## CAPE OF GOOD HOPE.

### REPORT FOR 1905 OF THE REGISTRAR - GENERAL OF STATISTICS, RELATIVE TO MARRIAGES, BIRTHS AND DEATHS IN THE COLONY.

Presented to both Houses of Parliament by Command of His Excellency the Governor.  
1907.

#### POPULATION.

The number of persons in the Cape Colony on the 31st December, 1905, is estimated at 2,470,289, made up as follows, Colony Proper, 1,531,402; Bechuanaland, 85,519; Transkeian Territories, 645,542; and Pondoland, 207,826.

#### IMMIGRATION AND EMIGRATION.

According to the Customs Department returns—which do not include Naval and Military passengers, and in which children are reckoned at the ordinary scale—there was an excess of departures by sea over arrivals between the 1st January, 1905, and the 31st December, 1905, of 758 practically all Europeans, the excess of departures over arrivals in the previous year numbered 1,369.

#### PASSENGERS LEAVING AND ENTERING THE COLONY BY RAIL, 1905.

The following table is compiled from returns kindly furnished by the Cape Government Railway Department:—

Route.	FROM THE COLONY.				TO THE COLONY.				TOTAL.	
	European or White.		Other than European or White.		TOTAL.	European or White.		Other than European or White.		
	Adults.	Children.	Adults.	Children.		Adults.	Children.	Adults.	Children.	
Via Norval's Pont ...	43,700	8,145	6,299	239	58,383	50,386	8,933	3,543	232	63,094
Via Bethulie Bridge ...	8,236	1,313	10,763	611	20,923	8,959	1,667	13,409	813	24,848
Via Lobatsi and Ramathlaba ...	5,482	621	14,568	258	20,929	4,584	1,082	8,251	1,067	14,984
Total ...	57,418	10,079	31,630	1,108	100,235	63,929	11,682	25,203	2,112	102,926

From the above it will be seen that 8,114 more Europeans ENTERED the Cape Colony in one year by the Railway Systems than left it in the same manner. Of the coloured population 5,423 more passengers LEFT the Cape Colony than entered it by rail. The total excess of arrivals over departures during 1905 was 2,691 persons.

#### ADMINISTRATION.

The provisions of the Act have been carried out very mildly. In 1895 twenty persons were charged, in 1896 sixty (thirteen being Europeans), in 1897 one hundred and seven (twenty-nine being Europeans), in 1898 one hundred and twenty-four (fifty-five being Europeans), in 1899 two hundred and twenty-one (fifty-four being Europeans), in 1900 one hundred and eighteen (fifty-one being Europeans), with the result that one hundred and eight convictions followed, in 1901 only forty-eight (twenty being Europeans) were charged, with forty convictions, in 1902 fifty Europeans and forty Coloured persons were accused and 84 convicted; in 1903, one hundred and two (fifty being Europeans) were charged and 97 convicted, in 1904 ninety-four (forty-seven Europeans) were charged and 77 convicted, and in 1905 seventy-nine (forty Europeans) were charged and 70 convicted.

There are 117 Deputy Registrars all told, the area comprised in their jurisdiction being 276,995 square miles.

An important alteration was made by G.N., No. 763, of 5th November, 1900, in Regulation No. XXIV., and since that date Births can be registered within 7 instead of 5 years.

The Resident Magistrate, Port Nolloth, is the only officer who still (December, 1905), retains the appointment of Deputy-Registrar *ex-officio*.

In all other cases, special appointments are made.

During the last eight and a half months (16th April, to 31st December, 1905), some few alterations as to Urban Areas have been made. Adelaide and Laingsburg have by Proclamations 340 and 264 of 1905 been created new Magisterial Districts, Loxton was made a Municipality by Proclamation 188 of the same year, whilst Vredenburg (*Malnesbury*); De Rust (*Oudtshoorn*); Rooigrond (*Mafeking*); and Korsten (*Port Elizabeth*); have by Proclamations 215, 245, 430 and 445 been placed under the control of the "Village Management Act."

#### REGISTRATION OFFICE ROUTINE.

With our small staff, it is almost superfluous to record our inability to deal with the subject so often referred to in similar terms, viz., the great task of preparing a *General Alphabetical Index of Names of Persons Born and Died*. We have barely been able to accomplish the absolutely necessary work. An important subject connected with Diseases, e.g., *occupations*, cannot be discussed, while only the fringe of the age question can be touched. Errors, and the still more perplexing inconsistencies in *Dates* and *Names*, continue to take up as much of the time of the staff as ever, not only in Marriage cases, but in Births and Deaths matters, and it is an uphill task to endeavour, in the interests of those who may not be directly concerned for years to come, to rectify reports, while the only persons qualified to amend the same are accessible.

The practice of this Department in regard to the difficult subject of the Names of *Natives* remains the same as that stated in the Preliminary Report for 1896:—

"It is not the policy or intention of this Department to interfere with any distinct native custom. It is simply desired that one definite plan of reporting may be followed. If, therefore, a Christian native woman contracts a marriage, and such marriage is solemnized under the provisions of the Order in Council of 1898, or the marriage Act of 1860, it will surely not be unreasonable to require that when such person comes to report the birth of her child, or the death of her husband, she shall sign the information form in the manner contemplated by the regulations. All that is aimed at is consistency. If the Registration system is to be of any value for the purposes of identifying individuals and facilitating the tracing of claims to property, uniformity of practice must be insisted upon."

