1916

Dear Philippa.

I do thank you most warmly
for our dear little note and the
accompanying fascinating little case
of buttons - just the thing for the
way-faring woman!

I do hope you are really better &
are able to look forward to

1917 as a more or less normal
time for yourself as ever

health. Only I do beg and pray you
not to overdo yourself again.

I have so many things to congratulate
you about — the fine record of the
London Society in the year lately
ended; your new nephew also, I
am glad to hear, is to be named
Christopher: (William was at one time
threatened) and in getting your

broken back from Egypt safe and sound
after the perils of the Mediterranean
voyage.

I think there
are many signs of that time
has come to take up Saffrage work
again. People are already beginning
to say "There is no sign of any
movement for W. S. anywhere."
Of course this is absolutely unreason-
able but we have to deal with it.

With all good greetings for Christmas
and for the New Year

Always yours affectionately
