Sept 2 - 2

My dear Janie

So glad to hear from you.

I have been here with since May. We

leave on Sept 28th & I come to the

Halcyon Club where I'm going to be

for a fortnight; then I join further

in Bourne with you. It seems to

be the best plan, as she has her interests

there which keep her amused, & I am

therefore free to be at my ease mentally.

She has been unfurling good & kind.

Also I cough less in a softer climate,

& Dr Sykes says that is my worst enemy.

better physically. Now I can walk very
well. But my brain & are very very
much better & though I can't do much,
I can give more & more & more & more
& a few things to amuse myself.

Take a deep interest in everything.
I hope you will be in London when I am
there & come to the Haydon to have a
nice long talk. I can't knock around
or I'd come to you.

Alas, what times - we must talk
of them. I'm heart & soul with the
National Government & think them
splendid. I think if we get into the

with your friend. Also glad to see your dear

which I am having her.

I hope that you have had the pleasure
of your nephew, & how he prospers of New

My love to your mother & the girls, &
I am so much to you, dear, & much
looking forward to seeing you.

I don't feel being near London
much good, & I can't come up & down;
can't get about. To see, with any ease.
That is why I'm coming to have a real
little spell at the Club, sit in a chair
& see some of my friends. I hope you are
well & in good form.

Always lovingly
