Census of England and Wales 1931

Census volumes in respect of the counties of England and Wales have now been published.

Parts I of the series, which are complete, relate to the areas as constituted at the date of the Census. Parts II will deal with the changes in boundary effected by County schemes under the Local Government Act of 1929, and will provide a limited range of statistics in respect of the newly constituted areas.

ANGLESEY AND CAERNARVON	Pt. I, 3s. (3s. 2d.)	KENT	Pt. I, 4s. (4s. 3d.) II, 2s. (2s. 2d.)

TABLE E. POPULATION, BIRTHS, DEATHS AND INFANT MORTALITY, 1934. } England and Wales, Regions, Counties, Boroughs, Urban Districts and Rural Districts.

NOTES.

Column 2: The estimates of *resident* populations have been derived from the 1931 Census returns after allowances for (a) the difference between resident and enumerated populations and (b) the changes due to births, deaths and migration which have occurred between the date of the Census and the middle of the current year. (See note on the next page re changes in boundaries.)

Columns 3-7: Live births are those *registered* during the calendar year and are classified according to the area of residence of the mother. The average time lag between occurrence and registration is usually about a month.

Columns 9-11: Deaths are those *registered* during the calendar year and are classified according to the area of residence of the deceased. The time lag between occurrence and registration is usually only a day or two.

Columns 13-14: Mortality comparisons yielded by the crude death rates (col. 12) alone are vitiated by reason of the fact that the areal populations on which they are based may be of widely differing age constitutions. With a view to eliminating this element of variation, a comparability factor is provided in column 13 for each area and this, when multiplied by the crude death rate of the area, produces an adjusted death rate which may be regarded as comparable from a mortality point of view with the corresponding adjusted rate for any other area or with the crude death rate for England and Wales as a whole (where the comparability factor is unity). A guide to the relative incidence of mortality in different areas is provided by column 14 which expresses each local adjusted rate as a ratio of the national rate. For a fuller description of the Comparability Factor, reference should be made to the Text portion of the Statistical Review.

Columns 17-19: (Shewn only for the Regional Summary): The rates of increase and decrease are in respect of the areas as constituted after all changes of boundaries which occurred during the year.

Regions: The constitution of the Regions shewn in the summary is as follows:—

<i>Greater London.</i> The area coincident with the City of London and Metropolitan Police Districts — approximately 15 miles radius from Charing Cross.	<i>North I.</i> Durham. Northumberland.	<i>Midland II.</i> Derbyshire. Leicestershire. Northamptonshire. Nottinghamshire. Peterborough, Soke of.	<i>Wales I.</i> Brecknockshire. Carmarthenshire. Glamorganshire. Monmouthshire.
	<i>North II.</i> Cumberland. Westmorland. Yorkshire, East Riding. " North Riding.	<i>East.</i> Cambridgeshire. Ely, Isle of. Huntingdonshire. Lincolnshire— Parts of Holland. " Kesteven. " Lindsey.	<i>Wales II.</i> Anglesey. Caernarvonshire. Cardiganshire. Denbighshire. Flintshire. Merionethshire. Montgomeryshire. Pembrokeshire. Radnorshire.
<i>South East.</i> Bedfordshire. Berkshire. Buckinghamshire. Essex. Hertfordshire. Kent. London. Middlesex. Oxfordshire. Southampton. Surrey. Sussex, East. " West. Wight, Isle of.	<i>North III.</i> Yorkshire, West Riding York C.B.	Norfolk. Rutlandshire. Suffolk, East. " West.	
	<i>North IV.</i> Cheshire. Lancashire.	<i>South West.</i> Cornwall. Devonshire. Dorsetshire. Somersetshire. Wiltshire.	
	<i>Midland I.</i> Gloucestershire. Herefordshire. Shropshire. Staffordshire. Warwickshire. Worcestershire.		

With a view to maintaining continuity with the Divisions in use prior to 1931, two supplementary sub-divisions of the current South-East region are shewn in the Table. The former Midland division corresponds to the aggregate of the current Midland and East and Midland section of the South-East Region; the former South (including London) corresponds to the current South-West and the Southern section of the South-East Region; North and Wales are identical in the two arrangements.

Changes in boundaries. Areas marked { * have been altered } during the year. Unless
 † „ „ created
 ‡ „ „ abolished

otherwise indicated, statistics of areas created or abolished refer only to the portion of the year of their existence, while statistics of areas whose boundaries have been altered are composite figures combining the "before change" and "after change" position for the respective periods involved. The population of each area as constituted after change will be found in the Appendix, the population shewn in column 2 of this Table being a constructed figure appropriate for use with the partial or mixed records of births and deaths of the current year.

TABLE E—continued.

(See notes on first page of Table)

a Abolished 1st April, 1934. Figures included in those of Wembley U.D. as from 1st January, 1934.
 § The 42 deaths under 1 year include 11 which occurred in a home for destitute children and which necessarily have to be assigned to the area where death occurred, although the births presumably occurred elsewhere.

TABLE E—continued. (See notes on first page of Table)

a Abolished 1st April, 1934. Figures included in those of Cemaes R.D. as from 1st January, 1934.

TABLE F.—MARRIAGES, 1934.

England and Wales, Geographical Regions,*
Counties and County Boroughs.

Note.—Registration divisions, which form the areal unit of classification for marriage records, are in process of modification under the Local Government Act, 1929. Statistics are shown for entire Registration Counties inclusive of their associated County Boroughs. Figures for individual County Boroughs are shown in *italics* where available.

Area.	No. of marriages.	Persons married per 1,000 population.	Ratio of local to national rate. (1,000)	Area.	No. of marriages.	Persons married per 1,000 population.	Ratio of local to national rate. (1,000)

* The marriages in Cols. 31 and 32 include 135,071 by Superintendent Registrar's Certificate and 24,434 by Superintendent Registrar's Licence.
 † Change in boundary during the year. The population has been adjusted in order to make it comparable with the records of marriages.
 ‡ This Church was formed under the Methodist Church Union Act, 1929, by the union of the Wesleyan Methodist, Primitive Methodist and United Methodist Churches.

TABLE G.—Ages and Conditions of Persons Married in the Year 1934. England and Wales.

NOTE.—Divorced men and women who marry are classified in the Marriage Tables as bachelors and spinsters. The marriages of divorced persons are shown separately in Table H.

Age last Birthday.	All Men.	All Bachelors.	All Widowers.	Bachelors who married.		Widowers who married.		All Women.	All Spinsters.	All Widows.	Spinsters who married.		Widows who married.

* These figures relate to passengers to and from ports in the Irish Free State and ports in the United Kingdom. The movement over the land frontier between the Irish Free State and Northern Ireland cannot be furnished.

(c) Balance of Permanent Migration: British subjects only (from Board of Trade Returns).

Outward balances are shown in Roman type, inward balances in Italics.

The United Kingdom excludes the Irish Free State as from the 1st April, 1923.

The criterion of Permanent Migration is a declared intention to reside for at least a year in the country of destination. The permanent migration of part (c) is included in the passenger movement of part (b).