#### NATIVE REGISTRATION.

The unsatisfactory registration of other than European or White Births and Deaths in the Transkeian Territories and Pondoland is shown in the following comparative table for 1904 and 1905:—

	Population '04.	1905.		1904.		'04 Rates Per 1,000.	
		Births.	Deaths.	Births.	Deaths.	Births.	Deaths.
East Griqualand	216,784	2,126	2,024	2,366	2,120	10·9	9·8
Tembuland	223,416	1,771	2,021	2,256	2,455	10·1	10·9
Transkei	176,923	2,051	2,455	2,887	3,286	16·4	18·6
Pondoland	201,644	798	881	769	928	3·8	4·6

From the above Table it may be assumed that in East Griqualand and Tembuland only about one-third of the births and one-half of the deaths are recorded; in the Transkei about two-thirds of the births and deaths are registered, whilst in Pondoland, which became subject to the provisions of the Births and Deaths Act on the 1st December, 1900, the registrations are so unsatisfactory that for comparative purposes the rates are useless. At Elliotdale, in Tembuland, and Willowvale, and Nqamakwe, in the Transkei, the registrations are satisfactory.

#### TABULATION BY REGISTRATION DATES.

For the decennial period 1895-1904 the final results of registration of Births and Deaths have been brought out according to the dates of the occurrences of the events recorded. For example events that occurred in 1900 but were only reported and registered in 1904, being added to the events of 1900, previously accounted for.

In rural areas the limit of time allowed by the Registration Act within which Births and Deaths events should be reported is three months.

By the system of tabulation by occurrence dates, it was necessary therefore to allow three months of the succeeding year to elapse before events could be extracted and the tabulation finally taken in hand of Births and Deaths which occurred, but were not registered in the previous year. It has now been deemed advisable to change the system hitherto in vogue to that of tabulation by dates of registration.

The apparent falling off in the total number of Births and Deaths for the year 1905, as compared with the previous year 1904 may therefore be explained as due to the adoption of this new system of tabulation.

#### SYSTEM OF REPORTING.

Reports are made by Informants (a) by Forms (b) in Books.

Books are made use of in Locations specially treated, and the native informants have to appear personally before the Deputy-Registrar or the Assistant, and sign the proper Book. In some few Native Districts, where exceptional circumstances obtain, the Headmen or Chiefs are allowed to make periodical bulk statements (*Numerical System*) of the number of males and females born or died in their locations. Transcripts of the book entries are forwarded to the Registrar every month.

In Municipalities, Villages under Board Management and Special Urban Areas, Births, Still-births and Deaths must be reported in person to the Deputy-Registrar or Assistant, in whose presence the Informant must sign the Registration forms; otherwise the forms must be declared to before a J.P., Minister, or Medical Man. Outside Municipalities, Villages under Board Management, and Special Urban Areas, the Informants

must appear personally before the Deputy-Registrar, or Assistant, or Field-cornet, or any Police Officer, and sign the forms, or must have them declared to, or must sign them in the presence of a witness. The Deputy-Registrar transcribes the entries from the forms into his Registration Book, and forwards the original forms to the Registrar.

#### RACE DISTINCTION.

The following main race distinctions are observed, viz.: (1) European or White, (2) Malay, (3) Fingo, Kafir and Bechuana, (4) Hottentot, Mixed and Other. The *European or White* population consists of the descendants of the original Dutch Colonists and French Refugees, and of the immigrants chiefly of British and other Teutonic races, who more recently entered the Colony. The *Malay* class, consisting of only 15,682 souls at the Census (1904) date, owes its distinctive existence rather to the bend of a common and uniform faith than to any feeling of race. As its name implies, it is of Asiatic origin. *Hottentots*—the name given to the aboriginal natives with whom the Dutch pioneers first came into contact—include a sprinkling of Korannas, Bushmen and Namaquas. But it will no doubt be found that the term "Hottentot" is used as synonymous with "mixed." "Hottentot" births, therefore, are classed with "mixed," the separate specification being too doubtful. The number of pure-bred Hottentots can be but small. The *Fingoes* form part of the Bantu family, but were separately considered in the Census tables in consequence of the peculiar relations in which, by force of circumstances, they stand to the Colony, and of their progress in civilisation. *Kafirs* and *Bechuana*s include—taking them in order of numerical importance—Amaxosa, Tembu, Pondomise, Baca, Xesibe, Bechuana, Basuto and other similar tribes. *Mixed and Other Coloured Races* include the great and increasing population which has sprung from the intercourse of the Colonists with the indigenous races, and Indians, Chinese, Mozambiques, Griquas, &c. They also comprise children born of parents belonging to different elements of the four main races.

The proportion of each race to the *total* population of the *whole* Colony in 1904 was as follows:—European, 24·06; Malay, 0·65; Hottentot, 3·79; Fingo, 12·89; Kafir and Bechuana, 46·23; Mixed and Other, 12·38.

#### PROPORTION OF THE SEXES, 1904.

It was established by the Census figures that to every hundred males alive on the 17th April, 1904, there were 97·70 females. When, however, the races are considered separately, conspicuous variations are noticeable. Thus, the proportion for Hottentots was 94·06 for every 100 males; for Europeans, 82·00; for Kafirs, 104·25; for Mixed and Other, 95·30; for Malays, 98·96; and for Fingoes, 110·96. In the District of Kimberley the employment of a large male population in the Diamond Mining industry accounts for the low proportion of females, viz., 56·21 in 1904. This cause still operates, and renders so striking the present disproportion between Births and Deaths at Kimberley and Beaconsfield.

#### BIRTHS.

#### PROPORTION OF THE SEXES, 1905.

It appears to be the general rule in European countries for male births to exceed the female. This rule also applies to the Cape Colony.

