(c) Provisional. (d) Revised figure.

The grand total of new housing accommodation provided to the 30th November, does not include the number of family units of accommodation secured by the repair of unoccupied war damaged dwellings and the conversion and adaptation of existing premises undertaken by private builders under licence in the year between 31st March, 1945, and 31st March, 1946. This information became available for the first time in regard to April, 1946.

Besides the total provision of additional accommodation as set out above, 665,000 dwellings which were damaged during the war but not so severely as to be unfit for occupation were repaired during the twenty months ending 30th November, 1946.

The figures shown above do not include houses built in replacement of those destroyed during the war, which are shown separately on page 6. Figures in respect of non-traditional houses are also shown separately below.

See Appendix A, Table 2.

Appendix A, Table 2, contains information in respect of building schemes for permanent houses. This information is shown in Tables 2(a) and 2(b) for traditional and non-traditional types respectively, the sum of these two Tables being shown at Table 2.

### PERMANENT NON-TRADITIONAL HOUSES

With the object of accelerating the rate at which houses can be erected a number of methods of house construction have been evolved which, for ease of reference, are known as “non-traditional”. Included in this category are types that have been referred to as “permanent prefabricated”. In Appendix A, Table 11, a list of the main types is given together with details regarding the numbers of each type for which tenders have been approved and the numbers completed. Information regarding the development of sites and the preparation of housing schemes for non-traditional houses is included in the figures shown in Appendix A, Tables 1, 2, 8 and 9, and is shown in detail in Table 2(b).

The position as at 30th November, 1946, compared with that at 31st October, 1946, was as follows:—

|   | 31st October, 1946 | 30th November, 1946 |
|---|--------------------|---------------------|
| Tenders approved ... ..                           | 35,746             | 40,581              |
| Houses—construction begun ... ..                  | 18,204             | 21,523              |

A total number of 29,696 B.I.S.F. and 1,380 Howard houses have been allocated to Local Authorities. 11,891 applications have been received from Local Authorities for Airey Rural component sets.

See Appendix A, Table 2(b) and 11.

#### REBUILDING OF WAR DESTROYED HOUSES

The rebuilding of war destroyed houses by private builders to private contract can be undertaken only under licence. Rebuilding by Local Authorities can be begun with the approval of the Ministry of Health and War Damage Commission. The figures for November take into account information regarding houses approved and on licences issued and houses completed in earlier months which was not previously available. Information in respect of some Local Authorities is still incomplete and the figures quoted are subject to adjustment. The position at the end of November compared with that at the end of October, 1946, was as follows :—

|  | 31st October, 30th November, |        |

See Appendix A, Table 5 (a).

#### USE OF EXISTING PREMISES

Apart from new building additional accommodation for family units has also been provided by Local Authorities and by private builders under licence by the repair or adaptation of existing premises.

Information in regard to such provision made by Local Authorities has been published in earlier housing returns. Corresponding information relating to the provision made by private builders under licence was available for the first time in April, 1946. The data available may be summarised as follows :—

|  | Family Units of Accommodation Provided                     |                                     |                |                               |        |

See Appendix A, Tables 5b and 6.

It is anticipated that revision will be necessary in respect of figures for the repair of unoccupied war damaged dwellings. The existing figures should therefore be regarded as provisional.

#### OTHER HOUSING ACCOMMODATION

A total of 29,949 flats and houses of less than 12 rooms was released from occupation by the Services and Government Departments over the period 1st May, 1945, to 31st October, 1946. Some of the dwellings on release were taken over by the Local Authorities.

The total number of requisitioned dwellings held by the Local Authorities for residential purposes was 93,439 at the end of November; of these 58,711 were situated in the London region.

Of the total of 93,439 requisitioned dwellings held by the Local Authorities, 69,275 were held at 31st March, 1945. From that date to 31st October, 1946, there was a net increase in unoccupied houses requisitioned by Local Authorities for residential purposes of 22,968 and a further 1,196 were requisitioned in November, making a net increase of 24,164 houses in the 20 months to 30th November, 1946.

