31<sup>st</sup> Jan, 1929.

My dear Mrs. How-Martyn,

I am much interested  
in your letter, & presentation  
of the cases of your Women,  
left to flounder in utter  
ignorance, when any sane  
my method of "Birth Control"  
should be laid before them.

May I hope that  
some day soon - if weather  
improves, you may be able  
to come & discuss it with  
me over the tea-cups?

For some ~~months~~ <sup>weeks</sup> ~~ago~~, I have, —

I have been laid up from  
unfortunate results of a  
chill on lungs, &c.

Therefore, I am unable  
to go out, as yet, & am  
undergoing a course of  
treatment.

I promised myself the  
joy of being at this  
coming "Suffragette Dinner"  
It is a grief that I  
am unable to be present.

But; my Daughters &  
two friends will represent  
me.

How plainly all our  
grant Campaign is spent  
out through memory's mo-  
oring Tribes !!! I am  
living to-day through "Black  
Friday" again (!!!) and  
the repeated joy of enter-  
ing "The House" !!! do!

My warmest wishes  
please, for you all, &  
I can but hope you

"Dinner" may lead to  
a Real Awakening to  
Noble Endeavour, - on the  
Part of the Splendid  
Fellowship of The  
youth of To-day, for  
the Reforms sorely needed  
for the solution of  
Modern Problems!

Hand in Hand! Heart  
to Heart, shall not  
our Sons & Daughters bring  
down the very walls of  
a New Jericho?  
Hail! O God Speed!