Taking the figures for the *Colony Proper* for 1904-1905 we can derive the following percentages, viz.:—

Race.	To each 100 Girls.		To each 100 Boys.		Race.	To each 100 Girls.		To each 100 Boys.	
	1904	1905	1904	1905		1904	1905	1904	1905
European	104·70	104·87	95·51	95·35	Mixed and others	104·06	101·98	98·05	97·04
Fingo, Kafir and Bechuana	105·64	105·24	94·65	95·93	All Races	103·90	103·94	96·25	96·21
Malay	99·32	96·34	100·69	103·80	Other than European	103·41	103·38	96·70	96·72

Placing the figures above quoted alongside of those given in the Census Tables, the following interesting comparison attracts attention, viz.:—

Race.	Females alive 17th April, 1904, to every 100 males.		Females born in 1905, to every 100 males.		Females born in 1904, to every 100 males.	
	European	...	95·35	95·51	Fingo, Kafir and Bechuana	...
	...	82·16	91·70	94·65		
			94·64	97·04		
			98·81	103·80		
					98·05	100·69

#### GENERAL COMPARATIVE SUMMARY. COLONY PROPER, 1903, 1904 AND 1905, WITH

#### PROPORTIONS.

\* Events having been extracted in regard to 1903, 1904 and 1905, the grand total of Births for 1903 computes to 56,278, for 1904 to 56,802, and for 1905 to 53,028. The figures for Bechuanaland are 1,433, 1,609, 1,656 respectively. The figures for Walfish Bay are small, only 18, 16 and 29 respectively, Pondoland 993, 799, 824, while for the combined other Transkeian Territories they are 9,369, 7,958, and 6,387. For purposes of comparison it is expedient to restrict attention to the Colony Proper, although even then in some of the areas like Glen Grey, carrying an overwhelming Kafir, Fingo, and Bechuana population, birth reports, owing to the strong prejudices of the people, are manifestly imperfect. The figures are:—

## COLONY PROPER, excluding BECHUANALAND AND NATIVE TERRITORIES.

SEX AND YEAR.	White.	Malay.	Fingo, Kaffir and Bechuana.	Hottentot, Mixed and Other.	Total other than European or White.	Total.
M.	1903 ...	8,465	337	5,775	8,152	14,264
	1904 ...	9,006	291	6,035	8,321	14,647
	1905 ...	8,417	263	5,576	8,235	14,074
F.	1903 ...	7,940	320	5,591	7,882	13,793
	1904 ...	8,602	293	5,712	8,159	14,164
	1905 ...	8,026	273	5,349	7,991	13,613
						21,639

The undermentioned percentage proportions are calculated on these figures :—

M.	1903 ...	37·24	1·48	25·42	35·86	62·76	100·00
	1904 ...	38·08	1·23	25·51	35·18	61·92	100·00
	1905 ...	37·42	1·17	24·79	36·62	62·58	100·00
F.	1903 ...	36·53	1·47	25·73	36·27	63·47	100·00
	1904 ...	37·78	1·29	25·09	35·84	62·22	100·00
	1905 ...	37·09	1·26	24·72	36·93	62·91	100·00

\* Including "at Sea" cases.

The population of the Colony Proper on the 30th June, 1905, was estimated to be 1,531,402, which gives a Birthrate of 28·82 per 1,000.

Birthrates for European Countries and Australasian States and Colonies may be quoted from the *New South Wales Year Book*, 1904-5, as follows :—

EUROPEAN COUNTRIES.—1903, rate per 1,000 of population : Austria, 37·0; Italy, 31·5; Germany, 35·1; England and Wales, 28·4; Scotland, 29·2; Norway, 28·7; Belgium, 27·5; Ireland, 23·1; France, 21·1.

AUSTRALASIAN STATES.—1904, rate per 1,000 of population : Queensland, 26·86; New South Wales, 26·73; Tasmania, 29·59; South Australia, 24·70; New Zealand, 26·94; Western Australia, 30·34; Victoria, 24·64.

The subjoined return shows as regards a selection of the Principal Cities and Towns the total number of Births which occurred during the three years 1903, 1904 and 1905, and had so far been registered.

## CITIES AND CHIEF TOWNS, 1903, 1904, 1905.

Cities and Towns.	1903.	1904.	1905.	Cities and Towns.	1903.	1904.	1905.
Cape Town ...	2,588	2,856	2,633	Claremont ...	694	675	681
Kimberley ...	839	866	851	Graham's Town ...	468	450	457
Port Elizabeth ...	1,423*	1,214*	1,240	Uitenhage ...	468	500	512
Woodstock ...	1,239	1,349	1,315	Paarl ...	444	451	466
East London ...	687	747	693	Graaff-Reinet ...	418	414	379
Wynberg ...	718	765	737	Queen's Town ...	419	402	400

\* The removal of natives to the location established outside the Municipality of Port Elizabeth accounts for the fall in Births since 1903.

If attention be paid to European Births by themselves, the results show themselves thus :—

CITIES AND TOWNS.	M.			F.			CITIES AND TOWNS.	M.			F.		
	1903.	1904.	1905.	1903.	1904.	1905.		1903.	1904.	1905.	1903.	1904.	1905.
Cape Town ...	476	519	460	447	584	457	Claremont ...	110	102	119	104	119	124
Kimberley ...	225	233	238	222	226	220	Graham's Town ...	116	108	108	86	100	95
Port Elizabeth ...	347	351	357	341	352	354	Uitenhage ...	105	105	123	111	130	125
Woodstock ...	406	444	407	434	457	385	Paarl ...	74	75	79	56	66	59
East London ...	245	277	226	207	253	228	Graaff-Reinet ...	70	80	87	73	68	60
Wynberg ...	127	151	155	119	136	155	Queen's Town ...	68	70	88	81	68	67

## URBAN AND RURAL CASES, 1903, 1904 and 1905.

Not only are Municipalities treated as Urban areas, but localities under the operation of the Village Management Act and regions specially proclaimed to be Urban.

