Dear Madam

In looking over some
Australian papers the other day
I came across the enclosed
leaflet. As I have not seen
any opinion of Bentley's
harmable to women's suffrage
but that since I have
marked on the leaflet I
send it to you for the
chance of your thinking

CHESTER BEAK

DERRY

it would be I suppose to
the cause to add it
to any newly printed
opinions of men of
influence — I was
glad of it myself lately
since of a relation of mine —
an audience follows of
Huxley's, I think,
both surprised & impressed

by the discovery ^{had} us
and his hero on our side!

It is not included in
the Aphorisms & Reflections
selected by from his
works of Henrietta A. Bush
