and non-respondents. Within an industry, it is possible to compare ratios for an individual firm with the ratios shown for the relevant industry. However, it is important to bear in mind that various factors may affect the results e.g. differences in definitions, treatment of depreciation (which is not identified in the census data) and varying practice with regard to stock valuation, may affect comparability in some respects.

### 23. Purchases

Purchases include the cost of raw materials, components, semi-manufactured goods and workshop materials; of replacement parts and consumable tools not charged to capital account; of packaging materials of all types; of stationery and printed matter; of fuel, electricity and water; of materials of all types to be used by the establishment or given out to other establishments for the production of machinery or other capital items for the establishment's own use; of materials for use by the establishment when working on goods supplied by customers; and of food, etc. for any canteen covered by the establishment's return. Transfers of goods to the establishment from another department of the same firm not covered by the establishment's return are included at a cost corresponding to the estimated selling value recorded by the other departments. Amounts payable to transport firms or credited to the firm's own transport department for delivery of materials are excluded, as are all purchases of machinery and plant charged to capital account. Purchases of goods for merchanting or factoring have been collected separately since 1973. The values shown exclude VAT. They include, in addition to the actual purchase price, the value of packaging material charged to the establishment. The value of returned goods or packaging material returned to the suppliers and any trade discounts are excluded. Materials purchased duty-paid are included at their duty-paid value, less any drawback, rebate, etc. The cost of transport is included only if it is included with the purchase price in the firm's accounts. Imported goods are included at their full delivered cost. If in the firm's accounts the transport from docks or airport is not included in the cost of goods purchased, the cost is entered at c.i.f. plus duty (if applicable).

### 24. Receipts for work done and industrial services rendered

Figures for work done represent the amount charged for work carried out on materials supplied by a customer and include repair work. Within certain industries this heading covers a wide variety of activities, for example, within the food sector — butter packed on commission; within the textile industries — making up of garments, fur dressing and textile finishing; within printing and publishing — preparatory work on type-setting, block making and binding. Work done is also significant in the electrical machinery and heavy engineering industries, covering erection, installation and repair and jobbing work. Other activities within this heading include exploration work, research and development, glass-cutting and dressing and planing of timber.

Industrial services rendered include repairs and maintenance, installation work, and technical research and studies for other organisations.

### 25. Remuneration paid to outworkers

The remuneration paid to outworkers (i.e. persons employed by the establishment who do their work in their own homes) is generally on a piece-work basis. Only amounts paid to outworkers whose names appear on the establishment's payroll are included. Amounts paid to outworkers by sub-contractors are excluded.

### 26. Sales of goods produced

Sales for the purposes of the annual censuses means deliveries on sale of goods made by establishments in the United Kingdom covered by the inquiry. Sales of goods made for these establishments from materials given out to them and sales of waste products are included. Forward sales and canteen takings are excluded. All sales in the period of the the inquiry are included irrespective of when the goods were manufactured.

Goods produced in one establishment and transferred either to ancillary departments not engaged in production for which there are separate accounts, or to another establishment of the same firm not covered by the return, are treated as sales by the producing establishment and valued as far as possible as if they had been sold to an independent purchaser. Goods transferred to wholesale or retail selling organisations, for which separate accounts are kept, are valued on the same basis.

The value shown for sales is the "net selling value" defined as the amount (excluding VAT) charged to customers, whether on an ex-works or delivered basis, after any trade discounts and agents' commissions have been deducted. The cost of packing materials less allowance for returnable cases is included. In industries where products attract Excise Duty the value stated is usually inclusive of duty if sold duty — paid and exclusive of duty if sold in bond or exported.

### 27. Stocks and work in progress

Values are given of stocks of goods on hand for sale and of materials, stores and fuel at the end of the year of return and of the change during the year, including any stocks of goods held for merchanting or factoring.

Work in progress is defined as materials which have been partially processed by the establishment but which are not usually sold or transferred to another establishment without further processing. The values include the cost of materials consumed and labour used. Progress payments made to sub-contractors are excluded and progress payments received from other organisations are not deducted.

