VERSLAG

oor die

Volkstelling van die Unie van Suid-Afrika,
8 Mei 1951.

Deel I.—Geografiese Indeling van die Bevolking.

Die laaste drie groepe word gesamentlik as die nie-blanke groep aangedui.

Die sensus van 1951 vorm die basis van die bevolkingsregister, ingestel ingevolge die BevolkingsRegistrasiewet, No. 30 van 1950, en daarom was dit nodig om die rasseomskrywings wat in hierdie wet voorkom en wat enigsins verskil van dié wat voorheen vir sensusdoeleindes gebruik is, te volg. Die volgende inboorlingrasse word nou ook as Naturelle geklassifiseer: Boesman, Hottentot, Koranna en Namakwa. Dit verblaas die skynbare teenstrydigheid in die syfers vir Naturelle en Kleurlinge vir 1951, vergeleke met 1946, in sommige magistraatsdistrikte, veral in die Wes-Kaaplandse gebied.

(b) Gebiede.

(i) **Provincies.**—Die Unie van Suid-Afrika bestaan uit vier provinsies, naamlik die Kaap die Goeie Hoop (gewoonlik die Kaap genoem), Natal, Transvaal en die Oranje-Vrystaat. Die gebiede Transkei en Zoeloeland, wat oorwegend Naturellegebiede is, is onderskeidelik integrerende dele van die Kaapprovinse en Natal, en tensy anders gemeld, word die syfers van die Transkeigebied en Zoeloeland onderskeidelik by dié van die Kaaprovinse en van Natal ingesluit.

Daar is ook diagramme wat die rassesamstellings van die bevolking in die vernaamste stedelike gebiede aandui.

Die volgende verduidelikings word gegee van die verskillende uitdrukings wat in hierdie boekdeel gebruik word:

(a) **Rasse.**—Oral in hierdie verslag word vier rassegroepes onderskei, naamlik blankes, Asiate, Kleurlinge en Naturelle, maar 'n vyfde groep, t.w., die Kaapse Maleiers, kom slegs in tabel 1 tot 10 voor. In alle ander tabelle word die Kaapse Maleiers by die groep „Kleurlinge“ ingesluit.

Die vier rassegroepes is as volg:

(i) **Blankes**—Personne wat volgens voorkoms klaarblyklik blankes is of wat gewoonlik vir blankes deurgaan, maar sonder inbegrip van personne wat, hoewel hulle volgens voorkoms klaarblyklik blankes is, gewoonlik vir Kleurlinge deurgaan.

(ii) **Naturelle**—Personne wat lede is van 'n inboorlingras of -stam van Afrika of gewoonlik daarvoor deurgaan.

(iii) **Asiate**—Inboorlinge van Asië en hul afstammelinge, hoofsaaklik Indiërs en Pakistane, met 'n paar duisend Chinese en 'n klein aantal persone van verskillende ander Asiatische nasionaliteite.

(iv) **Kleurlinge**—Alle persone wat nie by bovemelde groepes inbegrepe is nie. Die groot meerderheid in hierdie groep is persone wat bekend staan as die Kaapse Kleurlinge, maar persone van gemengde blanke en nie-blanke bloed word ook ingesluit. Wanneer die Kaapse Maleiers nie apart aangedui word nie, is hulle ook by hierdie groep ingesluit.

(iii) **Stedelike Gebiede.**—By vorige sensusse is slegs dié dorpe wat die een of ander vorm van wetlike plaaslike bestuur gehad het, soos munisipalerade, dorpsbesture, gesondheidskomitees, ens., as stedelik ingedeel, terwyl alle ander gebiede as plattelands ingedeel is.

Vir die sensus van 1951 is daar egter besluit om die omskrywing van "stedelik" ietwat uit te brei om twee ander gebiedssoorte in te sluit, wat geen plaaslike bestuur het nie maar waarvan die aard tog as stedelik genoeg beskou word. Dit is naamlik die aangrensende voorstede van die groter stede, aangedui as Sub-stedelike Gebiede, en die groter dorpe, aangedui as Kwasie-stedelike Dorpe.

