

Mr. M^c Kenna also states that the feeding cup was used on other occasions whenever I refused food
"until Jan: 18th"

~~(From Jan: 16th at 12 noon until Jan: 18th at 11 a.m.)~~

I never voluntarily took food. On Jan: 15th

I felt too weak to resist their pouring food down my throat + from Jan: 16th at 12 noon until Jan: 18th at 11 a.m. when I was released, no food whatever passed my lips. As I see from the papers a few days ago that the medical officer had certified that my heart was weak.

I can only conclude that I was released
before my death would bring scandal
to the Government!

I should like to add that the
whole process of forcible feeding is a
torture both mentally + physically
+ most degrading to those who perform
the operation.

R. May. Billingham.
