

Dear voter,

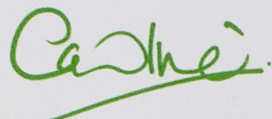

In the EU referendum, every vote is equal.

The Green Party believes that Britain is fairer, safer, and greener in the EU. We know that the EU is not perfect, but to change things for the better, we need to keep our seat at the table.

Britain's EU membership has brought benefits to our daily lives - from a healthier, cleaner environment and rights at work, to the freedom to live, work, travel, study and retire freely anywhere across Europe.

On Thursday 23 June, please vote Remain.

Best wishes,

Caroline Lucas

Green Party MP and chief spokesperson on the EU referendum