Die volgende afkortings is gebruik in tabelle 6, 9 en 10 om die verskillende soorte stedelike gebiede aan te duif:

- M.—Munisipaliteit (insluitende „Boroughs” in Natal en stads- of grootstadssrade in Transvaal).
- D.B.—Dorpsbestuur (in die Kaap en Oranje-Vrystaat).
- D.R.—Dorpsraad.
- D.B.—Dorpsbestuur (in Natal).
- G.K.—Gesondheidskomitee.
- P.B.—Plaaslike Bestuur.
- P.G.—Plaaslike Gebied.
- O.G.—Openbare Gesondheidsgebied.
- S.S.G.—Sub-stedelike Gebied.
- K.S.D.—Kwasie-stedelike Dorp.
- P.D.—Plattelandse Dorp (sien hieronder).

(iv) **Metropolitaanse Gebiede.**—In alle gevalle bestaan die metropolitaanse gebied uit die moedermunisipaliteitsgebied tesame met die aangrensende gebiede, wat stedelik van aard en ekonomies aan die moederstad gekoppel is.

(v) **Plattelandse Gebiede.**—Die hele gebied buite die jurisdiksie van die verskillende stedelike gebiede word as plattelands ingedeel. Hierdie gebied bestaan hoofsaaklik uit plese en Naturellereservate, maar sluit ook die klein dorpies in, aangedui as plattelandse dorpe wat beskou word as te klein of nie genoeg verstedelik om as stedelik ingedeel te word nie.

By die gebruik van die tabelle moet daar op die volgende gelet word:

(a) Die volgende stedelike gebiede is in meer as een magistraats-distrifik gelee, en tabel 9 moet geraadpleeg word om die totale bevolking van hierdie gebiede te bepaal.

<i>Stedelike Gebied.</i>	<i>Status.</i>	<i>Distrikte waarin gelee.</i>

(b) In tabel 6 is die dorpe in sekere distrikte nie in alfabetiese volgorde gerangskik nie. In hierdie gevalle volg die sub-stedelike gebiede onmiddellik na die moeder-munisipaliteit en word hulle deur 'n oop reël van die volgende stedelike gebied geskei.

(c) Waar die stedelike of die plattelandse syfers in tabelle 6 en 10 dieselfde as die distriksyfers is, word eersgenoemdes nie herhaal nie.

(d) 'n Paar van die gebiede wat in Tabelle 11 (a), 11 (b) en 11 (c) voorkom, val nie geheel en al binne die stedelike of plattelandse gebiede soos hierbo aangetoon nie, maar die gebiede wat in kolomme 1 tot 7 voorkom, is geheel en al of oorwegend stedelik, terwyl die gebiede in kolomme 8 tot 22 geheel en al of oorwegend plattelandse is.

(e) Tydens die sensus was die Trichardtse Naturellelokasie in die magistraatsdistrifik Bethal om gesondheidssredes onder kwarantyn geplaas. Dit het later gelby dat die opname in die lokasie nie voltooi is nie met die gevolg dat sowat 640 Naturelle nie in die tabelle in hierdie verslag opgeneem is.

Vir sover moontlik is die bevolkingsyfers ten opsigte van vorige sensusse gewysig om dit in ooreenstemming te bring met veranderinge van die grense van stedelike gebiede en die syfers vir stedelike en plattelandse gebiede by vorige sensusse is ook gewysig in ooreenstemming met veranderinge van plattelandse in stedelike status, en andersom.

Die grondslag vir die indeling van die bevolking in stedelike en plattelandse gebiede word volledig uiteengesit in Spesiale Verslag No. 197: „Klassifikasie en Status van Stedelike en Plattelandse Gebiede”.