**28. Wages and salaries**

These are amounts paid during the year to operatives and to administrative, technical and clerical employees. Payments to working proprietors, whether called salaries or not, are excluded. The values shown include all overtime payments, bonuses and commissions, whether paid regularly or not, and no deduction is made for income tax, insurances, contributory pensions, etc. The value of redundancy payments less any amounts reimbursed from Government sources is included. The values of any payments in kind, travelling expenses, etc. is excluded.

**29. Assisted areas**

Within each region separate estimates of employment and net capital expenditure are available for assisted areas (special development, development, intermediate and derelict land clearance). Assisted areas are areas of high labour supply for which government grants and other help is available.

(a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.

(b) The term enterprise is used in this Report to mean one or more establishments under common ownership or control.

(c) Some enterprises control establishments in more than one industry.

(d) The figures shown relate to statistical units described as undertakings, not establishments, for the following industries:-

Coal extraction and manufacture of solid fuels  
Production and distribution of electricity  
Public gas supply  
Water supply industry  
Construction.

(e) Excluding Group 130 - Extraction of mineral oil and natural gas.

(f) Excluding gas undertakings.

(g) Work in progress figures are not collected for the Construction industry.

(h) Licensed small mines, which, it is estimated, account for less than 1% of output, are excluded throughout.

Gross output	Purchases	Increase during the year, stocks of materials, stores and fuel	Cost of industrial services received	Net output		Cost of non-industrial services	Gross value added at factor cost	
				Total	per head		Total	per head
£ million	£ million	£ million	£ million	£ million	£	£ million	£ million	£
5,349.0	2,845.2	69.0	107.8	2,465.0	9,216	390.4	2,074.6	7,756

176,611.6	101,029.5	-488.1	4,686.0	70,407.9	10,800	11,380.5	59,027.4	9,054

(j) The number of colliery units for administrative and accounting purposes, exclusive of any mines not in active production. In some cases units comprise more than one mine.

(k) Undertakings in this industry were not required to complete census returns for 1979-1980 inclusive. Data shown have been compiled from information produced by the Department of Energy and the Department of Employment.

(l) Including excise payments etc. (net).

(m) Sales of products are valued at ex-quarry (ex-mine) or ex-works prices.

(n) Including cost of outward transport on goods sold.

(o) The increase in the number of undertakings reflects the improvement in register coverage for smaller undertakings.

(p) All manufacturing industries SIC (Revised 1968) is calculated as follows:-  
Divisions 2 to 4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

- (a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.
- (b) Average number employed during the year, including full and part-time employees and working proprietors.
- (c) Administrative, technical and clerical employees.
- (d) Includes the cost of employers' contributions to national insurance, pensions and welfare schemes and the running costs of canteens.

Wages and salaries				Employers' national insurance contributions (d)
Operatives		Others (c)

- (e) Excluding Group 130 — Extraction of mineral oil and natural gas.
- (f) Undertakings in this industry were not required to complete census returns for 1979–1980 inclusive. Data shown have been compiled from information produced by the Department of Energy and the Department of Employment.
- (g) All manufacturing industries SIC (Revised 1968) is calculated as follows:—  
Divisions 2 to 4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

**TABLE 3 Cost of non-industrial services received, licensing of motor vehicles and rates (excluding water rates) by industry, 1979-1980**  
All United Kingdom establishments classified to production and construction industries (a)

Standard Industrial Classification Revised 1980 Division Class Group	Industry	Year	Cost of non-industrial services received				Licensing of motor road vehicles	Rates excluding water rates

		1980	6,880.0	1,105.7	386.5	208.3

- (a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.
- (b) Capital expenditure in respect of establishments where production had not commenced before the end of the year, is included.
- (c) New building work plus acquisitions less disposals of land and existing buildings, vehicles and plant and machinery.
- (d) Excluding Group 130 — Extraction of mineral oil and natural gas.
- (e) Excluding Group 500 — Construction.
- (f) Undertakings in this industry were not required to complete census returns for 1979–1980 inclusive. Data shown have been compiled from information produced by the Department of Energy and the Department of Employment.