In the Colony Proper there had been 22,931 Urban Births and 21,531 Rural in 1903, 23,557 Urban and 22,862 Rural in 1904, and 22,863 Urban and 21,267 Rural in 1905. For the White and Coloured Races and for the two Sexes the comparative figures are as follows :—

## COLONY PROPER, excluding BECHUANALAND AND NATIVE TERRITORIES.

YEAR.	White.				Coloured.				Total.			
	Urban.		Rural.		Urban.		Rural.		Urban.		Rural.	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
1903 ...	4,853	4,544	3,612	3,396	6,893	6,641	7,371	7,152	11,746	11,185	10,983	10,548
1904 ...	5,298	5,115	3,708	3,487	6,631	6,513	8,016	7,651	11,929	11,628	11,724	11,138
1905 ...	4,997	4,803	3,420	3,223	6,639	6,424	7,435	7,189	11,636	11,227	10,855	10,412

and they give the understated percentage proportions :—

1903 ...	10·91	10·22	8·12	7·64	15·51	14·94	16·57	16·09	26·42	25·16	24·69	23·73
1904 ...	11·41	11·02	7·99	7·51	14·29	14·03	17·27	16·48	25·70	25·05	25·26	23·99
1905 ...	11·32	10·88	7·75	7·30	15·05	14·56	16·84	16·30	26·37	25·44	24·59	23·60

As a similar statement has been abstracted in regard to the Deaths which occurred in and outside the Cities and Towns, we are enabled to make an interesting comparison, showing the concentration of population in the Townships, thus :—

YEAR.	Births.						Deaths.					
	Urban.			Rural.			Urban.			Rural.		
	M.	F.	Both.	M.	F.	Both.	M.	F.	Both.			

Scotland, 6·33; Norway, 7·35; Italy, 6·34; England, 4·04; Ireland, 2·65. Australian percentages, 1903: New South Wales, 6·71; Victoria, 5·73; Western Australia, 4·69; Queensland, 6·79; Tasmania, 5·61; New Zealand, 4·55; South Australia, 4·16.

Before discussing the subject of percentages obtained from the figures published on other pages, it is worth while to advert to the difficult question of marriage by *Native Custom*. The Chief Justice, in deciding on the appeal case of *Nggobela vs Sihele*, heard in the Supreme Court, December, 1893, delivered an elaborate judgment, from which the following items of information are taken. Act No. 16 of 1860 provides for the appointment of Marriage Officers for solemnising the marriages of persons professing the Mohammedan faith according to the Mohammedan customs and usages, but not for marriages according to Native custom, and a union therefore founded only upon native usage and custom within the Colony proper is not a marriage, and Courts of Law are bound to treat the intercourse as illicit. Any marriage which would be regarded as valid in any of the dependencies of the Colony, must be regarded as valid in the Colony, although Colonial solemnities have not been observed (and this is important), if it is not opposed to the essential nature of the contract as understood in the Colony. The Court held the effect of Proclamation No. 14 of 1885 is to dispense with the solemnities required by the laws of the Colony Proper in the case of natives electing to marry in Tembuland (it was a case originating there that was before the Court) according to their own customs. If they register the marriage it has the same effect as marriage contracted under Colonial law; if they do not register it remains valid, but its effect must be judged by the native custom of the territory. The Supreme Court can only administer the law of the Colony, but for that purpose it may become necessary to give effect to the laws of other countries and dependencies so far as they affect the validity of any contract entered into by the parties to the suit, &c.

From the foregoing considerations it will be evident that from the information obtainable from the general run of natives, it is impossible to state for certain how many births are legitimate or natural. In the Registration Books specially framed for use in Native Locations no enquiry is made as to the date or place of marriage, and under the numerical system the sole question asked is whether the infant is a boy or girl. The returns of Fingo and Kafir births have been tabulated under three headings, Legitimate Cases, Native Custom, Illegitimate, but such an arrangement can only be viewed as a temporary expedient. When the difficulties of deciding the validity of certain native marriages in the Transkeian Territories are so great as to necessitate appeals to the Supreme Court to settle the moot points, this Department must reasonably be excused from tabulating decisively births the result of Native marriages as to which there is no evidence to prove the domicile of the parties at the time of the union.

It would be futile to investigate any proportion where such uncertainty exists.

Births of children belonging to the *Mixed, Other and Hottentot Races with Malays* amounted in 1905, in the *Colony Proper* only, to 16,762 in all, 8,498 being boys and 8,264 girls; of these events 7,775 were illegitimate, consisting of 3,919 males and 3,856 females, giving the following percentage proportions, viz.:-

Illegitimate births to total Malay Mixed and Other births (*Colony Proper* only) ... 46·38

#### STILL BIRTHS.

The number of Still Births reported in the Urban Areas was as follows for the three years 1903, 1904, 1905, the events being taken out to 31st December, 1905:—

YEAR.	European.		Coloured.		
	M.	F.	M.	F.	
1903	175	157	385	344	
1904	196	158	346	316	
1905	195	170	350	298	

#### DEATHS.

##### GENERAL COMPARATIVE SUMMARY.—COLONY PROPER, 1903, 1904 AND 1905—with proportions.

In all, deaths to the number of \*36,699 had been recorded for the year 1905.

