June 23rd 1909

Dear Madame

I am a member of the Radical Suffrage League & also of the Addresses Franchise League & some time ago I had the pleasure of calling upon you.

As a suffragist - I would like to bring the enclosed lecture to your notice. I have

Therefore I trust dear
Madame you may be
able to give this Harper
System some small
investigation.

Also may I call your at-
tention to the April no: of
the "Anti-Suffrage Review" &
the article by Mr. Hartman
in which he states
that 2 suffragists of different
Societies recently came to
blow upon some matter of difference.
May I ask if you are doing
anything in "the matter"? I
believe the other Unions
are being approached on

had the opportunity of studying
the system & find it is a
great educational & physical
gain to women - as it
helps us to build bodily strength
& development.

The "antis" maintain that
women are by nature physically
weaker than men - the
Harper ^{System} "proves this by practical
results" an untrue assertion.
I think the women of this
Great Empire of England should
investigate the methods that
pertain to the physical & ^{mental}
development - of women - to
reach thro' them the race.

the writer so persuaded
to write & bring it to your notice
also.

With all hopes of speed,
Success in the Great Cause

Yours truly

Hora Campbell-Patterson
