Dear Mrs Billinghurst.

I am not quite sure of the day on which you will be able to send off the letter to Holloway, but do not want to be late, so am forwarding mine now.

Mrs Billinghurst, is often in our thoughts & our concern grows as the days go by. I have expected every day to the announcement of her release.

Indignation over forcible feeding grows daily! People know you cannot see the whole meaning of the Suffrage campaign, even to grasp it a little more through this cordial of the Government's suppression and torture of brave fighters for liberty. Use it as a weapon in argument always. So you see that this suffering is not wasted. But takes it due effect in the world of causes.

With much sympathy but also great admiration of our prisoners. Yours sincerely, Kate Cardo.