The deaths registered in 1904 give a total of 40,695 cases; similar figures for 1903 are stated to be 40,826. The figures for Walfish Bay are insignificant—79, 55 and 41 deaths for the three years—while those for the Transkeian Territories 6,666, 8,001 and 6,496; Bechuanaland, 878, 876 and 1,150; Pondoland, 890, 938 and 1,028 for 1905, 1904 and 1903 are unavoidably imperfect, consequently it is advisable to compare—partially as it can now be done—simply the Colony Proper occurrences, which in 1905 numbered 14,711 as regards Males, and 13,440 for Females. 22·79 per cent. of the Male Deaths were amongst Whites and 77·21 amongst the Coloured Races; similar figures for Females show 19·64 and 80·36 per cent. respectively. It will be noticed that the percentages for European or White and other than European or White Deaths have varied slightly compared with the previous years. The subjoined statement affords a general view of the data:—

\* Including "at Sea" cases.

RETURN showing for each of the years 1903, 1904 and 1905 the number of Deaths of Male and Female persons of each of the four Main Races with percentage proportions.

##### COLONY PROPER ONLY, excluding BECHUANALAND AND NATIVE TERRITORIES.

SEX AND YEAR.	White.	Malay.	Fingo, Kaffir and Bechuana.	Hottentot, Mixed and Other.	Total other than White.	Total.
M.	4,262	287	6,451	6,332	13,070	17,332
	3,949	235	6,459	5,725	12,419	16,368
	3,353	193	5,972	5,193	11,358	14,711
F.	3,190	260	5,253	6,011	11,524	14,714
	3,031	210	5,552	5,623	11,385	14,416
	2,640	215	5,218	5,367	10,800	13,440

From the above data, the following percentages are derived:—

M.	1903	24·59	1·65	37·23	36·53	75·41	100·00
	1904	24·13	1·43	39·46	34·98	75·87	100·00
	1905	22·79	1·31	40·60	35·30	77·21	100·00
F.	1903	21·68	1·77	35·70	40·85	78·32	100·00
	1904	21·03	1·46	38·51	39·00	78·97	100·00
	1905	19·64	1·60	38·82	39·94	80·36	100·00

The population of the Colony Proper on the 30th June, 1905, was estimated to be 1,531,402 which would give a death rate of 18·38 per 1,000.

The death rates for the undermentioned countries have been taken from the *New South Wales Year Book, 1904-5*.

EUROPEAN COUNTRIES.—1903 rate per 1,000 of population: Austria, 24·7; Italy, 22·2; Germany, 19·4; France, 19·2; Ireland, 17·5; England and Wales, 15·4; Scotland, 16·6; Norway, 14·8.

AUSTRALASIAN COLONIES AND STATES.—1904 rate per 1,000 of population: W. Australia, 11·91; Victoria, 11·92; Tasmania, 11·01; S. Australia, 10·22; Queensland, 10·01; N.S. Wales, 10·62; New Zealand, 9·57.

##### CHIEF TOWNS, 1903, 1904 and 1905.

After the *non-resident* hospital cases have been deducted from the total number of deaths that happened in the most important centres of population, it is seen that the following comparative results show themselves, namely:—

Cities and Towns.	1903.	1904.	1905.	Cities and Towns.	1903.	1904.	1905.
Cape Town	1,909	1,522	1,556	Claremont	386	330	293
Kimberley	1,104	897	1,031	Graham's Town	451	326	334
Port Elizabeth	975*	631*	627	Uitenhage	352	382	353
Woodstock	635	543	535	Paarl	358	333	287
East London	418	386	430	Graaff-Reinet	307	416	310
Wynberg	513	461	423	Queen's Town	384	251	374

\* The removal of Natives to the Location established outside the Municipality of Port Elizabeth accounts for the fall of deaths since 1903.

##### URBAN AND RURAL CASES, 1903, 1904 and 1905.

For the purposes of the Act No. 7 of 1894, areas under Municipal and Village Board control, as well as certain specially so proclaimed, are termed and treated as "Urban." Confining attention to the Colony Proper alone, it will be seen that there were 18,787 Urban and 13,259 Rural in 1903, and 16,647 Urban and 14,137 Rural in 1904, and 15,637 Urban Deaths and 12,514 Rural in 1905, and that the component items for the two Races and Sexes give the following results:—

YEAR.	White.				Coloured.				Total.			
	Urban.		Rural.		Urban.		Rural.		Urban.		Rural.	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
1903...	2,917	2,014	1,345	1,176	7,555	6,301	5,515	5,223	10,472	8,315	6,860	6,399
1904...	2,624	1,913	1,325	1,118	6,430	5,680	5,989	5,705	9,054	7,593	7,314	6,823
1905...	2,286	1,743	1,067	897	6,174	5,434	5,184	5,366	8,460	7,177	6,251	6,263

From these figures the subjoined percentages are derived:—

1903...	9·10	6·29	4·19	3·67	23·58	19·66	17·21	16·30	32·68	25·95	21·40	19·97
1904...	8·52	6·22	4·30	3·63	20·89	18·45	19·46	18·53	29·41	24·67	23·76	22·16
1905...	8·12	6·19	3·79	3·19	21·93	19·30	18·42	19·06	30·05	25·49	22·21	22·25

AGES, NUMBERS AND PERCENTAGES, 1903, 1904 and 1905.

In the Colony Proper European children under 5 years of age to the number of 2,532 died, compared with 3,079 in 1904, and 3,128 in 1903, and Coloured Children to the number of 11,552, 12,259 and 12,281 respectively. There is a large fluctuation in the number of Europeans over 5 years that passed away in the three years 3,461, 3,901 and 4,324, and the Coloured Deaths of that age period show a steady decline from 12,313 in 1903, to 11,545 in 1904, and 10,606 in 1905,

The main results of the return may be stated as follows:—

COLONY PROPER, *excluding BECHUANALAND AND NATIVE TERRITORIES.*

YEAR.	European.										Coloured.									
	Total.			Unspeci- fied.		Over Five Years.		Under Five Years.		Total.			Unspeci- fied.		Over Five Years.		Under Five Years.

