JOBS, PRICES AND OUR PLACE IN THE WORLD

Your vote in this European referendum is about you and your family's future.

Voting to remain, is a vote for a stronger economy, lower prices at the tills and more jobs.

The CBI estimates UK households are £3,000 a year better off in the EU. Meanwhile the AA has warned that drivers face an increase of £494 in the cost of filling a tank if the UK leaves the EU.

Can you afford to lose that kind of cash from your household budget?

CAMBRIDGE IS STRONGER **IN** EUROPE

"Remaining in the European Union is the right decision for Cambridge and for Britain. Cambridge's thriving research and technology base has benefited from tens of millions of European Union investment.

Your vote is about what kind of a country you want to live in.

 **We fear isolation, not internationalism.** Engaging with our neighbours is vital to tackle climate change, fight poverty and have an even louder voice on the world stage. EU action has brought improvements to our water and air quality and future cooperation is vital too.

We now live in peace in a continent that for centuries was ravaged by war."

Daniel Zeichner MP

EU Referendum. 23 June. Vote to REMAIN

CAMBRIDGE IS STRONGER, SAFER AND BETTER OFF IN EUROPE.

Don't put all this at risk.

"European action delivers environmental protections." **Elinor, Student**

"I'm originally from Northern Ireland. The thought appals me of turning the clock back to the days of Customs posts, queues of cars and lorries at the border." **Cahir**

"Access to the single market is vital." **Julia, Small Business Owner**

"The best way to fight the threats of drug dealing, people trafficking and terrorism is through practical cooperation between European police and security organisations which would be seriously damaged if the UK left the European Union."

Charles Clarke, Former Home Secretary

"The last thing our public services need is more instability."

Naomi, Nurse at Addenbrooke's

"Never take peace in Europe for granted." **Dennis, Pensioner**

"EU cooperation is vital for our thriving research sector."

Huw, Scientist

WARNING

**Out of Europe
Out of work**

Over 3 million UK jobs are linked to our trade with the EU – that's one in every ten UK jobs.

**Out of Europe
Out of pocket**

Being in the EU means lower prices in our shops because it is cheaper to trade and there is more choice – saving you on average £450 a year.

**Out of Europe
Out of control**

If we left the EU we would still need to pay into the EU budget to trade with the EU, but we would have no say over the rules.

Can you and your family afford the gamble?

Labour is IN for Britain

Join us today!

- I can help deliver a few newsletters in my area
- I am voting REMAIN in the referendum
- I would like to join the Labour Party
