This is just a line to explain
what I think must be my absence
of the Suffrage meeting tomorrow
night. I fear the beginning of the
end has really set in with
daddy Salisbury, tho' it may be

prolonged sometime, the domes-
tic conditions, need that we
sh. all do our part, & of a
there whenever I can manage
it. I have been asked to make
a point of being at dinner
with Salisbury on Thursday,
as she will be in bed after

a tapping operation, & the family in the house, have various engagements that night.

It is always difficult to know exactly what S. is thinking or feeling, but I don't think he is as blind to the conditions with her, as some think him.

He certainly likes company at his meals, & I have ^{often} no

I sh. undertake to be there.

My social night work just

now is pretty severe with

my out-daughters, & if I am to make two ends meet

I sh. not attend many meetings. I don't propose to say I am not coming, but you may see Palliser & Co, looking round of me & then you will know. Don't answer this, I hope to see you Friday.

How differently we feel towards the Peers, than in the Home Rule days! FB