**DETAILED AGES OF DECEASED.**

By the commendable exertions of the quite inadequate staff of Tabulators the Department has been enabled again to present some details on the important subject of the ages of persons who died in 55 chief towns. The statistics are arranged to show (a) the number of certified and uncertified European and Coloured cases and (b) the principal certified and uncertified causes of death in each chief town.

The subjoined analysis relates to 11,970 events, the specific ages being wanted in 4 instances of adults, and we find that amongst Europeans 22.55 per cent. were males under 5, and 18.94 females; 34.38 males over 5, and 24.13 females. For Coloured persons the figures were, under 5, 27.26 and 27.06 per cent.; over 5 years, 26.97 and 18.71.

As the return may fairly be taken as typical of the age distribution of the general death tables it is as well to give a short abstract in the following shape:—

PROPORTIONS PER CENT.—FOR EUROPEANS AND ALL OTHERS SEPARATELY—OF DEATHS  
AT EACH AGE PERIOD TO TOTAL DEATHS.

Race.		0 Days to 1 Month.		1 to 6 Months.		6 to 12 Months.		12 Months to 2 Years.		2 to 3 Years.		3 to 4 Years.		4 to 5 Years.		Total Under 5 Years.

DETAILED AGES, 1905.—EUROPEAN CASES.

Taking advantage of the opportunity now afforded of instituting a comparison between the proportion per cent. by the different age periods of deaths, amongst males and females to total deaths of Europeans in Sydney and in the Chief Towns of this Colony, we are enabled to exhibit the following figures, noting in passing, that the New South Wales returns account for 5,675 (2,951 males and 2,724 females) fatal cases in 1904 and ours for 3,669, (2,172 males and 1,497 females) for the year 1904, and 3,357 (1,911 males and 1,446 females) for 1905.

LOCALITIES.	0 Months to under 12 Months.		12 Months and under 2 Years.		2 Years and under 3 Years.		3 Years and under 4 Years.		4 Years and under 5 Years.		Total under 5 years

	1905	2·88	2·23	4·89	3·70	8·07	4·77	10·43	6·31	8·08	7·12	34·38 a	24·13	
Sydney	...	1904	2·91	2·91	2·91	4·05	7·14	6·52	11·68	8·79	11·17	11·58	35·81	33·85

(a) One Male Adult = .03, Included

It will be observed that while in Sydney 22.91 per cent. of the European deaths occurred before children had reached the age of 12 months, we had unfortunately a percentage of 31.75 in 1904, and 32.77 in 1905. The higher age at time of demise becomes apparent in the Australian statement from the age 30 years and under 45.

DETAILED AGES 1905—COLOURED CASES

The Registrar-General's 1903 and 1904 Reports on the Vital Statistics of *Ceylon* supply the means of placing side by side data stating the relative proportions of deaths in a temperate and a tropical climate at various age points to all deaths, the only factor for which no allowance can be made is the impracticability of assessing the influence of rural cases in the Ceylon figures (96,084 and 93,940), which are for the Island generally, whereas ours (8,733, including 3 unspecified for exact age in 1904, and 8,613, including 3 unspecified for 1905), are simply urban.

LOCALITIES.	0 Days to under 12 Months.		12 Months and under 2 Years.		2 Years and under 3 Years.		3 Years and under 4 Years.		4 Years and under 5 Years.		Total under 5 Years.

Cape, Chief Towns	1904	M. F.	1·60	1·13	1·44	2·76	6·39	4·74	3·12	2·41	1·64	1·61	26·86
	1905		1·81	1·24	2·10	2·22	3·93	2·55	1·99	1·65	1·37	1·67	20·53
Ceylon	1903	M. F.	1·36	.87	1·89	3·21	6·87	4·47	3·16	2·08	1·53	1·53	26·97
	1904		1·50	1·28	1·70	2·04	3·74	2·12	1·71	1·49	1·50	1·60	18·71
	1903	M. F.	3·00	1·84	1·60	1·69	3·97	4·15	3·75	3·43	2·40	3·05	28·88
	1904		3·30	1·68	1·52	2·48	5·06	3·21	2·59	2·49	1·95	3·12	27·43
	1903	M. F.	2·83	1·61	1·38	1·58	3·82	3·96	3·57	3·48	2·39	3·36	27·98
	1904		3·13	1·44	1·46	2·32	5·08	3·46	2·70	2·62	2·13	3·30	27·64

(a) One Male Under 5 years = .01. (b) Two Male Adults = .02. Ages Unspecified, Included.

(c) Three Female "Adults" = .03, Included.

It was found that the Cape figures for *Europeans* contrasted most unfavourably with those for Sydney as regards the tender ages of children, and we remark a similar bad feature now as to *Coloured* persons, and in relation to a worse climate. The proportions are—

Cape—Coloured Infants under 1 year ... ... ... (1904) 34·92, (1905) 34·94  
 Ceylon " " ... ... ... (1903) 25·29, (1904) 26·98

The excess of male over female deaths is readily accounted for by the fact of the existence of large localities of male adults at Kimberley, Cape Town, Port Elizabeth and other towns.

The mortality statements for the Colony of *British Guiana* allow us to show another comparison—also unfavourable to ourselves.