Algemeen.—

(a) Bevolkingsyfers in hierdie verslag word op 'n *de facto* grondslag opgegee, d.w.s. persone word opgegee volgens die plek waar hulle opgeneem is; die enigste uitsondering is die geval van persone wat gedurende die dag van die sensus op spoorwegtreine opgeneem is. Hierdie persone is volgens hulle gewone woonplek ingedeel. Daar kan egter gemeld word dat die oorgrote meerderheid persone by hul huise opgeneem is.

(b) **Oppervlakte in vierkante myl.**—Die oppervlakte van die Unie en van elke provinsie en distrifik word volgens die jongste beskikbare inligting opgegee. Hierdie syfers word van tyd tot tyd hersien wanneer heropmetings van verskillende dele van die Unie uitgevoer word.

(c) Die gedetailleerde sensusresultate, naamlik Leeftye, Beroepe, Tale, Godsdienst, ens., sal gepubliseer word wanneer die inligting beskikbaar word.

Direkteur van Sensus en Statistiek.

REPORT

on the

Census of the Population of the Union of South Africa, 8th May, 1951.

Volume I.—Geographical Distribution of the Population.

INTRODUCTION.

The last three groups, when combined, are referred to as the non-white group.

The 1951 census formed the basis of the Population Register established under the Population Registration Act, No. 30 of 1950, and it was therefore necessary to follow the racial definitions appearing in the Act, which differ somewhat from those previously used for census purposes. The following aboriginal races are now classified as Natives: Bushman, Hottentot, Koranna and Namaqua. This accounts for some apparent inconsistencies in the figures for Natives and Coloureds for 1951 as compared with 1946 in some magisterial districts, especially in the Cape Western area.

(b) Areas.

(i) **Provinces.**—The Union of South Africa comprises four provinces viz. the Cape of Good Hope (usually called the Cape), Natal, Transvaal and Orange Free State. The predominantly Native areas of the Transkeian Territories and Zululand are integral parts of the Cape Province and Natal respectively, and, unless otherwise stated, the figures for the Cape Province and Natal include the figures for the Transkeian Territories and Zululand respectively.

(ii) **Magisterial Districts.**—The magisterial district is primarily a sub-division of the Union for the suitable administration of justice, but in actual practice it is a decentralized area for the administration of nearly all government work. The magisterial district is the unit for census enumeration, and at the 1951 census there were 266 districts. At previous censuses Walvis Bay was included in the Cape Province and in the Union as a district, but Walvis Bay is administered from Windhoek just as if it were part of South West Africa. It has therefore been decided to exclude the figures and include them in the figures for South West Africa.

It will be found that in some cases the 1946 census figures as shown in table 6 of this volume do not agree with the figures published in the 1946 census report. This is accounted for by changes in district boundaries since 1946. Where necessary the 1946 census figures have been adjusted to conform to the boundaries as existing at the 1951 census. In all cases therefore the 1946 and 1951 figures are strictly comparable. Any changes in district boundaries subsequent to the 1951 census have not been taken into account.

(iii) **Urban Areas.**—At previous censuses only those towns and villages which had some form of urban local government constituted under any law, such as municipal councils, village management boards, health committees, etc., were classified as urban, and all other areas were classified as rural.

For the 1951 census, however, it has been decided to extend the definition of "urban" somewhat to include two other types of area, not having local government, but which are considered sufficiently urban in character. These are the outlying suburbs of the larger towns, designated Sub-urban Areas, and the larger villages, designated Quasi-Urban Townships.

The following abbreviations have been used in tables 6, 9 and 10 to show the various types of urban area—

- M—Municipality (including Boroughs in Natal, and Town and City Councils in the Transvaal).
- V.M.B.—Village Management Board (in the Cape and Orange Free State).
- V.C.—Village Council.
- T.B.—Town Board (in Natal).
- H.C.—Health Committee.
- L.B.—Local Board.
- L.A.—Local Area.
- P.H.A.—Public Health Area.
- S.U.A.—Sub-Urban Area.
- Q.U.T.—Quasi-Urban Township.
- R.T.—Rural Township (see below).

