My dear Daisy.

Thank you so much for all your kindness.
I am not doing anything more until I feel something
practically enough friends, & so I am fixing up nothing
& can avoid Mrs Roach or her friend or anyone
else one hears of & have taken on above for a month
G said you were so good & kind. She went to the
dentist afterwards & what will be the result of her searching
came back very poorly. She is a little better. I have to
have 2 molars out & have to come up on Tuesday &
the dentist here won't handle me at all unless he has his
London aesthetic (because) ~~take an aesthetic~~ very
badly indeed. I had to warn him because of what Miss
Sykes who operated on me. went through. Such a bore, but he
says his teeth are affecting my glands & there is no choice. Miss
Sykes who has been a brick all through is in communication
with him so I expect it will be all right. I do hope
your new mother is better & that all goes well with the new comers

family. of course to meet cell G July!
much love, dear, & loads of thanks.