- (g) Including off-shore production platforms, production and appraisal wells, tanker off-shore loading systems, pipelines and terminals. The cost of installing these items is also included.
- (h) Including platform modules and equipment and their installation.
- (j) Including vehicles, ships, mobile drilling rigs and specialised floating equipment.
- (k) All manufacturing industries SIC (Revised 1968) is calculated as follows:—  
Divisions 2 to 4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

- (a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.
- (b) Establishments employing fewer than 20 persons are generally exempt from Business Statistics Office inquiries and data for these establishments are therefore of doubtful reliability. Figures for establishments employing 1-10 persons are particularly at risk. They should be regarded merely as the best estimates available and used with caution.
- (c) Average number employed during the year, including full and part-time employees and working proprietors.
- (d) Administrative, technical and clerical employees.

(a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.

(b) Average number employed during the year, including full and part-time employees and working proprietors.

(c) The figures shown represent wages and salaries paid to operatives, administrative, technical and clerical employees and outworkers.

(d) Where a census return covered addresses in two or more regions, an estimate of the wages and salaries, net output and gross value added attributable to each address was made by assuring that these were proportionate to employment. Estimates of total wages and salaries, net output and gross value added for each region were obtained by aggregating estimates for addresses located in that region.

(e) New building work plus acquisitions less disposals of land and existing buildings, vehicles and plant and machinery. Capital expenditure in respect of establishments where production had not commenced before the end of the year, is included.

TABLE 11 (continued)

Standard Industrial Classification Revised 1980 Activity	Industry	Year	Enterprises	Establishments (b)	Employment (c)
			Number	Number	Thousand
4942	Sports goods	1979	322	357	11.9
		1980	324	355	10.9
4954	Miscellaneous stationers' goods	1979	131	140	9.2
		1980	130	142	9.0
4959	Miscellaneous manufactures not elsewhere specified	1979	776	795	19.3
		1980	780	794	17.9

(a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.

(b) The figures shown relate to statistical units described as undertakings, not establishments, for the following industries:—

- Coal extraction and manufacture of solid fuels
- Production and distribution of electricity
- Public gas supply
- Water supply industry

(c) Average number employed, during the year, including full and part-time employees and working proprietors.

Wages and salaries	Gross output	Net output	Gross value added	Net capital expenditure (d)
£ million	£ million	£ million	£ million	£ million
40.7	180.2	89.5	72.8	1.9
44.0	190.5	96.7	76.3	2.6
38.0	181.8	89.5	70.5	8.3
43.6	209.7	109.4	87.2	9.2
64.2	247.4	130.5	107.1	6.1
68.2	247.4	130.7	104.9	4.9

(d) New building work plus acquisitions less disposals of land and buildings, plant and machinery and vehicles. Capital expenditure in respect of establishments where production had not commenced at the end of the year, is included.

(e) Undertakings in this industry were not required to complete census returns for 1979–1980 inclusive. Data shown have been compiled from information produced by the Department of Energy and the Department of Employment.

**TABLE 12 Analysis by employment within private and public sectors, 1980**

- (a) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.
- (b) The term enterprise is used in this Report to mean one or more establishments under common ownership or control.
- (c) Average number employed during the year, including full and part-time employees and working proprietors.
- (d) Administrative, technical and clerical employees.
- (e) Comprises sales of goods produced, work done, industrial and non-industrial services rendered, goods merchanted or factored and work of a capital nature carried out by establishments for their own use.

- (f) New building work plus acquisitions less disposals of land and existing buildings vehicles and plant and machinery. Capital expenditure in respect of establishments where production had not commenced before the end of the year, is included.
- (g) Excluding Group 130 - Extraction of petroleum and natural gas.
- (h) Gross value added relates to establishments employing 1-199 persons.
- (i) Including Central Government trading bodies, local authority and public corporations. Water companies and water boards are also included.

