## BUSINESS MONITORS

### SPECIAL NOTE FOR PURCHASERS

The Business Statistics Office, aided by industry and commerce, provides much of the statistical data required by Government for monitoring the economy.

Much of this data is published in the form of Business Monitors, giving information about production, sales, employment and investment.

The Annual Census of Production Monitors deal with the manufacturing, energy, mining and construction industries. There are 115 Monitors in this series some of which cover more than one industry and they are all listed overleaf. They are prefixed by a code P (for Production) followed by A (annual series).

If you would like details concerning Annual Census of Production data published for earlier years please telephone Newport (STD 0633) 812455.

Full details of the range of Business Monitors are available in the form of a Business Monitor brochure, which can be obtained from the Librarian, Business Statistics Office, Government Buildings, Cardiff Road, Newport, Gwent, NP9 1XG. Telephone (0633) 812973. Telex 497121 and 497122; answer back BSONPT G.

### Standing order service

Placing a standing order with HMSO BOOKS enables a customer to receive future editions of this title and/or other titles in this series automatically as published.

This saves the time, trouble and expense of placing individual orders and avoids the problem of knowing when to do so.

For details please write to HMSO BOOKS (PC 13A/1), Publications Centre, PO Box 276, London SW8 5DT (or telephone 01-211 0363 for standing orders) and quoting reference X30.10.02.

The standing order service also enables customers to receive automatically as published all material of their choice which additionally saves extensive catalogue research. The scope and selectivity of the service has been extended by new techniques, and there are more than 3,500 classifications to choose from. A special leaflet describing the service in detail may be obtained on request.

## Report on the Census of Production 1986

### Summary volume

Presented by the Secretary of State for Trade and Industry  
to Parliament in pursuance of the Statistics of Trade Act 1947  
(10 & 11 Geo.6 Cha.39 sec 7)

Department of Trade and Industry  
Business Statistics Office

London: Her Majesty's Stationery Office

## EXPLANATORY NOTES AND DEFINITIONS

### INTRODUCTION

1. These notes give basic information to help with the interpretation of tables in this Summary Volume. More general information about the Census is given in a separate Business Monitor — Report on the Census of Production, Introductory Notes (PA1001).

2. Since 1980, Censuses have been conducted on the Standard Industrial Classification Revised 1980 (SIC(80)). The Standard Industrial Classification exists to promote uniformity and comparability in the official statistics of the United Kingdom. The SIC(80) is the result of an attempt to align the United Kingdom classification with the General Industrial Classification of Economic Activities within the European Communities (NACE). It is based on activity rather than commodities produced. A full description of SIC(80) is given in Standard Industrial Classification Revised 1980, obtainable from Her Majesty's Stationery Office, price £3.95. Figures for 'All manufacturing industries' on the 1968 classification can be calculated by adding information for Activity Headings 1115, 1200, 1401, 1402 and 1520 to, and deducting information for Activity Headings 2100, 2310, 2330 and 2396 from, information for Divisions 2 to 4 of SIC(80).

### REPORTING UNIT

3. As far as possible the reporting unit in respect of which information is collected is one whose activities fall within a single activity heading of the classification and which is situated at a single geographical location. Frequently, however, the information required cannot be provided on this basis. Where information covering a mixture of activities is all that is available, the unit is classified according to the main activity. Where a unit operates at a number of locations and the full range of information is not available for each location, the reporting unit is deemed to cover a number of locations. In most cases, separate information on employment and net capital expenditure is obtained for each location (local unit) in order to enable regional data to be compiled. The reporting unit, usually called the establishment, is therefore defined as the smallest unit for which the information normally required in a production census can be provided.

4. Establishments are asked to exclude from their returns particulars relating to ancillary departments not engaged in production (such as merchanting or factoring organisations, transport organisations, canteens and warehouses) for which separate accounts are kept. Transfers of goods produced to such departments are treated as sales, valued as far as possible as if sold to an independent purchaser. Where separate accounts are not kept, establishments are allowed to include details in their returns. Establishments are asked to include details relating to head offices engaged mainly in the administration of production units within the scope of the Census. Where head office activity covers more than one return, details are included in the principal return.

5. For certain tables in the Summary Volume, related establishments are combined to enterprise level. An enterprise is defined as a business consisting of establishments under common ownership or control. Information about relationships between establishments, the changing structure of groups of companies and common ownership links is obtained from various, mainly published, sources.

