My dear Miss Stracey,

I ought to have answered yr. second letter long ago but had such a mass of letters to sort that I couldn't get to it till now - Grace Struquell's little brother & sister are no longer with us so I get no side-letters on her either. I see no reason for not revealing Grace's name to anyone likely to be of any help in her case - if you see any opportunity of being of service to her by doing so - These 14-year-olds are difficult enough to handle - especially with us Mother alive - I ought sooner to have sent yr. Soc. a donation for all the trouble you've taken. I wish I'd make it ~~an~~ ann. subs. but I dare not increase regular commitments in present circumstances much as I sh^d like to.

I was much interested in yr. Circular letter.
Thank you! All good new year wishes
both to you & the dear old society

Yr. Sincerely