- (a) The term enterprise is used in this Report to mean one or more establishments under common ownership or control.
- (b) Including estimates for establishments not making satisfactory returns, non-response and establishments not selected for the Census.
- (c) Some enterprises control establishments in more than one industry. The sum of the enterprise counts for all Groups within a Class, and all Classes within a Division, may therefore exceed the enterprise count at the higher level.
- (d) Establishments employing fewer than 20 persons are generally exempt from Business Statistics Office inquiries and data for these establishments are therefore of doubtful reliability.
- (e) The figures shown relate to statistical units described as undertakings, not establishments, for the following industries:—
- Coal extraction and manufacture of solid fuels
  - Production and distribution of electricity
  - Public gas supply
  - Water supply industry.
- (f) Average number employed during the year, including full and part-time employees and working proprietors.
- (g) Administrative, technical and clerical employees.
- (h) Comprises sales of goods produced, work done, industrial and non-industrial services rendered goods merchanted or factored and work of a capital nature carried out by establishments for their own use.
- (j) Gross value added data for size group 1-99 is included in the following size group.

Wages and salaries		Total sales and work done (h)	Gross output	Net output		Gross value added at factor cost (j)		Net capital expenditure (k)	Total stocks and work in progress	
Others (g)	per head			Total	per head	Total	per head		Increase during year	Value at end of year
£ million	£	£ million	£ million	£ million	£	£ million	£	£ million	£ million	£ million
17.5	5,465	188.8	188.3	98.9	8,091			5.9	0.7	41.5
6.5	5,301	62.2	61.8	32.2	7,846	104.6	6,414	1.8	0.5	15.3

9.6	5,620	89.4	88.6	51.8	9,849	39.9	7,592	1.6	-1.2	21.9
22	20	19	19	22	21	21	11	11	..	21

- (k) New building work plus acquisitions less disposals of land and existing buildings, vehicles and plant and machinery. Capital expenditure in respect of establishments where production had not commenced before the end of the year, is included.
- (l) Excluding Group 130 — Extraction of mineral oil and natural gas.
- (m) Excluding gas undertakings.
- (n) Licensed small mines, which, it is estimated, account for less than 1% of output, are excluded throughout.
- (o) The number of colliery units for administrative and accounting purposes, exclusive of any mines not in active production. In some cases units comprise more than one mine.
- (p) Undertakings in this industry were not required to complete census returns for 1979-1980 inclusive. Data shown have been compiled from information produced by the Department of Energy and the Department of Employment.
- (q) Casual employees (jobbers) have been excluded from the employment data used in calculating net output per head and gross value added per head.

48	Processing of rubber and plastics	189	82.1
49	Other manufacturing industries	14	4.1

(a) Average number employed during the year, including full and part-time employees and working proprietors.

(b) Comprises sales of goods produced, work done, industrial and non-industrial services rendered, goods merchanted or factored and work of a capital nature carried out by establishments for their own use.

Net output	Gross value added at factor cost	Net capital expenditure (c)	Total stocks and work in progress	
			Increase during year	Value at end of year
£ million	£ million	£ million	£ million	£ million
25,896.2	21,635.4	2,809.8	20.7	13,905.8
4,222.0	3,532.4	633.9	-92.1	2,245.2
16	16	23	..	16
—	—	—	—	—
834.2	684.4	75.4	-48.4	673.6
144.3	114.3	14.5	2.9	9.7
989.2	790.3	143.3	26.2	309.1
3,434.0	2,775.2	648.9	-102.1	1,581.4
160.6	107.6	33.4	-33.2	94.3

3.4	3.1	0.5	-0.4	1.5
215.3	178.6	5.9	-13.9	106.1
109.9	85.9	9.0	-3.5	57.4
1,702.7	1,364.2	162.2	-38.9	377.0
866.9	703.6	101.2	-7.5	301.4
34.2	26.7	-0.3	-1.7	21.1

(c) New building work plus acquisitions less disposals of land and existing buildings, vehicles and plant and machinery. Capital expenditure in respect of establishments where production had not commenced before the end of the year, is included.

(d) There were 22 foreign enterprises.

