Sept 29
1846?

My dear Miss Hubbard

It always rejoices
my heart to hear from you for I
have such sympathy both with
your work & your heart's lament
self. I wonder if there is any
chance of our meeting - I am
to be in a few days in London
I see my sister Ida actually
off to India I thought I had
taken leave of her here
but she is anxious to see me
once more so I go - I shall

take the opportunity of doing
a little shopping & then I shall
finish my family visits &
return for that purpose to

Providence about the 15th

I shall be in town from

the 11th

I was much pleased
with Miss ^{letter in woman's form} Jewell's proposal

which was really very like

my Paper A. I wrote to her

& sent her a second paper

trying to embody the 2 ideas
I send you a copy - I have
submitted to Miss Octavia
Kell but have not yet received
her answer - I think the

guild might be a connecting
link between many who

(like Mr. Margon Wilson) are

working separately from each

other - From Miss Jewell's

answer I see she does not

seem quite to understand
how that could be done -

The Secret I have great respect
for the poor "incapables."

As soon as I have heard from
Miss O. Bell I shall write
a paper for ^{of the Gazette} Prover. Number
& if you think it worth inserting
you can do so, if not no matter.

What steps are you taking
for making V. Gazette known?
Could you get some known man
to write a letter about it in
the Times or get a mention of
it in some way in a leading
paper - would you like me to

cont AL/3074

Send some copies about for you
I understand. Of course
I wish to be a subscriber -
It does not quite appear whether
the 1/6 is the cost of one copy
or of several. as you mention
the price 2. Monthly 2s. 6d.
be 2/ a year including postage.
I am leaving Tynemouth on
Monday the 4th - Could you
let me have a copy by then -
If it ~~has~~ been posted no I could
not get one but I stop at

Newham on my bag books
& I should much like one then
I show to several people -
My address there is
Newham Paddox
Lutterworth -

That is my beloved home of all
my life now so changed alas -
I hope to be there on Wedg
the 6th

I will send the printed order
you gave me & the 1/6 in
the order "To the Editor" with

permanent
my address that I may
get them repaid but if you
will send me \$ Newham a
share copy I shall be glad -
Miss Small objects to the
name guild as involving
some sort of rules & meeting
I suppose of a religious nature
"according to the modern ideas"
but that is not the real
idea of the old word -

She suggests Ladies Aid Society
"but I should like it & the name

Get money I should like
than a society I should like
it the more of a band of those
seeking one object & working
together in various ways -
I don't quite like Ladies Aid since
it does not imply the joining
together of various other charities.
Perhaps I shall have a happy
inspiration some day - Miss
Lewell's idea of helping the sales^{men}
of those who subscribe & friends
to societies & buy deferred annuities
has long been a great wish of mine
for it encourages prudence but it
must not be confined to women
or it will do harm. G. M. Mott
