Let me have for one year 12 V. O. A. series
in order to get off on hands for in Section
I am a relative just to a little house here
& 5 vol, this to date 1966 for 2 1/2 months

It is a relief to sit at a desk
with a permanent child of talking &
a family & sound reading. After two
lectures ^{next} week, I am free to turn to the
writing of my little book on the
of Des. studies saying of all our lectures
1/4 text - 2 years to be left on a degree
to be held on ^{the} committee for the next session
perhaps.

Some known or have been doing
or had many political persons -
or have had Mrs. Halston & W. Churchill
to dinner ^{in her} (weekends all day) from
a lot of N.Y. to that various N.O. & C.
The Front Bench liberals have, in fact,
been softening towards us - partly because
in an even way & partly because
a couple of you don't wreck their
schemes of "insurance" of losing the
Latham holding to the. What is our reply
to scheme is to reject the scheme,
Insurance Scheme not a big
reconstruction of Public Health. It is
clear that Public Opinion has got
tired out of silly head but
Insurance has some mystical moral

faculty which was covered the Kingdom
 Sin of Expedience was public fund.
 It is an amazingly total solution -
 the only and solution of its name
 was its "Voluntary Church" the

 you are left with a notion of provision
 which is provision of moral notions
 But then comes a time when it is
 useless to require all an expression
 of the public mind, you have to accept
 it, & of Mutual Decision of the scheme

 revealed his state of mind which is always
 interested as a case of the Psychology of
 Politics. He was utterly disgusted with
 his Parliament - said that the whole front-

 no one for my account but F. E. Smith!
 & still matters & he was contemplating
 at least of Mr. D. & some day let myself
 see of the Chamberlain. Donegal.
 His friends had persuaded his ^{father} ~~father~~ to
 Parliament; all he could do was
 intrigue & talk - but one can see

(8)

He was going about it
Dad Darius of Unimino interesting
& talking. He had no set ideas of
a social system - talked Vague
a grand concept called "social reform"
about being a ghost - some that said
upon the dead. Later, when he returned
Congress Darius he said that it
was "Socialism" but he
had not met it. He in
view of that, going to see Carter

 Ya Josophans, I fear Harris will have
 to look elsewhere for a lordship.

One thing is clear. Neither Harris nor
 "his friends" are going to help into our
 Cycle of Social Reform - they are not a far

 manipulation of channels of trade &
 lands - to do so as to set up
 a multitude of small new

My help is for J. to Commission. They
will be for Arthur Deafness - and
I doubt whether a horse completely
convinced him a matter he could

any small opinion he may have.

March 7.

Last night I was dead tired when
I gave my last lecture in London -
I think I have to speak to the Free Church
Council at Perth tonight - After that
or I am free of the strain of speaking.
Speaking for the remainder of our time
is certainly lower he is very, & to a
small extent agreeing. He has one

Lady Day - that supreme beauty of the
 properties which makes! If the historical
 Conference turns out - a success? I
 believe it shall have practically 'concluded'
 England's obligation of preserving Justice
 What will remain is doing that the
 Migration is proposed by 4 different -
 Polesi Authorities - to Voluntary Agencies
 attached to them. But Oh! I am tired
 - I sleep down tired. I shall put
 bed out - but not more the bed out.

The Federal Scout is doing through
 a crisis out of Dissent, out of Indifference.

 J. D. S. will; an anonymous high school

I have others of the same kind to
 design also. All with a view of
 making room for young men who
 are not there. Clifford Sharp who
 is a loyal & steady first member
 of the Society is in despair &
 Selwyn is running on of F.D.S.
 to their point. (Charles Shar-
 tel) Sharp, that F.D.S. he
 got sick of C. Felix's Sermon
 & saw the notes but they
 are productions, ^{that he} felt himself
 "too important" to take, in
 harness, with any one else. It
 is largely her fault - she has
 withdrawn him from association
 with us, after Felix's in view
 of C. G. G. his intellectual force

in fact a argument. It is
 clear from the letters to Felix Somf-
 ler to get a new impetus in
 reading Dostoevsky & more time.
 I am not sure that the time may
 not have arrived for a genuine
 Socialist party with a complete
 work on Philosophy & a very
 definite program. What is your
 view on the subject or will you
 know to read his. If it is possible
 of Dostoevsky's work to be set in
 open hand I am not sure whether
 it will better not be used in
 into constructing a Party with
 a Religion and an Affiliated Church.
 In that case I should like