### THE REGISTER

6. A register of production units excluding construction throughout the United Kingdom is held on the BSO computer and provides the basis for BSO inquiries to the production sector. For each unit the register contains identification particulars and information about that unit's eligibility for inclusion in an inquiry, its relationship with other units in common ownership, its industrial classification, the nationality of its parent and location indicators for regional analyses. Regional and size analyses of manufacturing units are published in Business Monitor PA1003 — Analyses of United Kingdom Manufacturing (Local) Units by Employment Size. During 1984, for production inquiries, the BSO moved to an updated register which makes fuller use of information obtained from HM Customs and Excise VAT records.

7. The annual Census and other inquiries provide a major source of information for updating and checking the register. For establishments on the register making returns to the Quarterly Sales Inquiry, industrial classification is reviewed annually and is derived from an analysis of their commodity sales. Employment data are provided by the Quarterly Sales Inquiry and the Census of Production. Where establishments on the register do not make returns to these inquiries, employment is based mainly on information provided by the Department of Employment from Censuses of Employment. New additions to the register are obtained from various sources including HM Customs and Excise VAT records and Censuses of Employment.

8. The register for construction units is created each year from the Department of the Environment's Builders' Address File of private sector undertakings in Great Britain engaged in construction activities. To this are added undertakings in the public sector (usually the direct labour departments of local authorities) and undertakings in Northern Ireland.

### COVERAGE

9. The Census covers United Kingdom establishments engaged in industrial production, i.e. mining and quarrying, manufacturing, construction, and gas, electricity and water supply industries (Divisions 1 to 5 of SIC(80)). Establishments in the Channel Islands and the Isle of Man are excluded.

10. Under the sampling arrangements agreed for the 1986 Census, forms were despatched to all establishments with 100 or more employed with, for most production industries, samples of 1 in 4 and 1 in 2 respectively being taken for establishments in the 20 to 49 and 50 to 99 employment size bands. For the remaining industries, where there were few units in the sample size bands or where response in earlier years was poor, it was necessary to increase the sample. In the construction industries forms were despatched to all undertakings with 50 or more and to a 1 in 2 sample of undertakings with 20 to 49 employed. The sampling scheme is reviewed each year in the light of experience in the previous year's Census.

### PERIOD COVERED

11. Establishments were asked to make returns for the calendar year 1986 but, where this was not possible, returns for business years ending between 6 April 1986 and 5 April 1987 were accepted. Returns covering fewer than twelve months were accepted for businesses which had started or ceased trading during the year.

### ESTIMATION

12. All published Census results include estimates for non-responders, unsatisfactory returns and establishments not selected for the Census. Estimates are also made for items not covered on the shorter form sent to smaller establishments.

13. Within employment size groups in each industry, the "average per head" is calculated for each census variable by dividing the total returned value for each variable by the total returned employment. This value is multiplied by the employment thought to exist in each non-responding or unselected establishment to yield an estimated value for that establishment. Estimates for items not collected on the shorter form are made in a similar way using returned employment.

14. The accuracy of the totals produced by adding together estimates and returned data is mainly dependent on two measures. The first of these is the extent to which establishments making satisfactory returns account for the overall total for any heading. In practice a measure of this is normally taken to be the employment of establishments making satisfactory returns expressed as a percentage of the total estimated employment (this is given in footnote (a) to Table 1 in each Industry Report). Thus the accuracy of data published in an Industry Report where 95 per cent of the employment in the industry is covered by returns made, will, in general, be better than that in a Industry Report where the coverage is only 70 per cent.

15. The second measure is the extent to which individual headings in an Industry Report are related to employment. Thus an estimate of total earnings which bears a close relationship to total employment is likely to be more accurate than an estimate of capital expenditure where the relationship to employment is not so clearly marked.

### SUPPRESSION OF INFORMATION RELATING TO INDIVIDUAL UNDERTAKINGS

16. Sub-section 9(5)(b) of the Statistics of Trade Act 1947 states that:—

"The following provisions shall have effect with respect to any report, summary or other communication to the public of information obtained under the foregoing provisions of this Act—

in compiling any such report, summary or communication the competent authority shall so arrange it as to prevent any particulars published therein from being identified as being particulars relating to any individual person or undertaking except with the previous consent in writing of that person or the person carrying on that undertaking, as the case may be; but this provision shall not prevent the disclosure of the total quantity or value of any articles produced, sold or delivered; so, however, that before disclosing any such total the competent authority shall have regard to any representations made to them by any person who alleges that the disclosure thereof would enable particulars relating to him or to an undertaking carried on by him to be deduced from the total disclosed."

