WOMEN'S VILLAGE COUNCILS FEDERATION.

FOR
STATE-AIDED HOUSING AND SOCIAL REFORM.

"Till we have built Jerusalem
In England's green and pleasant land."

AIMS.

1. To assist the State-aided Housing Scheme of the Government by obtaining first-hand information on rural housing and the present acute shortage of cottages, and bad conditions; to promote Maternity and Infant Welfare, and the cause of Education.
2. To enable working women to educate themselves to take their place on Parish, Rural District, and County Councils.

Social reform in rural districts cannot progress without the aid of village women; the nation must no longer lose their collective experience and practical knowledge, through lack of co-operation, in matters vital to Home and Health.

Women Voters, get good Houses built for the
Soldiers who fought to protect your Homes.
