

# Britain needs a better deal from the EU

## Britain and the EU: 'Change, or go'

- The EU status quo is not working for Britain – only a looser relationship will protect Britain's interests as the Eurozone integrates or disintegrates
- Britain needs fundamental change so that we can control our borders, trade freely around the world and return power to Parliament to block harmful EU rules
- Pursuing further integration against the express views of senior members of the Government offers the worst of all worlds

# Introducing **Conservatives** for **BRITAIN**

## About Conservatives for Britain

- Established in June 2015 to support the Prime Minister's attempt to achieve "fundamental change" in Britain's relationship with the EU and underscore the renegotiation with a credible prospect of exit.
- We take an optimistic global view of Britain, and believe we would both gain influence and prosper outside an unreformed EU.
- Our Co-Chairmen are Steve Baker MP and David Campbell Bannerman MEP. We are supported by over 100 Conservative MPs, half of Conservative MEPs and a significant number of Peers. Our supporters include:
