LOCAL HOUSING STATISTICS

11 OCT 1972

OF ECONOMIC SCIENCE

England and Wales

No. 23 August 1972

LONDON: HER MAJESTY'S STATIONERY OFFICE

98p NET

The Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

Local Housing Statistics

England and Wales

1. **Local Housing Statistics** is prepared by the Department of the Environment and the Welsh Office to provide figures for individual local authority areas in a quarterly publication.

The tables relating to the provision of new permanent housing, slum clearance and, from the beginning of 1972, improvement grants, appear regularly in each issue. They show annual cumulative figures. Before 1972 annual totals for improvement grants were published in supplementary tables.

Supplementary tables on various other housing matters are included as data become available. The tables in this issue show industrialised dwellings started and completed in 1970 and 1971; Town Development Act schemes, progress at 31 December 1971.

Supplementary tables so far published are listed on Page iv.

2. **Definitions.** Detailed definitions of the terms used are to be found in the Notes and Definitions Supplement to "Housing and Construction Statistics". It may be noted that:

"Dwellings" include all permanent houses and flats.

"Houses" in relation to slum clearance action has the meaning attributed to it for the purposes of Part II and Part III of the Housing Act 1957 (see para. 6).

"Local authorities" include local housing authorities and new town authorities.

"Other public authorities" include Government departments and housing associations.

"Regions" are the economic planning regions adopted in 1965. These only differ from the Standard Statistical Regions by including Poole Borough in the South West rather than the South East.

"Counties" are primarily the areas for which Lieutenants are appointed. Greater London as a whole is dealt with as a county. Stockport is dealt with as wholly in Chester. The part of Derbyshire in the North West region is shown as

"Derbyshire (High Peak District)". The county borough of York is included with Yorkshire, West Riding (until the end of 1968 it was included with Yorkshire, East Riding).

3. **Local authority areas.** Local housing authorities may provide housing either within or outside their own areas. The figures shown in Table 5 against the name of the authority include dwellings situated outside its area, for which particulars of completions are given separately in Table 6. Table 7 shows the distribution within and outside Greater London of dwellings completed by the Greater London Council, or by housing associations assisted by the Greater London Council. Authorities shown in Tables 6 and 7 are indicated in Table 5 by the following symbols:

§ An authority which completed dwellings in the area of another authority during the period.

|| An authority in whose area another authority completed dwellings during the period.

Other public sector and private sector dwellings are shown against the name of the authority in whose area they are situated.

4. **New towns.** Against the name of each new town in Table 5 are shown the dwellings built for the development corporation or for the Commission for the New Towns. These are all situated within the new town area and are not included in the figures for any other local authority. Private sector building on land made available by the new town is included against the name of the authority or authorities in whose area it is situated, but is also shown separately in italics against the name of the new town and included in the new town total.

5. **Adjustments to earlier returns** may occasionally result in a negative figure for an individual authority, when, for example, dwellings reported as started are subsequently withdrawn or there is a transfer from one sector to another.

6. **Unfit houses.** The figures in Table 5 show the number of houses (whether or not unfit) demolished in or adjoining clearance areas under Part III of the Housing Act 1957, and the number of unfit houses demolished or closed elsewhere under Part II of the Act or certain other powers. Houses reported as closed in an earlier period which have subsequently been demolished under slum clearance action are excluded from the latter total; this may result in a negative figure for an individual authority. In Table 3 they are excluded from houses "closed". (Up to issue No. 8 the adjustment was made to "Houses not in clearance areas: demolished".) The London Borough distribution of houses demolished by the Greater London Council is shown in Table 8.

7. **Population.** The figures are the latest available estimates of the home population prepared by the Registrar General.

8. **Improvement grants.** Table 9 shows the number of local authority, county council and new town dwellings for which Exchequer assistance was approved by the Secretary of State for the Environment or the Secretary of State for Wales, and the number of other dwellings for which grants were approved by local authorities during the period. The figures do not include special grants. Most housing associations receive assistance from local authorities on the same terms as private owners and their figures have therefore been merged. A few housing associations choose to receive

assistance from the Exchequer similar to that given to local authorities. These discretionary grants, approved under the Housing Act 1969 (Section 21) are included with the figures for local authorities. Distribution of these grants is shown in table 10 (Page 82).

Counties or individual authorities in areas which, during the 1st quarter of 1972, qualified to receive the higher rate of assistance available in development and intermediate areas are indicated thus †. In addition a small number of grants approved for county councils not wholly within these areas qualified for the higher rate of grant.

9. **Index.** An alphabetical list of all local authorities and new towns in England and Wales is published separately. In addition to page references this shows the type of each authority and the region and regional sub-division in which it is situated. A map of the regional sub-divisions is included.

In Local Housing Statistics and in the Index certain boroughs are listed for convenience by a name in common use which differs from their correct title. They are:

- Dartmouth . . . properly Clifton Dartmouth Hardness
- Durham . . . properly Durham and Framwelgate
- Launceston . . . properly Dunheved, otherwise Launceston
- Salisbury (New Sarum) . . . properly New Sarum

Supplementary tables

Industrialised dwellings started and completed by local authorities 1970 and 1971

1. The figures in Table 11 relate to dwellings reported as started and completed by methods deemed by the Department of the Environment to be industrialised, in accordance with the description of industrialised building given in paragraph 3 of Ministry of Housing and Local Government Circular 76/65. They include dwellings built by rationalised traditional methods.

Town Development Act schemes: progress of development at 31 December 1971: England

2. In Table 12 the figures relate to town development schemes under the Town Development Act 1952 for the purpose of providing accommodation for families from congested cities. Dwellings are provided by the receiving authority, though they are in some cases built by another authority on an agency basis.

All schemes other than for Greater London Council			70,446	30,292

¹ Burnley C.B. has a town development scheme for 5,600 dwellings of which approximately 700 will be for London, 2,200 for Liverpool and 2,700 for Manchester. Dwellings allocated to families from the exporting areas become identifiable only when lettings are arranged.² The agreement with Manchester is no longer operative.³ Completed schemes.⁴ See also schemes for Walsall.⁵ See also schemes for Greater London Council.⁶ There will also be 4,000 private enterprise dwellings (2,000 for Birmingham and 2,000 for others).⁷ These local authority areas were amalgamated in 1966. See also schemes for Birmingham.⁸ The major parts of these local authority areas were amalgamated with Wolverhampton on 1 April 1966.
