in 1949, and £149,000 in 1948. (m) Excluding crowd artistes in 1949 and 1948. The total number of man-days worked by crowd artistes was 114,500 in 1949 and 108,500 in 1948, and the amounts paid as wages and salaries were £301,000 in 1949, and £285,000 in 1948. The number of artistes shown for 1937 includes crowd artistes. The number of these is subject to a large measure of duplication. Since the average number of crowd artistes in 1937 is also included in the total employment figure, this is also overstated and the figure of net output per person employed is omitted for 1937. (n) Particulars of commission, etc., paid to independent receiving offices or agents were not collected for 1949. The figures for net output and for net output per person employed in 1949 are, therefore, not strictly comparable with those recorded for 1948.

(f) Average number employed during the year.