## APPENDIX

## LIST OF INDUSTRY REPORTS, ETC.

Business Monitor No		Standard Industrial Classification Revised 1980 Reference
PA1001	Introductory Notes	
	ENERGY AND WATER SUPPLY INDUSTRIES	1
	COAL EXTRACTION AND MANUFACTURE OF SOLID FUELS	11
PA111	Coal extraction and manufacture of solid fuels	1113/1115
PA120	Coke ovens	120
	EXTRACTION OF MINERAL OIL AND NATURAL GAS	13
PA130	Extraction of mineral oil and natural gas	130
	MINERAL OIL PROCESSING	14
PA140	Mineral oil processing	140
	PRODUCTION AND DISTRIBUTION OF ELECTRICITY AND GAS	16
PA161	Production and distribution of electricity	161
PA162	Public gas supply	162
	WATER SUPPLY INDUSTRY	17
PA170	Water supply industry	170
	EXTRACTION OF MINERALS AND ORES OTHER THAN FUELS: MANUFACTURE OF METALS, MINERAL PRODUCTS AND CHEMICALS	2
	EXTRACTION AND PREPARATION OF METALLIFEROUS ORES	21
PA210	Extraction and preparation of metalliferous ores	210
	METAL MANUFACTURING	22
PA221	Iron and steel industry	221
PA222	Steel tubes	222
PA223	Drawing, cold rolling and cold forming of steel	223
PA224	Non-ferrous metals industry	224
	EXTRACTION OF MINERALS, NOT ELSEWHERE SPECIFIED	23
PA231	Extraction of stone, clay, sand and gravel	231
PA239	Extraction of miscellaneous minerals (including salt)	233/239
	MANUFACTURE OF NON-METALLIC MINERAL PRODUCTS	24
PA241	Structural clay products	241
PA242	Cement, lime and plaster	242
PA243	Building products of concrete, cement or plaster	243
PA244	Asbestos goods	244
PA245	Working of stone and other non-metallic minerals	245
PA246	Abrasive products	246
PA247	Glass and glassware	247
PA248	Refractory and ceramic goods	248
	CHEMICAL INDUSTRY	25
PA251	Basic industrial chemicals	251
PA255	Paints, varnishes and printing ink	255
PA256	Specialised chemical products mainly for industrial and agricultural purposes	256
PA257	Pharmaceutical products	257
PA258	Soap and toilet preparations	258
PA259	Specialised chemical products mainly for household and office use	259
	PRODUCTION OF MAN-MADE FIBRES	26
PA260	Production of man-made fibres	260

	METAL GOODS, ENGINEERING AND VEHICLES INDUSTRIES	3
	MANUFACTURE OF METAL GOODS NOT ELSEWHERE SPECIFIED	31
PA311	Foundries	311
PA312	Forging, pressing and stamping	312
PA313	Bolts, nuts, washers, rivets, springs and non-precision chains	313
PA314	Metal doors, windows, etc.	314
PA316	Hand tools and finished metal goods	316
	MECHANICAL ENGINEERING	32
PA320	Industrial plant and steelwork	320
PA321	Agricultural machinery and tractors	321
PA322	Metal-working machine tools and engineers' tools	322
PA323	Textile machinery	323
PA324	Machinery for the food, chemical and related industries, process engineering contractors	324
PA325	Mining machinery, construction and mechanical handling equipment	325
PA326	Mechanical power transmission equipment	326
PA327	Machinery for the printing, paper, wood, leather, rubber, glass and related industries; laundry and dry cleaning machinery	327
PA328	Miscellaneous machinery and mechanical equipment	328
PA329	Ordnance, small arms and ammunition	329
	MANUFACTURE OF OFFICE MACHINERY AND DATA PROCESSING EQUIPMENT	33
PA330	Manufacture of office machinery and data processing equipment	330
	ELECTRICAL AND ELECTRONIC ENGINEERING	34
PA341	Insulated wires and cables	341
PA342	Basic electrical equipment	342
PA343	Electrical equipment for industrial use, and batteries and accumulators	343
PA344	Telecommunication equipment, electrical measuring equipment, electronic capital goods and passive electronic components	344
PA345	Miscellaneous electronic equipment	345
PA346	Domestic-type electric appliances	346
PA347	Electric lamps and other electric lighting equipment	347
	MANUFACTURE OF MOTOR VEHICLES AND PARTS THEREOF	35
PA351	Motor vehicles and their engines	351
PA352	Motor vehicle bodies, trailers and caravans	352
PA353	Motor vehicle parts	353
	MANUFACTURE OF OTHER TRANSPORT EQUIPMENT	36
PA361	Shipbuilding and repairing	361
PA362	Railway and tramway vehicles	362
PA363	Cycles and motor cycles	363
PA364	Aerospace equipment manufacturing and repairing	364
PA365	Miscellaneous vehicles	365
	INSTRUMENT ENGINEERING	37
PA371	Measuring, checking and precision instruments and apparatus	371
PA372	Medical and surgical equipment and orthopaedic appliances	372
PA373	Optical precision instruments and photographic equipment	373
PA374	Clocks, watches and other timing devices	374

