

AL/1817

Hengwrt,
Dolgelley,
N. Wales.

July 16

My dear Mr. Powell,

I have been extremely

hoping when that you

have been protesting against

Mr. Cad's Sermons: Most

glad would I give my voice

against the such demon-

strations:

I am sorry to find you
happened I have just

printed concerning a contribution

Dance engaged in with the
authorities of Lawrenceville

Hall. There is nothing
important about it, - but

there is much behind
thus I am not at liberty

to publish. I am viewed

by them that there

are not students at Cambridge

who go a good deal further
than merely waiting with an

invitation Prof. Foster's demon-

stration. I would give

credit your powerful
influence & kind of power

day in opposing this

deafening (and unquestionably

gross & contemptuous) passion

per inspection; the new

vice (and really seems to be,

of scientific cruelty -

It is quite common enough
among the very men - who
some of my men friends at
Cambridge tell me can quite
be numbered for their hardness
as all subjects - But I have
knew women - Colleges where
I have watched with such
sympathy - & which I must
regard with such righteous
pique, turned into training schools
for pitiless instructors, it be too
miserable a Calistrophe!
See what the boys in Edinburgh
are undergoing in the way of brutality
Hewart - J P Collier
