Dear Mrs. Billington Greig,

The Women's Freedom League needs to consider its policy on the question of the economic status of the housewife, and we are planning to have a members' discussion meeting on July 23rd. Our young Executive Chairman, Mrs. Bush, who has heard you speak, has asked me to write and ask if you would come and talk to that meeting, giving the views of the Married Women's Association. We have a certain number of younger members who are very keen on this question, though they may and probably do hold varying views, so that there will be other speakers perhaps who will not necessarily agree. What we aim at is a real discussion to enable our members to see the question in the round, with the idea that some policy shall be formulated and submitted to the Executive or the Annual Meeting.

The Meeting will be sometime in the early evening, 6.30 or 7 I think, and of course if you can come and help us, I shall send you the full details later. We shall be very grateful for your help.

Yours truly,

*Valerie Bompas*
