DINAPORE R.S.
E. I. R.24th April 1903

My dear James,

Many thanks for sending the catalogues &c of Colour Photography. I have sent to Sanger Shepherd and Lumiere for specimens before deciding which to go in for, but Sanger seems to me to be the easiest to work, one great advantage being that all the negatives are taken on the same kind of plate. However as it's not much we're trying to do it until the cold weather, there is no hurry. If you get any more information

I shall be glad to get it.
What about the colour photo-
graphy on paper which they
both advertise? Is it any good?
If so it would be the thing
to go for. How is Frena getting
on? I turned up that terrible
full sized Kodak portrait which
I made of you the other day
and had to take several large
pegs of brandy pounce before
I recovered from the shock.

I enclose ~~two~~ photographs of
her godson for Pippa and an
advertisement of cheroots for
Oliver on the strict condition

that the party in question
acknowledges receipt per return.

My wife and child are now
at Mussoorie where I hear
they are flourishing exceedingly.

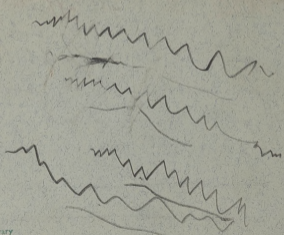

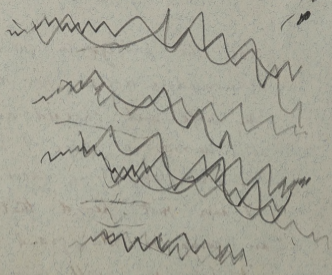

I have just heard that you
are going on the grand tour,
and hope you will enjoy it.
