Dearest Tom and my precious children

I can't help feeling rather anxious about you. No hope you will not run short of food during the strike - or have riots - It is a terrible time for the country. I think this pattern is most suitable for you - it is not so light as most of the cloths. He must keep it to wear as a change. He wears his present dark suit for escapilles as it is rather light.

I shall write a longer letter tomorrow

Goodbye my darling's

Yours
Melba