17. Figures which would be likely to disclose particulars relating to an individual undertaking are not published unless the contributor has given written consent for their publication.

### CHANGES MADE FOR 1986

18. The 1986 Census, like that for 1985, was a slimline one. Additional questions were asked for numbers of computer employees, costs of computer equipment purchased and, for larger establishments only, costs of hiring, leasing or renting computer equipment.

### SYMBOLS USED

19. The following symbols are used throughout the PA series of Business Monitors:

- .. not available
- nil or less than half the final digit shown
- \* figures cannot be shown owing to the risk of disclosing information about individual enterprises
- R revised

### ROUNDING OF FIGURES

20. Figures in the tables have been rounded to the nearest final digit where necessary and, in these instances, the sum of the constituent items may not always agree exactly with the total shown.

**EXPLANATION OF TERMS USED IN THE CENSUS REPORT**

21. The notes and definitions given in this section are based on the instructions given to respondents as to the way in which returns were to be completed.

**CAPITAL EXPENDITURE**

22. This represents the value charged to capital account together with any other amounts which ranked as capital items for taxation purposes during the year to which each establishment's return related. The value is inclusive of any amounts received or expected to be received in grants and/or allowances from government sources, statutory bodies or local authorities. Where expenditure is spread over more than one Census year, payments are included in the years in which they were made. Capital expenditure during the year in respect of production units where production had not started before the end of the year and the value of CAPITAL GOODS PRODUCED FOR ESTABLISHMENTS' OWN USE by establishments' own staff are included. The value of any assets acquired in taking over an existing business are excluded. The figures include non-deductible VAT but exclude deductible VAT. No allowance is made for depreciation, amortisation or obsolescence.

a. on LAND AND EXISTING BUILDINGS

23. This represents the value of freeholds and the value or premium payable or receivable for leaseholds acquired or disposed of. The figures for acquisitions include architects' and surveyors' fees, legal fees, stamp duties, agents' commissions and Land Registry fees. The figures for disposals are net of any such professional fees payable.

b. on NEW BUILDING WORK

24. This represents the value of new building and other constructional work such as the extension and reconstruction of old buildings, and the value of any newly constructed buildings acquired. The figures include architects' and surveyors' fees, legal fees, stamp duties, agents' commissions and Land Registry fees.

c. on PLANT AND MACHINERY, VEHICLES

25. This represents the value of new and second-hand plant and machinery and vehicles acquired or disposed of. The figures for acquisitions are net of any discounts received but include the cost of transport and installation and Customs and Excise car tax. The figures for disposals exclude amounts written off for capital assets which are scrapped.

**CAPITAL GOODS PRODUCED FOR ESTABLISHMENTS' OWN USE**

26. This represents the value of all work of a capital nature carried out during the year by the establishments' own staff for use in the businesses covered by the returns.

**COST OF INDUSTRIAL SERVICES RECEIVED**

27. This includes amounts payable to other organisations for work done on materials supplied by the establishment completing the return, for repairs and maintenance including those in respect of rented buildings, and for contracts which have been sublet. Direct payments to outworkers and amounts charged to capital account are excluded.

**COST OF NON-INDUSTRIAL SERVICES RECEIVED**

28. This includes commercial insurance premiums, bank charges and amounts payable to other organisations for the hire of vehicles, plant and machinery, for the rent of industrial and commercial buildings, for the services of accountants, auditors, agents, solicitors and surveyors other than in connection with the acquisition or disposal of capital assets, for postal and telecommunications services, for carriage by all forms of transport within the United Kingdom, for advertising, market research etc., for the right to use patents, trade marks, copyrights etc., for manufacturing and quarrying rights and technical 'know-how'. Interest payments and amounts payable for sea and air freight on goods exported and materials and fuel imported are excluded.

**EMPLOYERS' NATIONAL INSURANCE CONTRIBUTIONS ETC.**

29. This includes employers' national insurance contributions under the Social Security Pensions Act 1975, commercial insurance premiums for policies providing pensions, superannuation or other retirement benefits, sickness benefits, personal accident benefits, disability benefits or death benefits for employees or their dependents. Also included are contributions to canteens, social centres, children's and holiday homes etc. and the cost of supplying luncheon vouchers.

