Dear Mr. Howman

Thanks for your letter & the report, & the very good number of "Das Suffragit". My son has just come home on leave, he looks very well in spite of the tragedy & suffering he has lived among with bombs falling from the "Taub" daily killing & wounding hundreds. He has horrible stories to tell of the battle field & hospital how men stick it at all I can't think. I have just had what the doctor calls influenza, though I differ entirely about the diagnosis I call it "bad throat". Yours sincerely  
M. W. Emerson
