Dear Miss Alderson.

So many thanks for both your letters. I think it is quite right for us to give up some of our rooms. I wish we could do it without involving some degree of discomfort for Mr & Mrs Strachey but I hope this will not be really serious.

I send you a few notes I made of Mrs Swannick's speech at the Women's International League WW meeting yesterday. I think

You will be pleased to hear that our
chief aim of the N. I. I. is

"To keep alive, if we can, the love
of free institutions."

They can none of them have the
smallest sense of humor or they
would never say such things.

I did see Mrs. Flintham at
the office yesterday. She is a

very nice woman & very capable.
I feel very sorry for her. I am afraid
her outlook is very troubled.

Yours sincerely
