Dear Alice Post:

Thank you very much for the copy of your most interesting letter to Edith Low-Mortyn. I can imagine how she and friends, will enjoy reading it. It is a liberal education for the censor too. I hope you have written your own life story. It should be intensely interesting, with all you have done for humanity in general and women and children in particular.

Did <sup>you</sup> notice the article on Jamaica, B.W.I. in May Equal Rights? E. Stitt "organized" them for that (and Birth Control) about 5 or 6 years ago, also helped them to get their first woman councillor, Mrs. M. M. Thibault, elected.

Thank you also for the lovely pictures and. I'd love to see them in the flesh. And the Prayer is much better and more to the point than most of the prayers ~~than~~ <sup>with which</sup> humans among the

Almighty, ~~with~~ Telling Him one thing  
and doing the exact opposite. No wonder  
the world is in this hell of a mess.

A friend of mine Elizabeth Green, of the old  
Pantchoist Militant, ~~she~~ <sup>who</sup> married Charles  
F. Bacon during the '20s, and was left a  
widow two years ago, ~~she~~ maybe coming  
out to visit her brother in S.F. soon.  
When I ~~hear~~ hear from her forever,  
I'll give her your address, for you will  
have items of mutual interest to discuss.  
Excuse the mistakes and corrections, please,  
I am somewhat under the weather, cold and  
rain, simply miserable! Gives me the  
ditters!

With love  
Fitzy Morrison