**EMPLOYMENT**

30. This is the average number of ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES and OPERATIVES on the payroll and the number of WORKING PROPRIETORS employed during the year of return. Full-time and part-time employees are included but outworkers (i.e. people who worked in their own homes on materials supplied by establishments) and casual employees such as jobbers are excluded. The average number of employees returned by individual establishments may have been calculated by, for example, the average of the number of employees on the payroll for the last week of each calendar month.

a. ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES

31. This includes directors who received a definite wage, salary or commission, managers, foremen, draughtsmen, editorial and advertising staff, travellers, all office employees and research and design employees other than operatives.

b. OPERATIVES

32. This includes all manual wage earners including operatives in power stations, operatives engaged in outside work of erecting, fitting, etc., inspectors, maintenance workers and cleaners. Staff engaged in transport (including roundsmen) and employed in warehouses, stores, shops and canteens are, in general, excluded.

c. WORKING PROPRIETORS

33. These are people who are regarded as self-employed for national insurance purposes, members of their families who worked in the business without receiving a definite wage or salary for at least half the normal working hours and directors who worked in the business but did not receive a definite wage, salary or commission. Part-time directors paid by fee only and directors who received a definite wage, salary or commission are excluded.

**GROSS OUTPUT**

34. This is calculated by increasing (or decreasing) the value of TOTAL SALES AND WORK DONE by the rise (or fall) during the year of WORK IN PROGRESS and GOODS ON HAND FOR SALE.

**GROSS VALUE ADDED AT FACTOR COST**

(closer to value added)

35. This is calculated by deducting from NET OUTPUT the COST OF NON-INDUSTRIAL SERVICES RECEIVED, RATES and the cost of LICENSING OF MOTOR VEHICLES. This estimate of gross value added approaches more closely than NET OUTPUT the definition of net output or value added in national accounts statistics.

**GROSS VALUE ADDED AT FACTOR COST PER HEAD**

36. This is calculated by dividing GROSS VALUE ADDED AT FACTOR COST by total EMPLOYMENT.

**NET CAPITAL EXPENDITURE**

37. This is calculated by adding to the value of NEW BUILDING WORK acquisitions less disposals of LAND AND EXISTING BUILDINGS, VEHICLES and PLANT AND MACHINERY.

**NET OUTPUT**

38. This is a traditional census measure calculated by deducting from GROSS OUTPUT the cost of PURCHASES OF MATERIALS FOR USE IN PRODUCTION AND PACKAGING AND FUEL and PURCHASES OF GOODS FOR MERCHANTING OR FACTORING, the COST OF INDUSTRIAL SERVICES RECEIVED and is adjusted for net duties and levies etc. where applicable. Purchases are adjusted for changes during the year of STOCKS OF MATERIALS, STORES AND FUEL.

**NET OUTPUT PER HEAD**

39. This is calculated by dividing NET OUTPUT by total EMPLOYMENT.

**NON-INDUSTRIAL SERVICES RENDERED**

40. This includes amounts charged for the hire of vehicles, plant and machinery, for the rent of industrial and commercial buildings, for the right to use patents, trade marks, copyrights etc., for manufacturing and quarrying rights, for technical 'know-how' and for the provision of transport to other organisations. It also includes revenue from staff facilities such as canteens.

**OPERATING RATIOS**

41. These ratios are calculated using industry totals, i.e. including the estimates for establishments not responding to or not selected for the Census. Respondents are able to compare the ratios for their own businesses with those for the industry as a whole.

**PURCHASES OF MATERIALS FOR USE IN PRODUCTION, AND PACKAGING AND FUEL PURCHASES OF GOODS FOR MERCHANTING OR FACTORING**

42. These include the cost of raw materials, components, semi-manufactured goods and workshop materials, replacement parts and consumable tools not charged to capital account, packaging materials of all types, stationery and printed matter, fuel, electricity and water, materials of all types used by the establishments or given out to other establishments for the production of machinery or other capital items for the establishments' own use and materials for use by the establishments when working on goods supplied by customers. The figures exclude VAT, purchases of machinery and plant, which are included in CAPITAL EXPENDITURE, and amounts payable to transport firms or credited to establishments' own transport departments for delivery of materials. The figures are net of the value of goods or packaging materials returned to suppliers and trade discounts receivable. Materials purchased duty-paid are included at their duty-paid value less drawbacks, rebates etc. Imported goods are included at their full delivered cost. If the transport from docks or airport of imported goods is not included in the cost of goods purchased, the cost is entered at cif plus duty, if applicable. Transfers of goods to an establishment from other departments of the organisation not covered by the return are included at the estimated selling value recorded by the other departments.