LOCALITIES.	Under 1 Year.	1 Year to under 5.	Total under 5.	5-10.	10-20.	20-30.	30 up.	Total over 5.	REMARKS.
Cape, Chief Towns	1904	34.92	17.68	52.61a	3.41	5.91	10.73	27.32	47.39b
	1905	34.94	19.38	54.32	2.86	5.74	11.17	25.88	45.68c
	1903	20.58	10.10	30.68	3.25	4.33	12.07	49.67	69.32
British Guiana	1904	21.18	9.87	31.05	3.18	4.73	12.37	48.67	68.95
	1904	21.18	9.87	31.05	3.18	4.73	12.37	48.67	68.95

(a) One Male Under 5 years = .01, (b) Two Male Adults = .02, Ages Unspecified, Included  
(c) Three Female "Adults" = .03, Included.

Thus it appears that *more than half* of the Cape Coloured persons who died in 1904 and 1905 in the cities and large towns were under 5 years of age, whereas in tropical British Guiana less than *one third* of the total deaths took place before the fifth year of age was reached. The proportion for Ceylon was 43·69 per cent. in 1904 and 44·38 in 1905.

CERTIFICATION. 1903, 1904 and 1905.

COLONY PROPER, *excluding BECHUANALAND AND NATIVE TERRITORIES.*

Of the Deaths which occurred in 1905, 13,999 were certified compared with 14,888 in the previous year, and 16,537 in 1903; and 14,152 uncertified contrasted with 15,896 in 1904, and 15,509 in 1903. In other words 49·72 per cent. of the cases in 1905 were certified and 50·28 uncertified; again for 6·08 per cent. of the European infantile deaths medical evidence was afforded, compared with 2·92 per cent. wherein such was absent, and 17·72 per cent. of the Coloured infantile deaths were certified and 23·31 per cent. not. In these figures are included reports from the native districts like Herschel, Glen Grey, parts of Queenstown, Peddie and K. W. Town, rarely supported by medical evidence. The data may be summarised as follows:—

YEAR.	Certified Cases.									Uncertified Cases.									
	Total.			Unspeci- fied.		Over Five Years.		Under Five Years.		Total.			Unspeci- fied.		Over Five Years.		Under Five Years.		
	E.	C.	Per- sons.	E.	C.	E.	C.	E.	C.	E.	C.	Per- sons.	E.	C.	E.	C.	E.	C.

By adding the natural increase *i.e.*, excess of Births over Deaths to the population as enumerated at the Census, 1904, the above return of Birth and Death Rates regarding a selection of the Chief Towns has been prepared. From this return it will be observed that for the births of European children Maitland leads with a rate of 51·23 per 1,000; following on comes Burghersdorp with 47·58; Beaconsfield, 43·63; Beaufort West, 43·21; Oudtshoorn, 39·76, and Mossel Bay with a rate of 39·10 per 1,000. Kalk Bay and Muizenberg, Stellenbosch and Simon's Town contributed respectively only 21·44, 15·90 and 15·94 per 1,000. The apparently low rate for Kalk Bay and Muizenberg may be attributable to the fact that at the time of the Census (April, 1904,) the inhabitants would have been temporary residents only, and this rate cannot therefore be accepted as normal. Simon's Town, again, being a Naval Station, has a preponderance of Males, which would in a measure account for its low rate. Of the Coloured population Maitland has the highest rate with 78·32, whilst the low rate at Kimberley, 19·36 per 1,000, may be due to the fact that a large number of the Coloured population are mine labourers. The highest European death rate is at Mossel Bay with 20·73 per 1,000; Cradock coming next with 20·02 per 1,000. Rondebosch has the low rate of 8·03; Stellenbosch following close with 8·75 per 1,000. For the Coloured death rate, the highest is at Beaconsfield 71·55, and the lowest at Green and Sea Point, 10·85 per 1,000.

#### ESTIMATED BIRTH AND DEATH RATES, 1896-1905—COLONY PROPER.

The subjoined Table shows for the Colony Proper the Birth and Death Rates per 1,000 of the population for the decennial period 1896-1905. Owing to the outbreak of hostilities in 1899 and to their continuation during the years 1900, 1901 and 1902, the population became displaced and vital statistics incomplete. It is impossible, therefore, to give more than a general idea of the rates for those years. As the figures for the Native Territories including Pondoland are imperfect it is considered advisable to compare the figures of the Colony Proper only:—

Figures for Colony Proper only.	1896.	1897.	1898.	1899.	1900.	1901.	1902.	1903.	1904.	1905.

\* Actual Population—Census.

#### MARRIAGES.

The total number of marriages solemnized during 1905 was 10,542, a decrease of 1,484 as compared with the previous year. The commercial depression during 1904-5 has, no doubt, exerted an adverse influence on the marriage rate.

8,741 marriages were registered in 1900, 9,552 in 1901, 12,179 in 1902, 12,219 in 1903, and 12,026 in 1904.

The Returns for 1905 show that Friday was again regarded as the unpropitious day for the solemnisation of the marriage ceremony, as out of 10,542 marriages 354 (compared with 376 out of 12,026 in 1904) of the whole took place on that day.

Tuesdays were most frequently selected, 3,696 or 35·1 per cent. occurring then (35·2 per cent. in 1904 and 36·5 in 1903); Mondays coming next with 3,135 or 29·74 (30·9 in 1904 and 29·2 in 1903), while 1,629 happened on Wednesdays, 767 on Thursdays, 458 on Saturdays, and 503 on Sundays.

