My dear Mr Bentinck,

I am very interested in your letter  
and wish I could name an early day  
I must for to hear your experiences.

But I am just starting for, <sup>St</sup>  
Scotland, & will be North of England  
and shall not be at home again  
for about 12 days, & as soon  
as I have had a day or two at

home I start again early in December  
for our South Western Federation.

I have long been urging the men's  
League & Mr Fee Lance

to start work on the lines you

mention i.e., to form groups of

voters in every constituency who

will put W. S. first & make

Minions and influence depend upon  
it. The idea seems to have caught  
on at last, and I have little  
doubt that your work has had a  
large share in accomplishing this.

As I shall not be at home (L<sup>speaks</sup>  
of) till mid December, would you  
like L to go to the MA office & tell  
an experimenter L<sup>is</sup> up Country?

I heard in Newcastle lately  
of a splendid Town's Meeting

you had had there.

Yours sincerely,
