Dearest Pipke

I casually saw in the Morning Post yesterday an announcement of Angelica's death. Do try to find a moment to tell me a few details. I should like to write to Dauther but can't without knowing something. I am afraid it may have been something abnormal. Don't forget to put their address which I haven't got.

Everything seems to be getting more & more depressing - Personally I am feeling more than usually dashed as Simon has just been put in the service arme! It is not very likely that he will actually go into the firing line but all hopes of getting him out of the beastly thing before the end of the war are now at an end. I have written the details to Ray -

I hope you are getting on pretty well. It is wretched about Edith isn't it? I have just had a lamentable letter from Connie -

Nothing is known for the present - as to what is going to be done to Simon. In the mean time he is staying on all

his American hospital and quite comfortable.

We get very good accounts of the Vandens as far as health goes. Zoom seems very well and enjoying herself. One of the daughters of the Brussells brother, a little girl of about 16, has just had a 'transport au cerveau' as the result of emotions and couldn't recognize her parents for 10 days. Is now said to be recovering.

I expect I shall be going back to La Souco in about a fortnight's time. We are looking forward to Julia's arrival very much. For news of Janie w my letter to Roy.

Yours ever loving

Dorothy