**REMUNERATION PAID TO OUTWORKERS**

43. This represents amounts paid to outworkers, i.e. people who do work in their own homes generally on a piece-work basis, whose names appear on establishments' payrolls. Amounts paid to outworkers by subcontractors are included in the COST OF INDUSTRIAL SERVICES RECEIVED. Estimates are not made for remuneration of outworkers for establishments not completing Census returns.

**SALES OF GOODS PRODUCED**

44. This represents deliveries on sale of goods produced by establishments in the United Kingdom coming within the scope of the Census irrespective of whether or not they were produced in the year of return. It also includes sales of goods made for establishments from materials given out by them to other organisations or to outworkers and sales of waste products and residues. The value of sales is the 'net selling value', i.e. the amount charged to customers whether valued 'ex-works' or 'delivered' less VAT, trade discounts, agents' commissions, etc. and allowances on returned goods. Where products attract Excise duty, the value is inclusive of duty if goods are sold 'duty-paid' and exclusive of duty if goods are sold in bond or exported. The cost of packaging materials less allowances for returnable containers is included. Sales of fixed assets and exceptional receipts are excluded. Transfers of goods produced by an establishment to departments not covered by the return (including other establishments in the same enterprise group) are treated as sales, valued as if sold to an independent purchaser.

**STOCKS**

45. This represents the value of goods on hand for sale, including goods for merchandising or factoring and of materials, stores and fuel held by establishments coming within the scope of the Census, whether held in the United Kingdom or abroad. Values include any duty payable but exclude VAT.

**WAGES AND SALARIES**

46. This represents amounts paid during the year to ADMINISTRATIVE, TECHNICAL AND CLERICAL EMPLOYEES and to OPERATIVES. All overtime payments, bonuses, commissions, holiday pay and redundancy payments less any amounts reimbursed from government sources are included. No deduction is made for income tax or employees' national insurance contributions etc. Payments to WORKING PROPRIETORS, payments in kind, travelling expenses, lodging allowances etc. and EMPLOYERS' NATIONAL INSURANCE CONTRIBUTIONS ETC. are excluded.

**WORK DONE AND INDUSTRIAL SERVICES RENDERED**

47. This includes amounts charged for work carried out including that done by sub-contractors on customers' materials including amounts charged by establishments for materials supplied by them in the course of such work and for industrial services such as repairs and maintenance, installation work and technical research and studies rendered to other organisations. For certain industries this heading covers a wide variety of activities, for example, butter packed on commission in the food industries, making up of garments, fur dressing and textile finishing in the textile industries, and preparatory work on type-setting, block making and binding in the printing and publishing industries. Work done is an important part of the activities of the electrical machinery and heavy engineering industries, and includes erection, installation and repair and jobbing work.

**WORK IN PROGRESS**

48. This represents materials which have been partially processed and are awaiting further processing before being sold or transferred. Progress payments made to sub-contractors are excluded and progress payments received from other organisations are not deducted.

**GROUP 130 EXTRACTION OF MINERAL OIL AND NATURAL GAS**

49. Most of the information published for Group 130 is provided by the Department of Energy, derived from data collected by the Business Statistics Office from contractors and holders of petroleum exploration and production licences in quarterly inquiries conducted under the Statistics of Trade Act 1947. Additional information is collected by the Department of Energy from holders of seaward and landward licences in an administrative inquiry conducted under the Petroleum and Submarine Pipelines Act 1975.

**STANDARD REGIONS**

50. The list below gives the definitions of the standard regions used in tables in the Summary Volume. Metropolitan counties are marked by an \*.

**South East**

Greater London, Bedfordshire, Berkshire, Buckinghamshire, East Sussex, Essex, Hampshire, Hertfordshire, Isle of Wight, Kent, Oxfordshire, Surrey, West Sussex.

**East Anglia**

Cambridgeshire, Norfolk, Suffolk.

