Dear Madam -

May I ask you to
tell me if the
Women's Social Political Union
approves & will join
its forces with yours
in the Joint Women Suffrage
Demonstration announced
for Feb. 9th by the "Tribune"?
I must withhold my
small subscription to
your funds until this
question is answered.

I am a Conservative
& come of three generations
of Conservative women
but I am persuaded that
until our objective point
is reached all minor
differences should be
sunk in the one aim.
When that is attained
women will show
to sort themselves
according to their respective
beliefs & predilections.
I confess that the
name of Lord Courtney
of Penwith on the
platform at Exeter Hall
in this connection gives
me "furious to think"

Remember him
as far back as the
days of his professorship
at Univ: Coll. He was
a supporter of the Liberal Gov:
but a trenchant supporter
he is now a woolly-faced
old obstructive removed
to the House of Lords,
as is well known, because
he was not wanted.

When men are too old
& stupid to be allowed to
work for other men
they begin to meddle in
Women's Concerns —

Please, may I have a
reply to my question?
