Dear Mother we
have put up

a speaking tube
from the kitchen to the
garden. to call Ethel when we have
tea there, & to tell her what we want.

Yours lovingly
Mark

Mark has kept me busy today as
usual. Dora is well & working
fast has had grand weather in
Bosset. & returns tomorrow.
School this week.
I was in London for a few hours

on Thursday. I wish I could
call. The trains are getting
back by degrees after the strike
but they have been very awkward
& wasteful of time.

The Titanic disaster has upset me
a great deal. I knew several
people among the lost, but no
personal friends.

I have written to thank Mr. Hankinson
once more. He will always be
in our debt.

I called on Mr. Steepman today
& was very welcome.

I have been of some business help
to him this week.

Miss Corner (or Mrs. Corner Wilson?)
says how grateful she was for
your early help.

The flap does a good deal of
fluttering just now.

our dearest love to you from us all

I had a letter from Mrs. Corner
Wilson today - very kind - telling
us about you.

All the fruit blossom is out

in the garden over the wall
& is just perfect.

Things are getting on very
well & it seems quiet without
Guth. We shall be glad to see
him again tomorrow.

The Conservative got in for
Motttingham - his majority
100 reduced. It was such a
pity. The National Union
were working for the Liberal

as he was favorable, &
we & the anti's worked for the
Conservative.

We have all our meals
except breakfast in the back
garden.

Daddy has had a good
rest today. Always our
best & proudest love.
Your Doro.
