Bulletins. Washington, Government Printing Office. No. 427. Health survey of the printing trades, 1922-1925. By F. L. Hoffman. March, 1927. 149 pp.

— Bulletin No. 392. Survey of hygienic conditions in the printing trades. By S. Kjaer. September, 1925. 229 pp.

Public utilities.UNITED STATES. *Public Health Service*.

Public Health Reports. Washington, Government Printing Office. Reprint No. 1142. A ten-year record of absences from work on account of sickness and accidents (Edison Company of Boston). February 25, 1927. 22 pp.

— Reprint No. 1207. Sickness among persons in different occupations. February 10, 1928. 22 pp.

Public utilities—Continued.

UNITED STATES. *Public Health Service*. Public Health Reports. Reprint No. 1239. Trend of disabling sickness among employees of a public utility. July 27, 1928. 27 pp.

Radium.UNITED STATES. *Department of Labor. Bureau of Labor Statistics*.

Effects of use of radioactive substances on the health of workers. *Monthly Labor Review*, May, 1926, v. 22: 958-971.

Respiratory disease.

HUTTON, R. M.

Some queries about respiratory disease in industry. *Journal of Industrial Hygiene*, November, 1928, v. 10: 297-304.

NEW YORK STATE DEPARTMENT OF LABOR.

Women in dusty trades. *Industrial Hygiene Bulletin*, April, 1926. pp. 37-38.

UNITED STATES. *Public Health Service*.

Public Health Reports. Washington, Government Printing Office. Reprint No. 990. Dust inhalation and its relation to industrial tuberculosis. February 13, 1925. 19 pp.

— Reprint No. 1214. Importance of respiratory diseases as a cause of disability among industrial workers. March 16, 1928. 8 pp.

Rest pauses.GREAT BRITAIN. *Industrial Fatigue Research Board*.

Reports. London, H. M. Stationery Office. No. 42. Rest pauses in industry. A review of the results obtained. 1927. 21 pp.

— Report No. 47. Two studies on hours of work. 1928, 30 pp. 1. pp. 1-16. Five-hour spells for women with reference to rest pauses.

Rubber.

QUINBY, R. S.

Health hazards in the rubber industry. *Journal of Industrial Hygiene*, March, 1926, v. 8: 103-112.

UNITED STATES. *Public Health Service*.

Public Health Reports. Reprint No. 804. Disabling sickness among employees of a rubber manufacturing establishment in 1918, 1919, and 1920. Washington, Government Printing Office, December 15, 1922. 12 pp.

Spray painting.NATIONAL SAFETY COUNCIL. *Chemical section, spray coating committee*.

Final report. Chicago, September, 1927. 53 pp.

SMYTH, H. F., and H. F. Jr.

Spray painting hazards as determined by the Pennsylvania and the National Safety Council surveys. *Journal of Industrial Hygiene*, June, 1928, v. 10: 163-214.

Telephone operating.

RICHARDSON, A. G.

Telephone operating: A study of its medical aspects with statistics of sickness disability reports. *Journal of Industrial Hygiene*, May, 1919, v. 1: 54-67.

Textiles.

DEARDEN, W. F.

Health hazards in the cotton industry. *Journal of Industrial Hygiene*, September, October, November, 1927, v. 9: 371-401; 453-472; 488-502.

GREAT BRITAIN. *Industrial Fatigue Research Board*.

Report No. 48. Artificial humidification in the cotton-weaving industry. Its effect upon the sickness rate of weaving operatives. London, H. M. Stationery Office, 1927. 73 pp.

MIDDLETON, E. L.

Weavers' cough. *Journal of Industrial Hygiene*, October, 1926, v. 8: 428-435.

— Dust in cotton card rooms. *Journal of Industrial Hygiene*, October, 1926, v. 8: 436-448.

— The presence of mineral oil in the atmosphere of cotton spinning rooms. *Journal of Industrial Hygiene*, October, 1926, v. 8: 449-451.

Textiles—Continued.

- UNITED STATES. *Department of Labor. Women's Bureau.*
 Report No. 52. Lost time and labor turnover in cotton mills.
 Washington, Government Printing Office, 1926, pp. 67-71. Illness as
 cause of lost time.
- *Public Health Service.*
 Studies of sickness in seven cotton-mill villages of South Carolina.
 Public Health Reports. Washington, Government Printing Office.
 Reprint No. 492. Disabling sickness among population of . . . in
 relation to family income. November 22, 1918. 16 pp.
- Reprint No. 601. Pellagra incidence in relation to sex, age,
 season, occupation, and disabling sickness . . . during 1916. July 9,
 1920. 15 pp.
- Reprint No. 621. A study of the relation of family income
 and other economic factors to pellagra incidence . . . in 1916. No-
 vember 12, 1920. 44 pp.
- Reprint No. 929. Disabling sickness . . . 1917. June 13,
 1924. 27 pp.
- Reprint No. 938. Disabling sickness . . . 1918. July 18,
 1924. 16 pp.

Weight lifting.

- GREAT BRITAIN. *Industrial Fatigue Research Board.*
 Report No. 44. The physique of women in industry. A contribution
 toward the determination of the optimum load. London, H. M. Sta-
 tionery Office, 1927. 137 pp.