The largest number in a full week was 297 in the seven days ended on 29th April, and the lowest 156 in May. In 9,187 cases banns were called by Ministers of Religion or by Resident Magistrates, the remaining instances, 1,355, being by special licence. The number of marriages before Protestant Clergymen was 9,083, Roman Catholic 296, Orthodox Greek Church 2, and Jewish 98, while 1,046 (or 9·9 per cent.) compared with 1,108 (or 9·2 per cent.) in 1904, 1,334 (or 10·9 per cent.) in 1903, 11·1 per cent. in 1902, 10·6 per cent. in 1901, 8·0 per cent. in 1900, 7·0 per cent. in 1899, 6·4 per cent. in 1898, and 5·8 per cent. in 1897, were dealt with by Magistrates, under the provisions of Act 16 of 1860. The majority of the parties wedded belonged to the Dutch Reformed Church, the number of marriages being 2,783.

The Church of England follows next with 2,111, which was 472 in advance of the Wesleyan Church, while Congregational, including Independent and London Missionary Society show 1,005 marriages. In point of Education 28·12 per cent. of the wives and 28·52 per cent. of the husbands could not write their names. It appears that in 761 cases widowers married spinsters, in 341 bachelors married widows, and in 304 widowers married widows. There were 75 cases relating to divorced wives or husbands,

#### REVENUE, 1905.

Arranging the districts according to the amount of the collections on account of Births and Deaths Registration in each, it is found that they take the following order:—

Cape, with Wynberg and Simon's Town, £202 14s.; Kimberley, £38 15s.; Port Elizabeth, £32 8s. 6d.; East London, £16 4s.; King William's Town, £8 17s. 6d.; Stellenbosch, £6 1s.; Cradock, £5 15s. 6d.; Paarl, £5 7s.; Uitenhage, 90·; Somerset East, 78·; Hay, 75·; Albany, 70·; Aliwal North, 67·6; Queenstown, 65·; Beaufort West, 64·6; Oudtshoorn, 60·; Colesberg, 56·; Middelburg, 54·; Worcester, 49·; Vryburg, 39·6; Mount Currie and Mafekeng, 35· each; Tarka, 34·; Fort Beaufort, 31·; Molteno, 32·6; Tulbagh, 29·; Victoria West, 27·6; Gordonia, 26·; Piquetberg, 25·6; Prieska, 25·; Malmesbury, 24·; Willowvale, 22·; Britstown, 21·; Richmond, 20·6; Bedford, Catheart, Jansenville, Robertson, Swellendam, and Kuruman, 18· each; Matatiele, 17·; George and Ladismith, 16· each; Carnarvon, Prince Albert, Butterworth, Riversdale, Uniondale, Wodehouse and Umtata, 15· each; Graaff-Reinet, 14·; Albert, Caledon, Calvinia, Ceres and Knysna, 12· each; Humansdorp Mossel Bay, Victoria East and Lusikisiki, 10· each; Komga, 9·6; Willowmore, 8·6; Bathurst, 7·6; Alexandria, Barkly East, Fraserburg, Herbert, Murraysburg and Libode, 6· each; Aberdeen, Philip's Town, Steynsburg, Maclear, Elliot, Mqanduli, Port St. Johns and Taung, 5· each; Hanover, 4·6; Kenhardt, 2·; Clanwilliam and Hope Town, 1· each. Total, £398 5s.

Thus 80 Deputies collected £398 5s. 0d., compared with £395 3s. 0d. received by 75 in 1904, £383 15s. 6d. by 76 in 1903, £314 11s. 6d. by 68 in 1902, £251 received by 63 in 1901, £213 received by 62 in 1900, £144 18s. 6d. received by 54 in 1899, £126 1s. taken by 62 in 1898, £114 15s. 6d. taken by 64 in 1897, £82 10s. by 46 in 1896, and £53 4s. 6d. by 39 in 1895.

The Municipal Records of Births and Deaths kept prior to 1st January, 1895, and the Voluntary Births Registration Books are preserved in the fireproof safe of the Central Office, where £29 12s. 0d. was collected. The total revenue was therefore £427 17s., against £64 10s. 6d. in 1895, £102 14s. in 1896, £130 15s. 6d. in 1897, £153 1s. in 1898, £175 2s. 6d. in 1899, £233 12s. in 1900, £281 8s. in 1901, £338 4s. 6d. in 1902, £418 17s. in 1903, and £433 14s. 0d. in 1904.

The fee for alteration or assignment of a child's Christian name is 2s. 6d.; for a search 1s. for each year or part of a year; for a certificate, 5s.—all payable in revenue stamps. If a certificate is authenticated by the Under Colonial Secretary, that officer charges a fee of 15s. in addition. It should be noted the Bank of England insists upon authentications.

For certified copies of duplicate original and R.M.'s MARRIAGE REGISTERS £118 7s. was received in 1905, £110 2s. in 1904, £108 3s. in 1903, £83 1s. 6d. in 1902, £76 18s. in 1901, £41 6s. 6d. in 1900, £62 4s. in 1899, £55 5s. in 1898, £40 in 1897, and £42 in 1896.

#### EXPENDITURE.

The expenditure brought to account for the financial year 1904-05 amounted to £7,877 for salaries and allowances to the staff in the Central Office, the Deputy Registrars, their Assistants and Field-cornets.

#### CONCLUSION.

The delay in the issue of this Report is due in a great measure to the fact that we were some two months late in taking the work in hand. It is to be hoped, however, that it will be possible with a better start to have the Report for the current year out of the Printers' hands considerably earlier in the next year. I have again to acknowledge the great assistance rendered me by my staff.

A. J. BRINTON,  
Registrar of Births and Deaths

General Register Office,  
Cape of Good Hope,  
30th September, 1906.

NO. I.—RETURN showing for each of the Four Main Races, with distinction of Sex, the number of Births which were registered, having occurred during 1903, 1904 and 1905, in the Colony Proper, Bechuanaland, Transkeian Territories, Pondoland, Walfish Bay, and “At Sea.” (Events taken out to 31st December, 1905.)
