Dear Mr. Phipps,

It makes me feel like a pauper & I know that we
shall see her dear face no more. Her sweetness, her
grace, her courage were such wonderful. Ray was
here this morning and I hope probably the next morning
not come for many days: but it is what it is, I wish that
she should just exist and nothing more. I am thank-
ful she lived & know of the victory of many of our great
things for which she worked. Agnes joins me in loving
thoughts of you all and in thankfulness for her long
and beautiful life
Your loving M. G. F
