Cawnpore

11<sup>th</sup> May 96

My dear Pippa

You will be somewhat pained to hear that I am supposed to have jaundice to a mild degree

Except making me rather depressed it doesn't seem to do much harm

(though slightly sapping) but it

is considered that a change of climate would be a good thing, so

I am going to Kaimtal for a fortnight.

This is very good and I

expect to have a good time. I

start this evening and arrive there

tomorrow afternoon so you see it is

quite close. The chief point  
of Haini Tal is I believe the  
lake in fact all about there  
are lakes which simply swarm  
with fish (maliseev). I am taking  
a rod and shall probably do  
some fishing -

Nothing much has happened  
lately except that I heard from  
Stone who says now go on  
leave when you can and you  
will have plenty of construction  
when you come out again - just  
the same like Robertson - so that  
is settled thank goodness and  
you may expect me to arrive

for Xmas next. There will be  
just time to get there if I start  
the moment leave is due i.e. Nov.

28<sup>th</sup> I don't think there is  
anything more to relate - Don't  
imagine I am dangerously ill  
because as a matter of fact I  
am perfectly well

Next week beautiful descrip-  
tions of mountain scenery.

Yr. loving brother

Ralph
