AL/1650

Dear Philippen,

Your welcome letter is the greatest possible delight to me. You are  
as usual much too good to me. But I like it! and I do recognize  
that magnificent work on which Ray has put into this great  
struggle about the position of women in the Civil Service. Of course  
we should have been just nowhere at all but you see how blessed odd  
I am looking forward very much to the Women's Leader of this week.  
The debate is very significant. So far as I have read there is no  
open opposition to the women's case. Bamberg & Cook don't count.  
With all respects and thanks for your letter & for all your magnificent work

Ever your affectionate

M. G. Fawcett