Business Monitor No.		Standard Industrial Classification Revised 1980 Reference
	OTHER MANUFACTURING INDUSTRIES	4
	FOOD, DRINK AND TOBACCO MANUFACTURING INDUSTRIES	41/42
PA411	Organic oils and fats	411
PA412	Processing of bacon, meat and poultry	4122/4123
PA413	Preparation of milk and milk products	413
PA414	Processing of fruit and vegetables	414
PA415	Fish processing	415
PA416	Grain milling	416
PA419	Bread, biscuits and flour confectionery	419
PA420	Sugar and sugar by-products	420
PA421	Ice cream, cocoa, chocolate and sugar confectionery	421
PA422	Animal feeding stuffs	422
PA423	Starch and miscellaneous foods	418/423
PA424	Spirit distilling and compounding	424
PA426	Wines, cider and perry	426
PA427	Brewing and malting	427
PA428	Soft drinks	428
PA429	Tobacco industry	429
	TEXTILE INDUSTRY	43
PA431	Woollen and worsted industry	431
PA432	Cotton and silk industries	432
PA433	Throwing, texturing, etc. of continuous filament yarn	433
PA434	Spinning and weaving of flax, hemp and ramie	434
PA435	Jute and polypropylene yarns and fabrics	435
PA436	Hosiery and other knitted goods	436
PA437	Textile finishing	437
PA438	Carpets and other textile floor coverings	438
PA439	Miscellaneous textiles	439
	MANUFACTURE OF LEATHER AND LEATHER GOODS	44
PA441	Leather (tanning and dressing) and fellmongery	441
PA442	Leather goods	442
	FOOTWEAR AND CLOTHING INDUSTRIES	45
PA451	Footwear	451
PA453	Clothing, hats and gloves	453
PA455	Household textiles and other made-up textiles	455
PA456	Fur goods	456
	TIMBER AND WOODEN FURNITURE INDUSTRIES	46
PA461	Sawmilling, planing, etc. of wood	461
PA462	Manufacture of semi-finished wood products and further processing and treatment of wood	462
PA463	Builder's carpentry and joinery	463
PA464	Wooden containers	464
PA465	Miscellaneous wooden articles	465
PA466	Articles of cork and plaiting materials, brushes and brooms	466
PA467	Wooden and upholstered furniture and shop and office fittings	467
	MANUFACTURE OF PAPER AND PAPER PRODUCTS; PRINTING AND PUBLISHING	47
PA471	Pulp, paper and board	471
PA472	Conversion of paper and board	472
PA475	Printing and publishing	475

	PROCESSING OF RUBBER AND PLASTICS	48
PA481	Rubber products	481/482
PA483	Processing of plastics	483
	OTHER MANUFACTURING INDUSTRIES	49
PA491	Jewellery and coins	491
PA492	Musical instruments	492
PA494	Toys and sports goods	494
PA495	Miscellaneous manufacturing industries	495
	CONSTRUCTION	5/50
PA500	Construction	500/1/2/3/4

**APPENDIX**

## Regional Classification

The boundaries of the Economic Planning Regions in England were adjusted on 1 April 1974, to take account of local government re-organisation under the Local Government Act, 1972. It has been decided that the standard regions for statistical purposes will coincide with the revised Economic Planning Regions. The regional boundaries which existed after 1 April 1974 are defined below.

