Dear Miss Newsome,

In common with many whose voices carry farther than mine, I would be more than glad to see that fine character and valiant worker for the public good shown the public honour she deserves.

I don't know the present Prime Minister, and in any case, would feel that such high claims as Mrs. Pethick Lawrence's should be sponsored by a specially chosen list of signatories, likely to carry weight with the Powers that Be.

I feel quite sure that the expression of a purely personal admiration and appreciation would find its way into the vast accumulation of suggestions held

to be inspired mainly by private
admiration and personal affection.

My name obviously could not help
as much as many another, but I would
be proud to see it at the end of
such a list as you can easily imagine
would be obtainable.

Yours very truly,

Elizabeth Bonner
