1st August 1913.

The Medical Superintendent,
Guardians' Infirmary,
Marloes Road, Kensington, W.

Dear Sir,

re Mrs. Mary Wyan.

I beg to thank you for the facilities granted to my daughter to-day when visiting this patient.

As a result of this visit, I should be glad if you would kindly relieve the patient's mind of worry on the following points.

- (1) Her gold chain and keys which she could not find are in my safe custody.
- (2) I understand that the patient states that she deposited her Second Licence under the "Cat & Mouse Act", and dated, I suppose, on Tuesday last, July 29th, in the locker beside her bed.

On looking for it there this morning before my daughter's visit she reports that she cannot find it.

She cannot recollect the date when this Licence expires, and as I have never seen it, I have no knowledge on this subject.

Perhaps you will relieve the patient's mind by informing her and me of the date when this Licence expired.

I beg to confirm my telegraphic reply of 7.5. p.m. yesterday, viz:-
"Medical Superintendent Guardians' Infirmary, Marloes Road, London, W
"Your notification reference Mary Wyan to-day just received 7.0.
"Telephone details at once 1279 Finchley can come on receipt.
"Capt. Taylor." (In reply to your two formal letters of the same date which were received by me here at 7.p.m.) And also your telephone conversation with me at about 8.p.m. in which you explained that your formal letters had been posted before my visit at 11.30 yesterday.

Yours faithfully, *T.S. Taylor* Capt.

1 AUG 1913

P.S. August 1.13.

I understand that the patient also reports a general impression that on waking this morning, she had during the night an unusual visit from two ladies who claimed to be members of the W.S.P.U., but of whom she had no previous knowledge; and that the Medical Officer in Charge reprimanded the Nurse for admitting visitors without an introduction at such an unusual hour.

T. S. Taylor