#### SERVICE CAMPS—TEMPORARY ACCOMMODATION

In addition to accommodation referred to above, there were at 30th November, 1946, 11,975 families occupying accommodation in 928 camps that were redundant to the needs of the Services or Government Departments, which had been offered to Local Authorities for housing purposes and were considered suitable for those purposes. In the main these camps had been taken over by Local Authorities as part of their pool of housing accommodation or were being managed by them on behalf of the Ministry of Health.

Accommodation for a further 1,992 families was occupied in 251 camps which are still required for Government purposes, or are unsuitable for housing, or are still subject to decision as to their future use.

#### PROGRESS OF INDIVIDUAL HOUSING AUTHORITIES

Of the total of 1,469 Authorities there were at the 30th November, 1946, 15 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had as yet no sites of which possession had been obtained. Of these Authorities 6 were urban areas (mainly small urban districts) and 8 rural districts; the population in these areas represents 0.16 per cent. of the total population of England and Wales. There were 14 Authorities, excluding L.C.C. and Metropolitan Boroughs, who had not obtained authority to go to tender on a specific scheme. The population in the area of these Authorities represents 0.16 per cent. of the total population of England and Wales.

See Appendix A, Table 7.

#### HOUSING LABOUR FORCE

The total number of operatives aged 16 and over, excluding prisoners of war, employed on the construction or repair of housing in England and Wales, whether on work for local authorities or on private contracts under licence, grew from 320,400 in July, 1945 to 574,800 at 22nd November, 1946. At 25th October, 1946, the number so employed was 565,100. Within the total housing labour force, the number employed on war damage repairs decreased from 147,100 at 25th October, to 146,100 at 22nd November, while the number employed on the construction of permanent houses grew from 164,500 to 175,900.

See Appendix A, Table 12.

#### BUILDING MATERIALS AND COMPONENTS

Details of production of the more important building materials and components are included in Appendix A. The information relates to Great Britain as a whole; separate details in respect of England and Wales are not available. It should be noted that the production of the items listed is utilised not only for the construction of and installation in new dwellings but also for repairs, replacements and building work other than house building.

In general the production in any given month is not known until towards the end of the following month. It is not therefore always possible for the complete data relating to the month under review to be available in time for inclusion in the Return.

See Appendix A, Table 13.

#### APPENDIX A—NOTES

The material contained in this return is derived from a census of the housing position at 31st December, 1945, and the reports of subsequent progress completed by the Local Authorities. Certain information is obtained from Government Departments. Where this is the case the items concerned have been annotated. At the 9th December, 1946, reports of progress had not been received from 1 Authority for the months April–November, from 2 Authorities for the months June–November, from 1 Authority for the months August–November, from 2 Authorities for the months September–November, from 3 Authorities for the months October and November and from 54 Authorities for the month of November. Reports of progress in November were due to be received by the 5th December, 1946. Reports received after 9th December arrived too late to be included in the figures shown in this report relating to progress in November. By 9th December, 1946, 1,403, reports had been received.

#### Classification of Urban and Rural Authorities

The classification of Urban Authorities other than the L.C.C. and Metropolitan Boroughs into Large Towns and Cities, Medium Towns and Cities and Small Towns has been made in terms of population. The classification has been made as follows based on the estimated population at mid-1939 as returned by the Registrar General.

|                         |     |     |     |                              |
|-------------------------|-----|-----|-----|------------------------------|
| Large Towns and Cities  | ... | ... | ... | over 75,000                  |
| Medium Towns and Cities | ... | ... | ... | over 25,000 and up to 75,000 |
| Small Towns             | ... | ... | ... | 25,000 and under             |

The Rural Authorities comprise all Rural District Councils.

The total population of England and Wales as at mid-1939 is divided between the various groups of cities and towns and Rural Authorities as follows:—

|   | <i>Number of Housing Authorities</i> | <i>Estimated Population</i> | <i>Percentage of total in England and Wales</i> |

The changes in regional composition referred to above should be borne in mind in comparing the regional classifications shown in the Tables in Appendix A in this return with those shown in returns published before 30th April.

