Xmas

By dear W Edwards

I was very glad to  
get your cheery letter a  
few days ago with its  
kind wishes. You will  
soon be in the land  
of sunshine & I hope  
to enjoy us usual as  
to planned spring

In my this course was  
known to Sam Peano  
I should like to know  
if this is my wife's  
sister - (I believe) Mary  
ally, Madame Van Eys  
of Villers Van Eys, & all  
on me. Thus introduced  
by friend the Schuyler

When, & they were delighted  
with her, & her husband.

They have now returned  
to New York & have been  
taking much kind trouble  
about the birth of address  
to me, which I also was  
proud to sign. They  
had the first written, as  
I think it will interest many  
of my friends, many whom  
I hope they will see.

Considering all of heretics  
the led is a curious testimony  
of the widening of sympathies  
& dropping of prejudices in  
the nineteenth century -

Perhaps 2 will send  
me a true source of the  
Mentone? I believe I should  
stay near Mentone would  
be sea water - but perhaps  
is about 1000 in safe address

With sincere respect