**South West**

Avon, Cornwall, Devon, Dorset, Gloucestershire, Somerset, Wiltshire.

**West Midlands**

West Midlands\*, Hereford and Worcester, Shropshire, Staffordshire, Warwickshire.

**East Midlands**

Derbyshire, Leicestershire, Lincolnshire, Northamptonshire, Nottinghamshire.

**Yorkshire and Humberside**

South Yorkshire\*, West Yorkshire\*, Humberside, North Yorkshire.

**North West**

Greater Manchester\*, Merseyside\*, Cheshire, Lancashire.

**North**

Tyne and Wear\*, Cleveland, Cumbria, Durham, Northumberland.

**Wales**

Clwyd, Dyfed, Gwent, Gwynedd, Mid Glamorgan, Powys, South Glamorgan, West Glamorgan.

**Scotland**

Borders, Central, Dumfries and Galloway, Fife, Grampian, Highland, Lothian, Strathclyde, Tayside, and the Orkney Islands, Shetland Islands and the Western Isles.

**Northern Ireland**

Antrim, Armagh, Belfast CB, Down, Fermanagh, Londonderry, Londonderry CB, Tyrone.

**ASSISTED AREAS**

51. Assisted areas are areas for which government grants and other help are available. There are two classes of assisted areas: development and intermediate.

## BUSINESS MONITORS MAKING UP THE COMPLETE CENSUS REPORT

The following is the list of Business Monitors making up the complete census report.

Shown alongside each title, where appropriate, is an indication of the change in the estimated employment in that industry that has arisen, between 1983 and 1984, from the introduction of a new, more up to date, register of businesses. The change shown reflects the increase or decrease between the old and new registers at a fixed point in time and does not in itself give any indication of the growth or contraction within any industry between 1983 and 1984. Over all manufacturing industry there was an increase between the two registers of 1.3%. Changes for individual industries have arisen not only from the addition of extra, mainly small, businesses but also from the reclassification of some small businesses from one industry to another.

Since estimates of census variables, based on register employment, are made for small businesses which are not required to complete census forms, the change will affect much of the data contained in the reports. This should be taken into account in interpreting the figures.

	Employment percentage variation	
PA1001	Introductory notes	
PA111	Coal extraction and manufacture of solid fuels	
PA120	Coke ovens	
PA130	Extraction of mineral oil and natural gas	
PA140	Mineral oil processing

TABLE NO	TITLE	Page
<b>Explanatory Notes and Definitions</b>		
<b>Establishment Analyses</b>		
1	Output and costs by Group, Divisions 1 - 5, 1982 - 1986	12-39
2	Employment and labour costs by Group, Divisions 1 - 5, 1982 - 1986	40-67
3	Cost of non-industrial services received, licensing of motor vehicles and rates (excluding water rates) by Group, Divisions 1 - 5, 1982 - 1986	68-81
4	Index of specialisation by Group, Divisions 2 - 4, 1982 - 1986	82-87
5	Capital expenditure and stocks and work in progress by Group, Divisions 1 - 5, 1982 - 1986	88-115
6	Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of total employment by Class, Divisions 2 - 5, 1986	116-131
7	Employment, wages and salaries, output and net capital expenditure by country and standard region by Class, Divisions 2 - 4, 1986	132-153
8	Employment and net capital expenditure by country, standard region and assisted area by Class, Divisions 2 - 4, 1986	154-175
9	Percentage analysis of twelve-month periods covered by returns received for the 1986 Census by total employment by Group, Divisions 1 - 5	176-185
10	Operating ratios by Group, Divisions 1 - 5, 1982 - 1986	186-213
11	Employment, wages and salaries, output and net capital expenditure by Activity Heading, Divisions 1 - 4, 1982 - 1986	214-257
<b>Enterprise analyses</b>		
12	Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of total employment within private and public sectors, Divisions 1 - 4, 1986	258-259
13	Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of total employment by Group, Divisions 1 - 4, 1986	260-309
14	Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of net output, Divisions 2 - 4, 1986	310-311
15	Employment, output, net capital expenditure and stocks and work in progress of the 100 largest private sector enterprises defined by size of total employment by Class, Divisions 2 - 4, 1986	312-313
16	Employment, output, net capital expenditure and stocks and work in progress of the 100 largest private sector enterprises defined by size of net output by Class, Divisions 2 - 4, 1986	314-315
17	Employment, output, net capital expenditure and stocks and work in progress of the 100 largest private sector enterprises defined by size of total sales and work done by Class, Divisions 2 - 4, 1986	316-317
18	Employment, wages and salaries, output and capital expenditure by nationality of enterprise, Divisions 2 - 4, 1986	318-319
19	Employment, wages and salaries, output and capital expenditure of foreign enterprises by Class, Divisions 2 - 4, 1986	320-321
20	Employment, net output, gross value added at factor cost and net capital expenditure of foreign enterprises by country, standard region and assisted area, Divisions 2 - 4, 1986	322-323