**Areas****North**

Tyne and Wear, Cleveland, Cumbria, Durham, Northumberland.

**Yorkshire and Humberside**

South Yorkshire, West Yorkshire, Humberside, North Yorkshire.

**East Midlands**

Derbyshire, Leicestershire, Lincolnshire, Northamptonshire, Nottinghamshire.

**East Anglia**

Cambridgeshire, Norfolk, Suffolk.

**South East**

Greater London, Bedfordshire, Berkshire, Buckinghamshire, East Sussex, Essex, Hampshire, Hertfordshire, Isle of Wight, Kent, Oxfordshire, Surrey, West Sussex.

**South West**

Avon, Cornwall, Devon, Dorset, Gloucestershire, Somerset, Wiltshire.

**West Midlands**

West Midlands, Hereford and Worcester, Salop, Staffordshire, Warwickshire.

**North West**

Greater Manchester, Merseyside, Cheshire, Lancashire.

**Wales**

The whole of Wales.

**Scotland**

The whole of Scotland.

**Northern Ireland**

Antrim, Down, Armagh, Fermanagh, Tyrone, Londonderry, Belfast C.B., Londonderry C.B.

**BUSINESS MONITORS**

The results of most of the inquiries conducted by the Business Statistics Office are published as Business Monitors. Many firms find these Monitors useful when making decisions. They can give you information about manufacturing, mining, distributive and service industries.

If you would like a list of all Business Monitors currently available, and a price list, contact the BSO Librarian at the address below.

#### **MANUFACTURING UNITS IN THE UNITED KINGDOM**

##### **BUSINESS MONITOR PA 1003**

This Business Monitor presents analyses for 1978 of information recorded in the register of United Kingdom manufacturing units maintained by the Business Statistics Office. The number of manufacturing units in various size groups, by industrial classification and by area, and the total number of persons employed in each category is shown. Analyses of manufacturing units under foreign ownership and of manufacturing units grouped into enterprises are also shown.

The monitor is available at HMSO Bookshops (ref ISBN 011 512880 8) price £4.70, or can be ordered on standing order from HMSO Books, PO Box 569, London SE1 9NH. A standing order service which is available to all HMSO Account Holders ensures that this publication will be supplied automatically on publication followed by further monitors in the PA 1003 series as they are published. A £20 deposit will open an account.

#### **MA8 – NATIONALITY OF VESSELS IN UK SEABORNE TRADE**

How much of UK seaborne trade is carried in UK ships, and how much by our bilateral trading partners? How much is carried by so-called 'Flags of Convenience'? Has the UK share moved up or down? Do the shares differ in terms of weight, value or tonne-miles of cargo carried, or in terms of cargo type? And who carries UK seaborne trade with particular nations?

All these questions, very relevant to current discussions in the shipping world, are answered in the annual Business Monitor MA8 – Nationality of Vessels in United Kingdom Seaborne Trade. The latest issue, was published in September 1981 and is available from HMSO Bookshops (ISBN 0 11 512882 4) price £6.50 or can be ordered on standing order from HMSO Books, PO Box 569, London SE1 9NH. A standing order ensures that this publication will be supplied automatically on publication followed by further monitors in the MA8 series as they are published. A £20 deposit will open an account. Processed from information taken from import and export documents, the main analyses in MA8 present a detailed picture by type of cargo (tanker, dry bulk and other dry cargoes) of the quantity imported or exported by seas in UK bilateral trade with a detailed list of countries and areas, and the percentage shares carried by the following flags: UK, European Community (other than the UK), remaining OECD countries, flags of convenience and other. In addition, for the first time in MA8, the percentage carried by the bilateral trading partner is shown. Quantities and flag shares are also shown for a selection of commodities, with other tables giving average lengths of haul and a more detailed list of flags with their percentage carryings by cargo type. Figures in these detailed analyses are shown for a series of three years. Summary analyses give a longer historical run and show amounts and percentage shares in terms of value and tonne-miles in addition to weight of cargo carried.
