

Very nice women but we can
talk as much as we like but there
is an officer who takes note of all
we say. My sentence dates 3
months from March 19th so I
shall really be here 3 months or
14 days. There is a visitor on
May 1st. It is not decided for
those who have not written
to write. There is a lady in
Dunfermline who comes from the north
of Scotland. She has just let
herself down briefly. She has heard
nothing of her husband since.
They will not know who the letter
was for + the Gov^{ment} will not let her

I had out a letter. However I had
just been put right by other means.
The women are being asked to
be bound out but even for any
specified time. but they would
like to get rid of Dr. Chapman at
almost any price - but of
course Dr. Chapman refuses.
Port Nurse Patfield's crew
at night how thankful we
should all be to see Dr. Chapman
being released. The Captain
to the most useful sticks
He refuses to give Mrs

Saul Solomon the Communist
v said the only principle she
had in her to work 2 + a
Cup of Coffee when she went
out! I was not there at the
time but a Scotch lady who
was with her told me. There
are chiefly Scotch v Irish
women in the Ward. A Mrs
Gatty I like very much she
only found out today that
I had Lily's sister's Isle
