Dear 

Later this year we may well face the biggest political decision in a generation – whether we remain in the European Union or whether we leave.

I will be campaigning for Britain to remain in the European Union because I believe it is the right decision for Cambridge and for Britain.

Millions of British jobs are linked to trade with Europe. Almost half of our exports, worth £227 billion every year, go to the EU. Cutting off this artery of trade and investment would jeopardise both businesses and jobs.

Cambridge's thriving research and technology base has benefited from tens of millions from the European Union. EU action has brought improvements to our water and air quality and future cooperation is vital to tackle environmental challenges. We now live in peace in a continent that for centuries was ravaged by war.

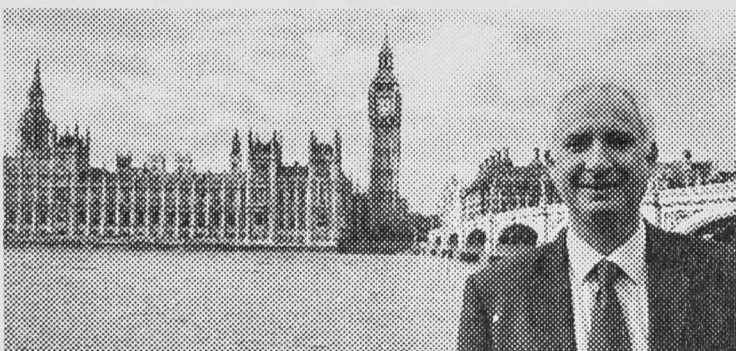

Of course EU rules can be improved and I'm clear, I want a social Europe, not just a market. I firmly believe staying in Europe is best for everyone in Cambridge.

I would like to hear your views so have enclosed a short survey and if I can be of any assistance please get in touch using my contact details below.

Yours sincerely,