TABLE 1 Output and costs by Group, Divisions 1-5, 1982-1986  
All United Kingdom establishments classified to production and construction

Standard Industrial Classification Revised 1980 Division Class Group	Industry	Year	Enter-prises (a)	Estab-lishments	Sales and work done			Increase during the year, work in progress and goods on hand for sale
					Total	Sales of goods produced, receipts for work done and services rendered	Goods merchanted or factored	
					£ million	£ million	£ million

(a) The count of enterprises shown in each row represents the number of enterprises owning the establishments in the Group. Because an enterprise may own establishments in more than one Group, the sum of the enterprise counts for all Groups within a Class and all Classes within a Division may exceed the enterprise count at the higher level.

(b) For this table only, motor vehicle licences and rates have been included in the cost of non-industrial services. More detailed figures are provided in Table 3.

(c) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(d) Figures for the number of undertakings engaged in Group 130 - Extraction of mineral oil and gas - and Group 162 - Public gas supply - are excluded.

(e) For Class 50 - Construction - figures for the cost of industrial and non-industrial services are generally not available separately and with the exception of 1984 are shown combined.

(f) Licensed small mines, estimated to account for less than 1% of output, are excluded throughout.

(g) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(h) This is the number of colliery units for administrative and accounting purposes which are in active production. Units can comprise more than one mine.

Gross output	Purchases	Increase during the year, stocks of materials, stores and fuel	Cost of industrial services received	Net output		Cost of non-industrial services (b)	Gross value added at factor cost

(i) Excise payments, duties, levies, etc. paid net of amounts received are included.

(k) Sales are valued at ex-quarry, ex-mine or ex-works prices.

(l) The cost of outward transport on goods sold is included.

(m) Figures for 1984 exclude estimates for establishments employing fewer than 20 persons for:-

i. Capital goods produced by establishment's own staff for use in the businesses covered by the returns, and new buildings constructed (total sales and work done).

ii. Change in year in goods on hand for sale (gross output).

iii. Motor vehicle licences, rates, change in year in stocks of materials, stores and fuel (gross value added at factor cost).

(n) All manufacturing industries SIC (Revised 1968) is calculated as follows:-

Divisions 2-4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

		1986	4,902.1	3,306.4	1,536.4

(a) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(b) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(c) Figures for wages and salaries in the Construction industry are not available separately. Figures shown under wages and salaries - operatives - are for total wages and salaries and with the exception of 1984 include the cost of employer's national insurance contributions.

Wages and salaries				Employers' national insurance contributions

(a) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(b) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(c) Figures for rates, excluding water rates, are included with figures for rents, hire of plant, machinery and vehicles.

(d) All manufacturing industries SIC (Revised 1968) is calculated as follows:-

Divisions 2-4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

**TABLE 4** Index of specialisation by Group, Divisions 2-4, 1982-1986 (a)  
All United Kingdom establishments classified to manufacturing

(a) The index of specialisation for an industry is obtained by expressing the sales of principal products of that industry, produced by establishments classified to that industry, as a percentage of the total sales of those establishments. The indices are based on data collected in the Quarterly Inquiries into Manufacturers' Sales, the results of which are published in the PQ series of Business Monitors.

(b) This information refers to AH 4213 - Ice cream - only.

**TABLE 5 Capital expenditure and stocks and work in progress by Group, Divisions 1-5, 1982-1986**

(a) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(b) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.

(c) Figures for Group 130 - Extraction of mineral oil and natural gas - include off-shore production platforms, production and appraisal wells, tanker off-shore loading systems, pipelines and terminals and the cost of installation.

(d) Figures for Group 130 - Extraction of mineral oil and natural gas - include platform modules and equipment and the cost of installation.

