particular. As regards these matters are
I meant. -
Dear Mr. Williams
Mary's Hospital, June

Mary's Hospital
15 Aug. 1877 -

Dear Mr. Subbar.

I was afraid you
would think I was busy
in forwarding our
Regulations to you, but
the fact is, we have
been unable to get
them from the printers.
As soon as ever they
come you shall have
a copy - I am yours

away on Monday for a
few weeks. But that
will make no difference
I will leave directions for
them being sent -

You ask about
vacancies for nurses -
About November I shall
be very glad to engage
three or four young
women to training nurses,
the best for the purpose
are those taken from
the ranks of upper class

domestic servants. Of
good health, intelligence
and education -

At present I have
no nurses save those
in other institutions, we
need all we train
for ourselves. But in
about another year
I shall be able to
supply them to others.
Those who wish to
become Probationers

should apply pretty
soon, so as to secure
admittance. At
present I have plenty
of lady applicants. But
alas the right sort do
not always come forward.
Small delicate people are
not suitable however willing
they are to work. It needs
a certain amount of
presence. and a good
practical knowledge of the
work as well as real
frugeness and a high moral
tone. You will thank me over,