The non-brain-outer has little
conception of the misery of the over-
excited brain. Yesterday night I lay
right through the long hours twisting every
Dantean detail a incident of an
afternoon a lecturing into a
fiend of Evil ^{a monster of} & ~~unpleasant things~~ -
And it is in the night that I
suffer from remorse for lack of
consistency between conduct &
conviction. All my little self-
indulgences - the cups of tea &
occasional coffee after a meal, the
regular ^{5 or 6} cigarettes consumed during the

- the extra expenditure on pretty clothes
 - all these things ~~and~~ from which I can
 have a shake myself free. One can even
 (I do) imagine that is spirit an ideal
 of perfect health, equality of income, and
 the noblest use of money? When the
 morning comes & one returns to
 the rough & tumble of a hard days
 work, and the necessities of human
 intercourse, ~~then~~ these schemes seem
 mere dreams & one goes forward
 without ^{of-faded} thought into the habits &
 customs of one's daily life. Still
 there lies at the back of one's mind
 a discontent with these compromises, a
 longing ^{to be complete} to get free into one's own world
 even in its smallest details of life.

Sidney has had a reputation for
 public speaking & public relations -
 partly because he is impatient ~~and~~ of
 stupidity - & partly because he really
 likes public speaking, he has perhaps
 better insight into the background & he
 does not like the intercourse &
 entanglements of leadership. The type he
 really enjoys is to sit in a room
 & staff things for other people &
 then to spend his spare time reading
 endless books & being with me without
 anyone there to bother him. And I'd like
 that he would like to go on writing
 great books of vision & research &
 enjoying the mild pleasure of an academic
 reputation. I suppose appeared to me

George Landrey on June ten

 in dictum of "insurance" is found in the present
 scheme & ~~perhaps~~ - but it will come out -
 after the Bill is well in Committee - will probably
 not be much attended to except by our own
 members. Landrey told us that yesterday
 came up to him after L.F.'s

triumphant exposition of his scheme with
 a pleasant feeling expressed "We have
 spoken you from, eh?" showing that
 he is honest to the end concerning
 of the Mining Report - & let the Government scheme

an intended as an alternative
 method of dealing with the problem
 of Descent. J. A. etc. goes on
 saying that insurance has finally
 "broken down". All of which is
 interesting. What remains to be seen
 is whether the training Dept has
 come too late to stop insurance or
 whether the present scheme of insurance has
 come too late to stop training Dept!
 The issue is far from complete
 state responsibility with a view of
 prevention, or partial state
 responsibility by a less form of
 relieving Descent as an accident
 with P on the but leaving to
 P on the to miss the full use
 of benefit. It is a true

Tailresses' Union submitted a lot, among
them some employers - others refused, so
these were cited before Board. Board
saw parties separately then to get
it made individual employers, and
induced them all, with some little
difficultly, to agree to the law, with
some modifications, slightly adverse
to workers, suggested by the Board.
This applied for a 700 operators, the
Union had nominally 390 members, but
not attending so many.

3 cases in Quekelland. { Tailresses

I asked in Seaman's case 7 days (more or
 less) in which the latter is it (days) - members
 of Board make suggestion & ask questions
 Board ~~was~~ met parties separately &
 then together - Tried to bring parties together
 in Seaman's case, but thought they had settled
 it. But ~~the~~ objection was raised to put them
 that amount should take effect after a month
 (Board had intended this to create Seaman's
 name to bring in smaller employees) but
 when others brought in, larger proportions
 objected. So a second sitting held, ~~the~~
~~the matter~~ employees did not accept.

Then, used to Anti-Crum, on Seaman's request
 could practically confirm Board's
 award, slightly differing in detail
 (now working most harmoniously)
 (Employees were determined to pursue action
 but said there was no dispute - Board
 concurred this, but held there was a
 dispute)

I am sure that if a strike had actually
 begun, it could go on until the Great had more or
 less been determined to win. Board
 admitted that a strike or lockout could not
 be begun after Seaman had been opened
 before the Board.
