Dear Miss Corbett,

In reply to your letter of May 24th enquiring whether the Executive Committee of the London Society would desire in the future to receive copies of the Minutes of all meetings of the Executive Committee of the National Union, I am instructed to reply that my Committee are in complete accordance with your own as to the interest and value to local Societies of these Minutes.

They hope to receive an estimate of the approximate cost and do not anticipate there will be any difficulty upon this point.

Yours faithfully,

P.S.
