Dear Miss Gruner

Thank you for
your letter. I notice that
you speak of the Memorial
to Cambridge as the first
step towards the Higher
Education of women.

There was an earlier Memorial,
addressed to the University
of London, but even this
was not quite the first
step. I am now sending
you a pamphlet in which
the stages are noted from
1848 to 1896, & shall be
glad if you will accept
it, as a further addition

to your archives.

Yours very sincerely

Emily Davies.