The total population of England and Wales as at mid-1939 was divided between the Regions as now defined as follows:—

|                                  | <i>Number of Housing Authorities</i> | <i>Population at Mid-1939</i> | <i>Percentage of total in England and Wales</i> |

### Tables 8 and 9

Table 8 shows the numbers of sites at different stages from the initial stage of selection to the stage when the site is available for construction.

Between the selection of the site and the completion of houses ready for occupation there is a long chain of events equivalent to the "pipeline" of materials and components of mass production in the engineering industry.

In general the use of the site for housing requires consideration from the point of view of regional and town planning, local transport facilities and so on. Sites have then to be acquired, a layout agreed, and roads, sewers and other services provided generally in advance of beginning the actual erection of houses. The actual construction of the houses themselves is the final process in the chain of production, which also, of course, comprises the fabrication of building materials and components ready for use.

During the early stages of expanding the volume of house building, the number of house sites under development and the number of houses under construction and so on will continue to rise in advance of a corresponding increase in the number of houses completed. As the production of houses by Local Authorities evolves into a smooth and continuous cycle of operations, the number of houses or house sites at the various stages in the chain of production will tend to be roughly equal.

Table 9 shows the number of houses at different stages towards completion beginning with the preparation of house plans.

Many of the initial stages in the erection of houses such as the preparation of house plans, bills of quantities and the chain of events leading to the acceptance of a tender are, in many cases, undertaken concurrently with the work of developing the corresponding sites.

Note.—The number of sites at each stage includes every site which has reached that stage or a later stage towards the erection of a house. House sites shown in Col. 7 are included only in Cols. 2 and 3.  
Reductions as compared with previous months in the number of houses for which sites have been agreed or possession obtained (Cols. (2) and (3)) are due to the abandonment of projects previously reported.  
Reductions as compared with previous months in the number of houses for which site layout plans have been approved or development begun before the erection of dwellings (Cols. (4) and (5)) are due to the decision to develop the site concurrent with the erection of dwellings, which are shown in Column (7).

Note.—The number at each stage includes every site or house which has reached that stage or a later stage towards the erection of a house.

Sites the use of which has been agreed or of which possession has been obtained and originally intended for the erection of temporary houses are in some instances now to be used for the erection of permanent houses. For this reason strict comparison with the corresponding figures shown in previous returns is not possible.

Information in respect of columns 6-10 is received from the Ministry of Works.

Note.—Houses on licences issued to the end of December cannot be sub-divided between those intended for owner occupation or for sale and those to be available for letting (Cols. 2 and 3). The classification under these two heads in Sections B and C of the Table relates only to licences issued from January to November inclusive.

The total number of houses on licences issued has been arrived at after allowing for licences notified as having lapsed. The information shown in Sections B and C of the Table relates to the total number of houses on licences issued as at the end of November.

Information in respect of new dwellings being built by Housing Associations now being shown in Table 4(b), was in months prior to August, 1946 included with dwellings being erected by private builders under licence. For this reason strict comparison between this Table and Table 4 in such Returns is not possible.

Note.—The number of housing authorities at each stage in the above table is included in the figure at each subsequent stage towards the completion of sites and building schemes, e.g., authorities without sites of which possession have been obtained appear at each subsequent stage. The few housing authorities who have had layout plans approved, although possession of sites has not yet been obtained, have been excluded from Section A of this Table.

The greater part of the housing provision for the County of London area is made by the London County Council and the fact that no tenders have yet been approved for a number of Metropolitan Borough Councils does not mean that provision is not being made for the needs of those Boroughs.

Note.—The figures quoted in previous issues of this return were compiled from the best information available at the time. These figures have subsequently been revised and the revised figures can be obtained from the Statistical Digest.

The estimate of persons employed on conversions and adaptations includes persons engaged on small works which are not producing additional accommodation.

(a) Source—Ministry of Works (based on Census and Sample Returns).