(iv) **Metropolitan Areas.**—In each case the metropolitan area consists of the parent municipal area together with the adjoining areas which are urban in character and which are economically linked with the parent town.

(v) **Rural Areas.**—The whole area outside the jurisdiction of the various urban areas is classified as rural. This area consists chiefly of farms and Native reserves, but includes also the small villages, designated Rural Townships, which are considered too small, or not sufficiently urbanized, to be classified as urban.

In using the tables the following points should be borne in mind:—

(a) The following urban areas are situated in more than one magisterial district, and to ascertain the total population of these areas table 9 should be consulted.

<i>Urban Area.</i>	<i>Status.</i>	<i>Districts in which situated.</i>
Kuils River.....	M	Bellville. Stellenbosch.
Great Brak River.....	L.B.	George. Mossel Bay.
Cape Town.....	M.	Cape. Simonstown. Wynberg.
Pinelands.....	M	Cape. Wynberg.
Ashton.....	V.M.B.	Montagu. Robertson.
Durban.....	M.	Durban. Pinetown. Umlazi.
Westville.....	T.B.	Durban. Pinetown.
Tongaat.....	T.B.	Inanda. Lower Tugela.
Albert Falls.....	P.H.A.	New Hanover. Pietermaritzburg.
Boksburg.....	M.	Benoni. Boksburg. Germiston.

(vi) **Urban Areas.**—At present there are no figures available for the following areas:—

- 1. The northern part of the Orange Free State.
- 2. The northern part of the Transvaal.
- 3. The northern part of the Cape Province.
- 4. The northern part of the Natal Province.

<i>Urban Area.</i>	<i>Status.</i>	<i>Districts in which situated.</i>
Kempton Park.....	M.	Boksburg. Germiston.
Krugersdorp.....	M.	Krugersdorp. Randfontein.
Boesmanskop.....	R.T.	Wepener. Zastron.

(b) In table 6, the towns of certain districts do not appear in alphabetical order. In these instances Sub-urban Areas follow immediately after the parent municipality and are separated by a blank line from the urban area following.

(c) Where the urban or the rural figures in tables 6 and 10 are the same as the district figures, the former have not been repeated.

(d) A few of the areas shown in tables 11 (a), 11 (b) and 11 (c) do not fall entirely within the urban or rural areas as indicated above, but the areas shown in columns 1 to 7 are entirely or predominantly urban, while the areas in columns 8 to 22 are entirely or predominantly in the rural areas.

(e) At the time of the census the Trichardt Native location in the magisterial district of Bethal was placed under quarantine because of health reasons. It subsequently transpired that the enumeration was not completed in this location, and an estimated 640 Natives are, therefore, not included in the tables in this report.

As far as possible population figures for previous censuses have been adjusted for changes in the boundaries of urban areas, and the figures for urban and rural at previous censuses have also been adjusted in accordance with changes in status from rural to urban, and *vice versa*.

The basis of classifying the population into urban and rural areas is fully set out in Special Report No. 197—"Classification and Status of Urban and Rural Areas."

General.

(a) Population figures in this report are on a *de facto* basis, i.e. persons are shown according to their place of enumeration, the only exception being in the case of persons enumerated on railway trains on the night of the census. These persons have been transferred to their usual place of residence. It may be stated, however, that the very great majority of persons were enumerated at their homes.

(b) **Area in square miles.**—The area of the Union, and of each province and district, are in accordance with the latest information available. These figures are subject to revision from time to time as resurveys of various parts of the Union are made.

(c) The detailed census results, *viz.* Ages, Occupations, Languages, Religions, etc., will be published as the information becomes available.
