Dear Miss Stacey,

I have taken the risk of summoning a special meeting of Committee for Thursday to consider whether we should not make an official statement dissociating ourselves from the cause so far as we are concerned from the criminal insanity (my views only) of the Clement's Inn pronouncement. Surely we are all, in one sense at least, citizens as well as suffragists, and even if the "rush" were in all respects finally successful what shall we think of the precedent thus created

for compulsory legislation in the future?

Is there any likelihood of your taking any  
action (in Central Soc. or Nat. Uni.)? Please

let me have a line by Monday, marked "personal"

I saw Mrs. Ann Thurgate last night. She is  
dead against the proclamation of her old society,  
and is doing all she can to keep the Freedom  
League out of it.

In great haste,

Yours sincerely,

James Malcolm Mitchell