(b) Source—Ministry of Labour. Owing to differences in classification it is not possible to relate the "number of insured workers" to the number of "operatives employed".

(c) Operatives engaged on repair both of unoccupied (i.e. severely damaged) war damaged houses and upon repair of war damaged occupied houses.

In cases where entries in the Progress Reports were incomplete or inconsistent the information contained in this Appendix has been compiled in the light of evidence contained in the Census Return and in the Progress Reports as a whole. The tabular statement shows the position as at the 30th November. In certain instances Progress Reports have not been received in time for inclusion. Those local authorities in respect of whom Progress Reports for September, October and November, 1946, have not been received are marked with §, \* and † respectively. The data in respect of permanent housing shown for such authorities relates to the position as at the 31st August, 30th September and 31st October, 1946, respectively.
3. In certain cases temporary houses have been handed over to Local Authorities for occupation before all internal fitments have been installed. Where this has been done the number of temporary houses shown as completed (Column (13)) has been marked ∅ and the name of the Local Authority and the number of houses included in the figure shown in Column 13 which are not complete with all fitments is stated at the foot of the page.
4. The erection of some temporary houses has been completed but their connection to electric and other services has not been effected. Where this is the case the number of temporary houses shown as completed (column (13)) has been marked ‡ and the name of the Local Authority and the number of houses completed but not ready for occupation is stated at the foot of the page. Such houses are not included in the number shown as completed in column (13).
5. Rebuilding of war destroyed houses. The data shown in Columns (6), (7) (17) and (18) has been revised in accordance with information received from local authorities in addition to that contained in Progress Reports, and from information received from the War Damage Commission. Certain information is still awaited in respect of some authorities. In such cases adjustments will be made in later Returns.
6. The term "under construction" in Columns (4), (6), (15) and (17), means that the contractor has actually begun work on the construction of the dwellings. In some instances work has begun on all dwellings in a particular contract; in a few cases it would appear that all the dwellings in a particular scheme have been shown as "under construction" on the Progress Report although work has not necessarily started on all of them.
7. In certain instances the Ministry of Works are undertaking the erection of groups of experimental permanent non-traditional houses on sites provided by housing authorities. These houses have been included in the data shown for the authorities concerned.
8. The number of temporary houses allocated to housing authorities is under constant review. Where the allocation is less than the number of sites available subsequent allocations may be made.
9. Where Tenders (or Estimates in the case of Direct Labour) for site development (Roads and Sewers) have been approved by the Ministry of Health but where work on the site has not begun, the sites have not been shown as under development (Col. (2)).
10. In the few instances where sites developed before the war by private enterprise are being taken over by the local authority but possession has not yet been obtained, the relevant figures have been entered in Column (2).
11. Permanent Houses. The figures in all columns except Columns (4) and (5) are not included in any other column. "Houses under construction" (Column (4)) and "Houses completed" (Column (5)) are included in "Houses on Tenders Approved" quoted in Column (3).
12. It should be noted that the greater part of the housing provision for the County of London is made by the London County Council. It is not, therefore, possible to relate the data shown in this Appendix for each Metropolitan Borough to the housing needs of the population of the Borough.  
The bulk of the preliminary work in connection with the provision of permanent houses made by certain housing associations in the County of London area is undertaken by the Metropolitan Boroughs. The information is included in Columns (14), (15) and (16).  
Certain data on temporary houses in respect of the London County Council and the Metropolitan Boroughs have been consolidated.
13. The total number of dwellings on licences issued (Column 14) includes licences issued both in regard to new dwellings and to the rebuilding of war destroyed dwellings. An analysis of the respective numbers falling into these two categories is shown in Tables 4a, 4b and 5a of Appendix A to the Housing Return.  
The total number of licences shown in Column 14 also takes into account information received from local authorities in respect of any licences that may have lapsed. The data received in respect of licences may not in all cases be complete and may, therefore, be subject to correction.
14. The numbers of houses on licences issued, under construction and completed by Housing Associations is included in Columns (14), (15) and (16).