(e) Figures for Group 130 - Extraction of mineral oil and natural gas - include ships, mobile drilling rigs and specialised floating equipment.

(f) All manufacturing industries SIC (Revised 1968) is calculated as follows:-

Divisions 2-4 plus Activity Headings 1115, 1200, 1401, 1402 and 1520, less 2100, 2310, 2330 and 2396.

**TABLE 6 Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of total employment by Class, Divisions 2-5, 1986**  
All United Kingdom establishments classified to manufacturing and construction

(a) Where an establishment covered addresses in more than one region, estimates of the wages and salaries, net output and gross value added attributable to each address were made based on employment at each address. Information on employment and net capital expenditure was collected for each address. Figures for each variable for each region were obtained by adding estimates for addresses located in each region.

Net output (a)		Gross value added at factor cost(a)			Net capital expenditure

(a) Figures for 1984 exclude estimates for establishments employing fewer than 20 persons for:-

- i. Capital goods produced by establishment's own staff for use in the businesses covered by the returns, and new buildings constructed (total sales and work done).
- ii. Change in year in goods on hand for sale (gross output).
- iii. Motor vehicle licences, rates, change in year in stocks of materials, stores and fuel (gross value added at factor cost).

(a) Establishments employing fewer than 20 persons are not required to complete Census returns. Because of this, data for these establishments should be regarded merely as the best estimates available and used with caution.

(b) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

(c) Figures for the number of undertakings engaged in Group 162 - Public gas supply - are not available.

	5 largest enterprises(j)	5	6	3.1	2.0	1.2	12.7	6,532
	Percentage of total			8.9	8.4	12.5	9.7	

- (a) The count of enterprises shown in each row represents the number of enterprises owning the establishments in the Group. Because an enterprise may own establishments in more than one Group, the sum of the enterprise counts for all Groups within a Class and all Classes within a Division may exceed the enterprise count at the higher level.
- (b) Establishments employing fewer than 20 persons are not required to complete Census returns. Because of this, data for these establishments should be regarded merely as the best estimates available and used with caution.
- (c) Gross value added data for size group 1-99 is included in the following size group.
- (d) Figures for Group 130 - Extraction of mineral oil and natural gas - are excluded.

Wages and salaries		Total sales and work done	Gross output	Net output		Gross value added at factor cost(c)		Net capital expenditure	Total stocks and work in progress

14.4		12.1	11.6	12.2		12.3		14.5	-43.1	13.2

- (e) Figures for the number of undertakings engaged in Group 162 - Public gas supply - are excluded.
- (f) Licensed small mines, estimated to account for less than 1% of output, are excluded throughout.
- (g) Figures for Activity Heading 1114 - Opencast coal working - are excluded throughout. See Table 11.
- (h) This is the number of colliery units for administrative and accounting purposes which are in active production. Units can comprise more than one mine.
- (j) Five largest enterprises by size of total employment.

**TABLE 14** Employment, wages and salaries, output, net capital expenditure and stocks and work in progress by size of net output, Divisions 2 - 4, 1986

(a) Foreign enterprises are defined as those controlled by companies incorporated overseas. Where an establishment covered addresses in more than one region, estimates of the net output and gross value added attributable to each address were made based on employment at each address. Information on employment and net capital expenditure was collected for each address. Figures for each variable for each region were obtained by adding estimates for addresses located in each region.

**WITH BUSINESS MONITORS  
YOUR NEXT STEP WILL BE  
MORE CERTAIN ...**

**Is this the ONLY Business Monitor that  
you need? Are you aware that this is only  
one of over 300 Business Monitors  
published monthly, quarterly and annually?**

If you would like a FREE copy of our newly published revised brochure listing all the Business Monitors currently available, contact:-

# **Input-output tables for the United Kingdom 1984**

**HMSO £19.95 net**

**ISBN 0 11 620299 8**

How much does each industry, in producing its final output, rely on the products of other industries? How are its own products consumed in turn by other industries and final demand?

This publication, the latest of a series of analyses published at approximately five-year intervals, gives the answers to these questions in the form of a series of matrices. The figures are consistent with the most recent national income figures for 1984, as published in the 1987 edition of the *United Kingdom National Accounts* (the "Blue Book").

There is an opening chapter explaining the principles of input-output tables, and inside the back cover is a floppy diskette containing data from these tables in a form suitable for handling with spreadsheet packages on a personal computer.
